

Surface Al₂O₃ content (%) in the catchment by cluster

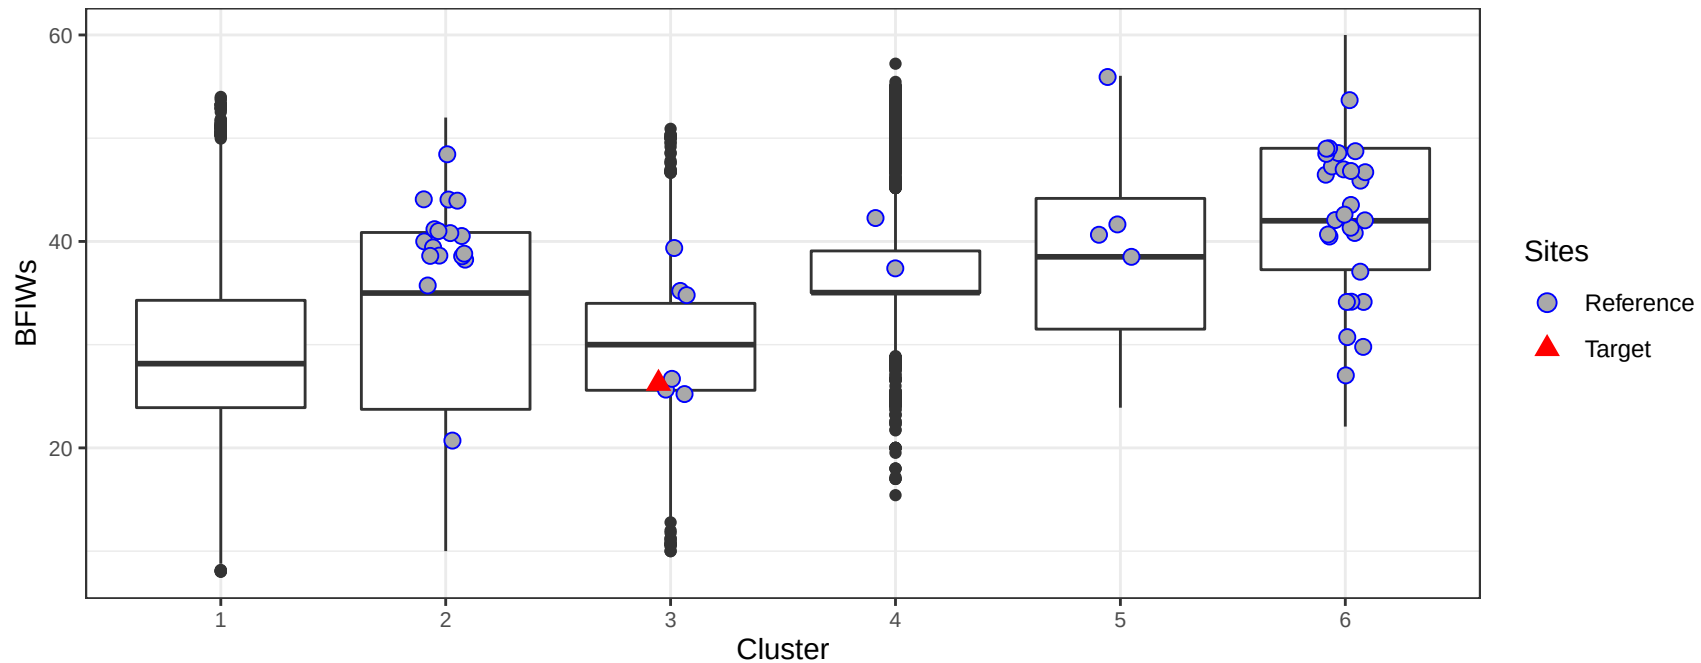

Surface Al₂O₃ content (%) in the watershed by cluster

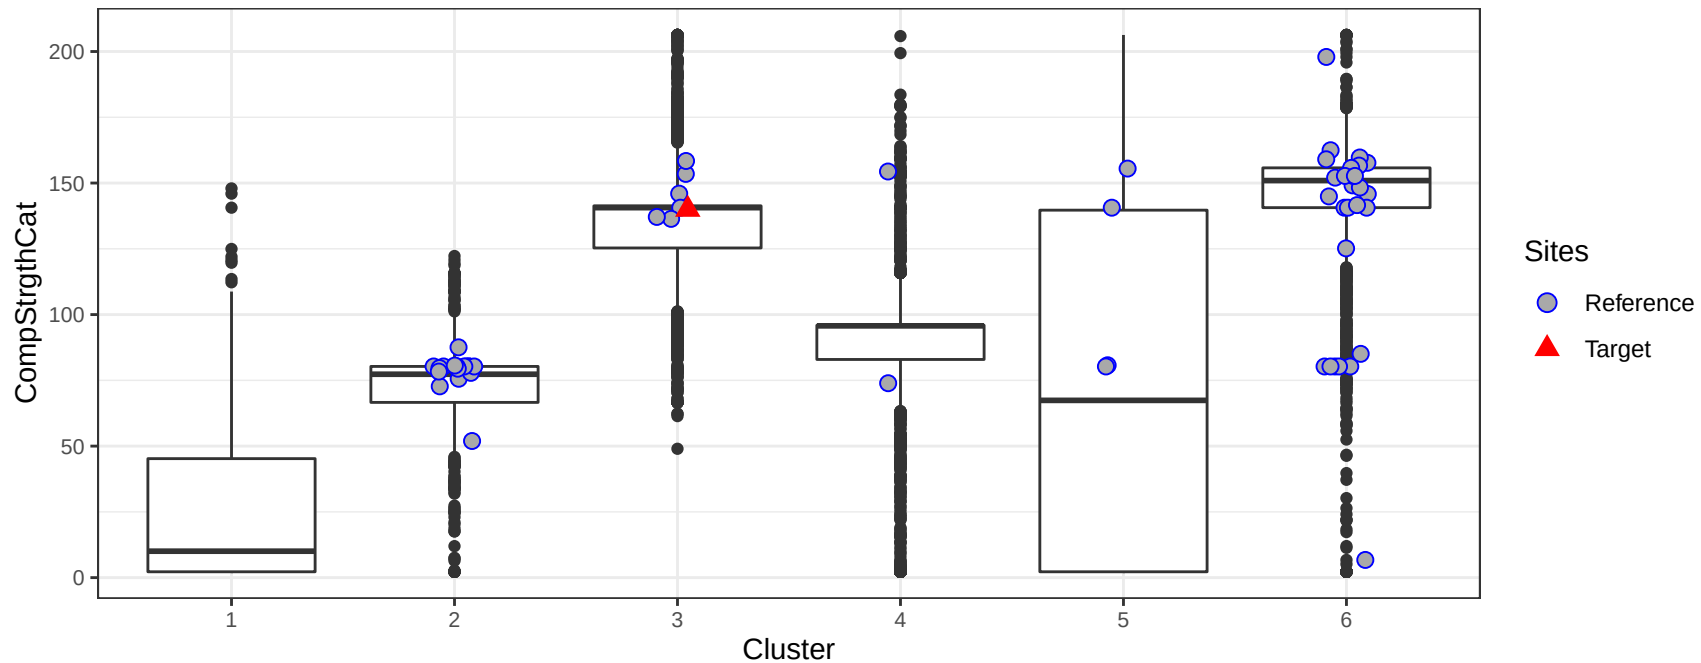

Base flow: total flow ratio (%) in the catchment by cluster

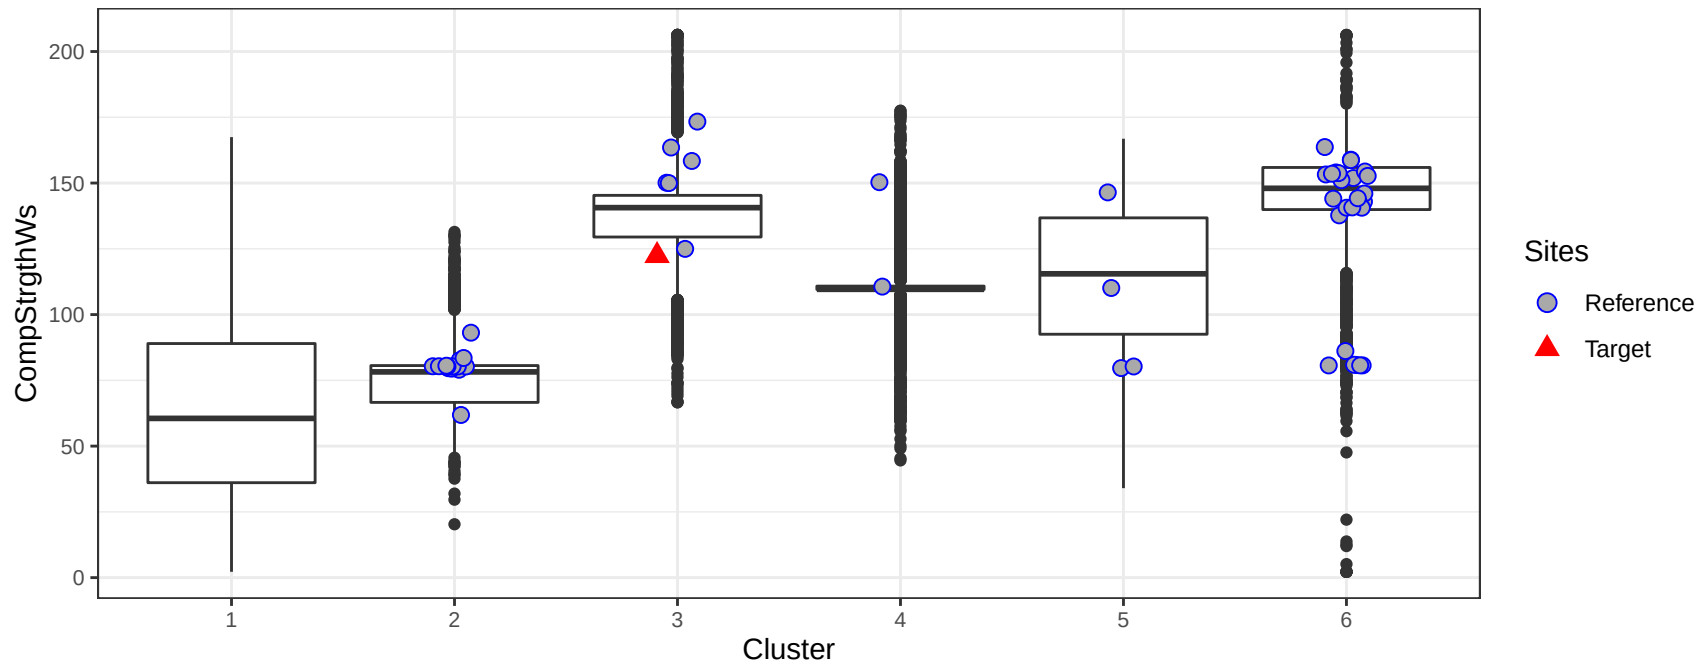

Base flow: total flow ratio (%) in the watershed by cluster

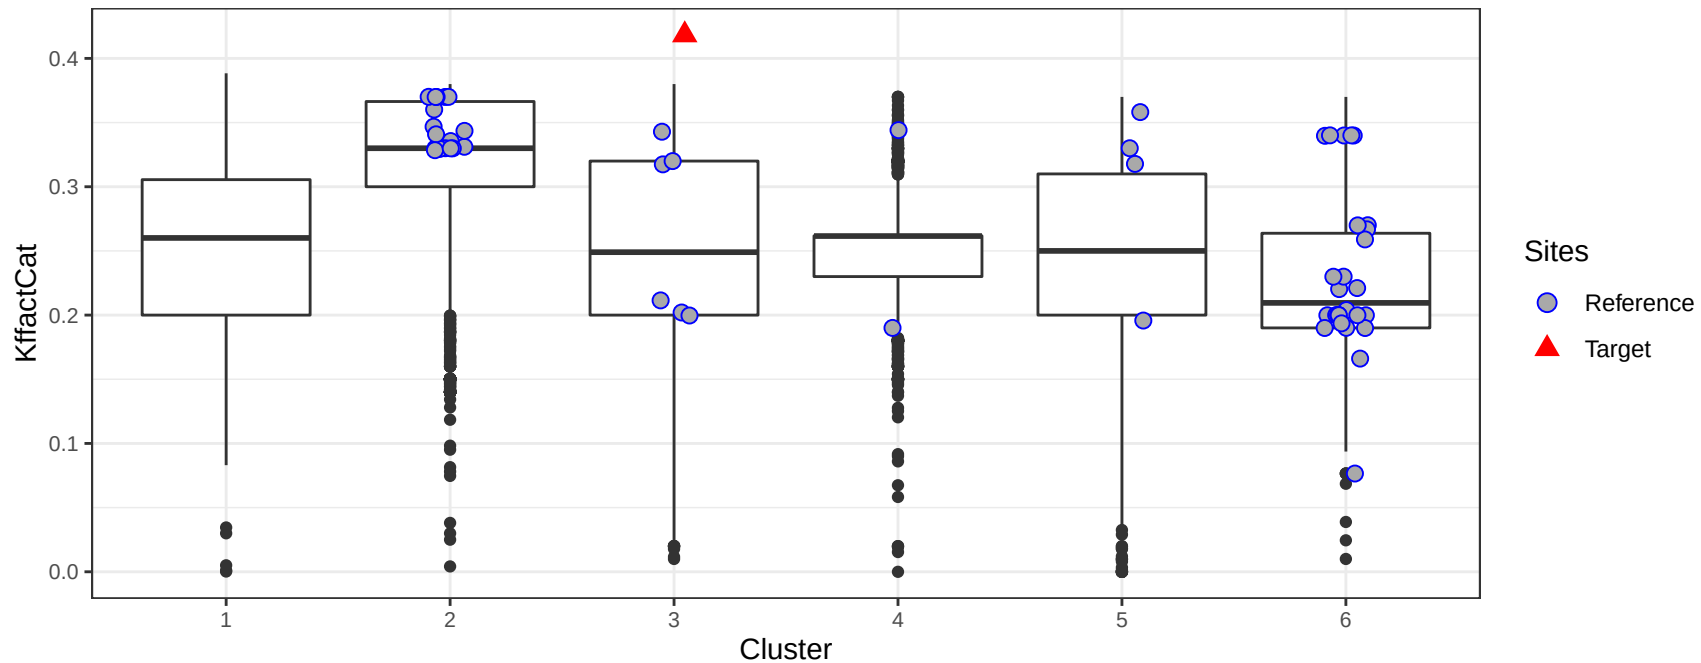

Compressive strength (megaPascals) in the catchment by cluster

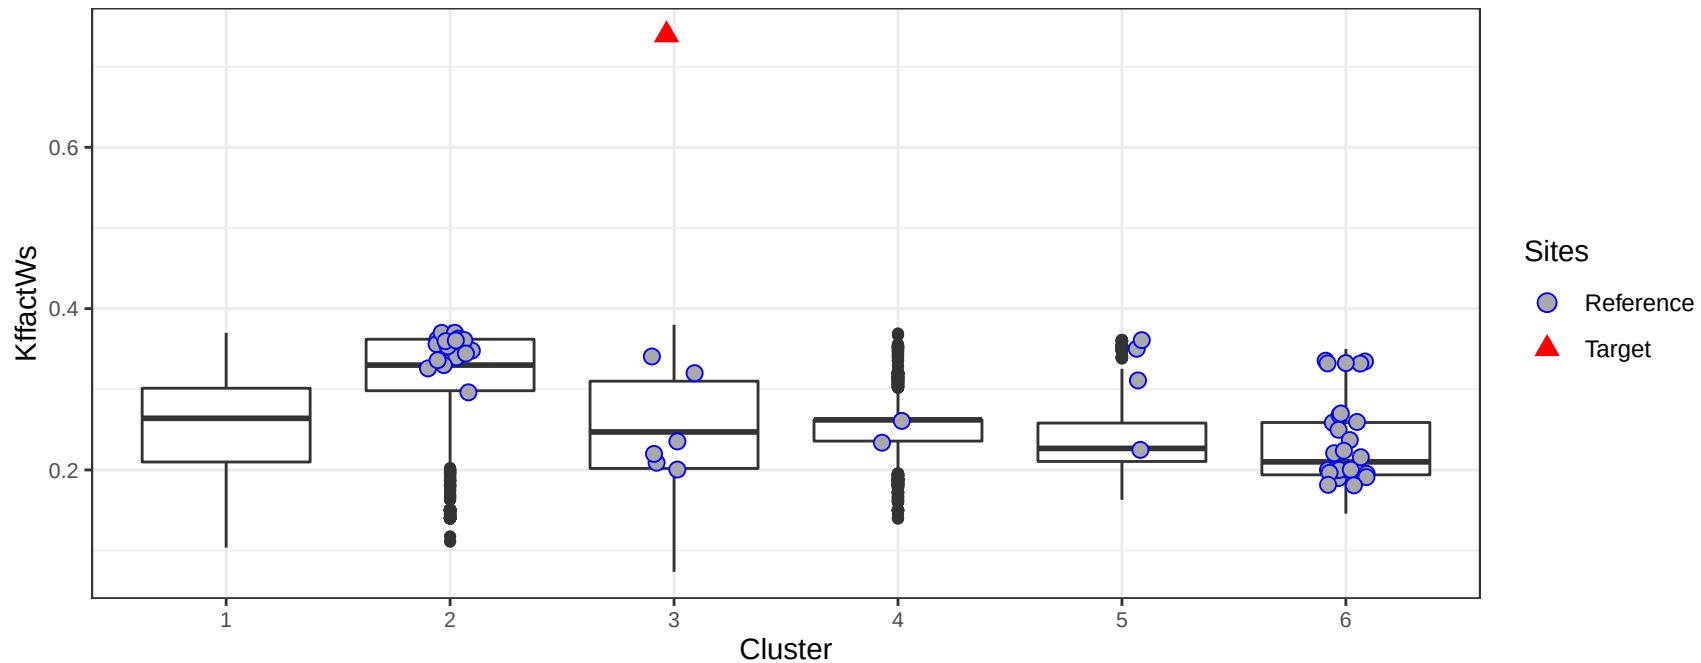

Compressive strength (megaPascals) in the watershed by cluster

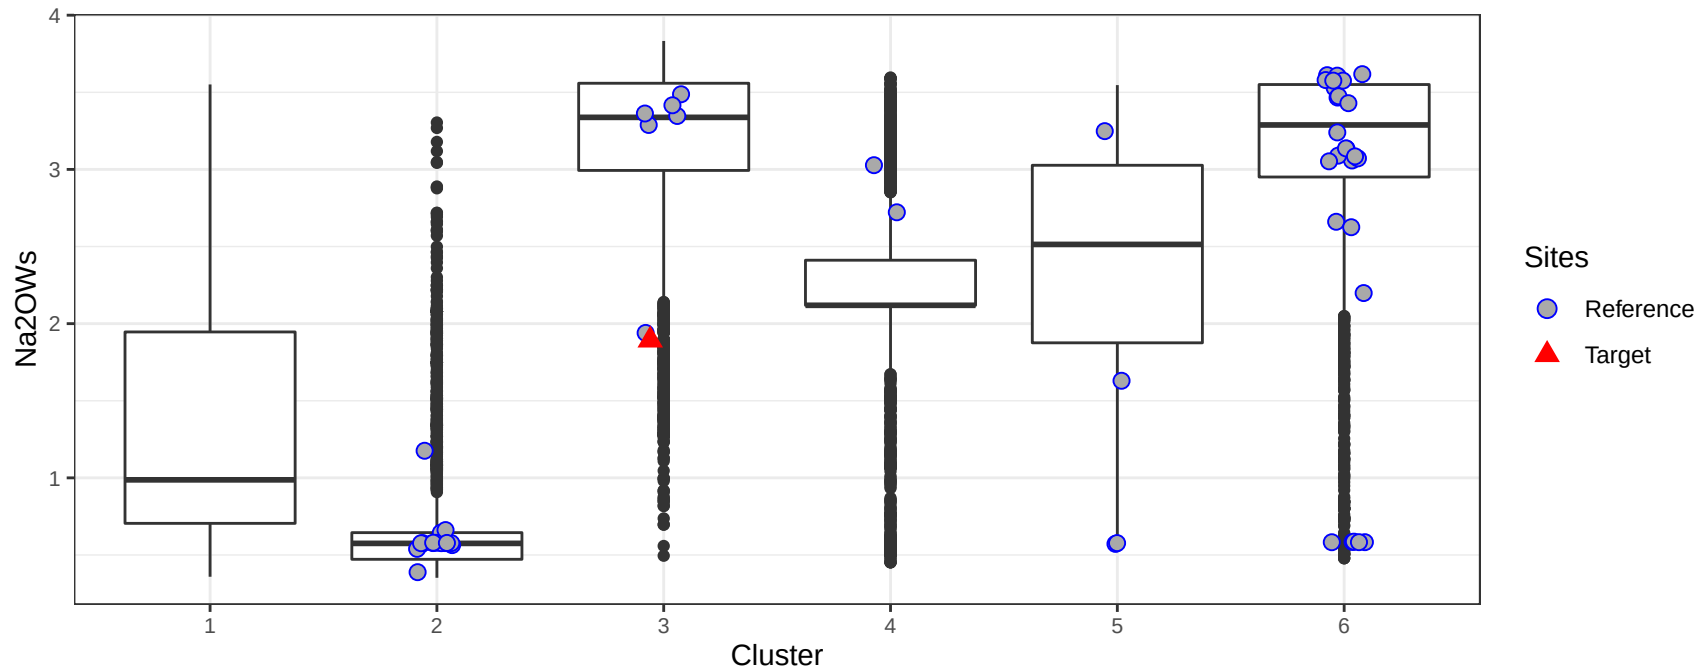

Soil erodibility factor (unitless) in the catchment by cluster

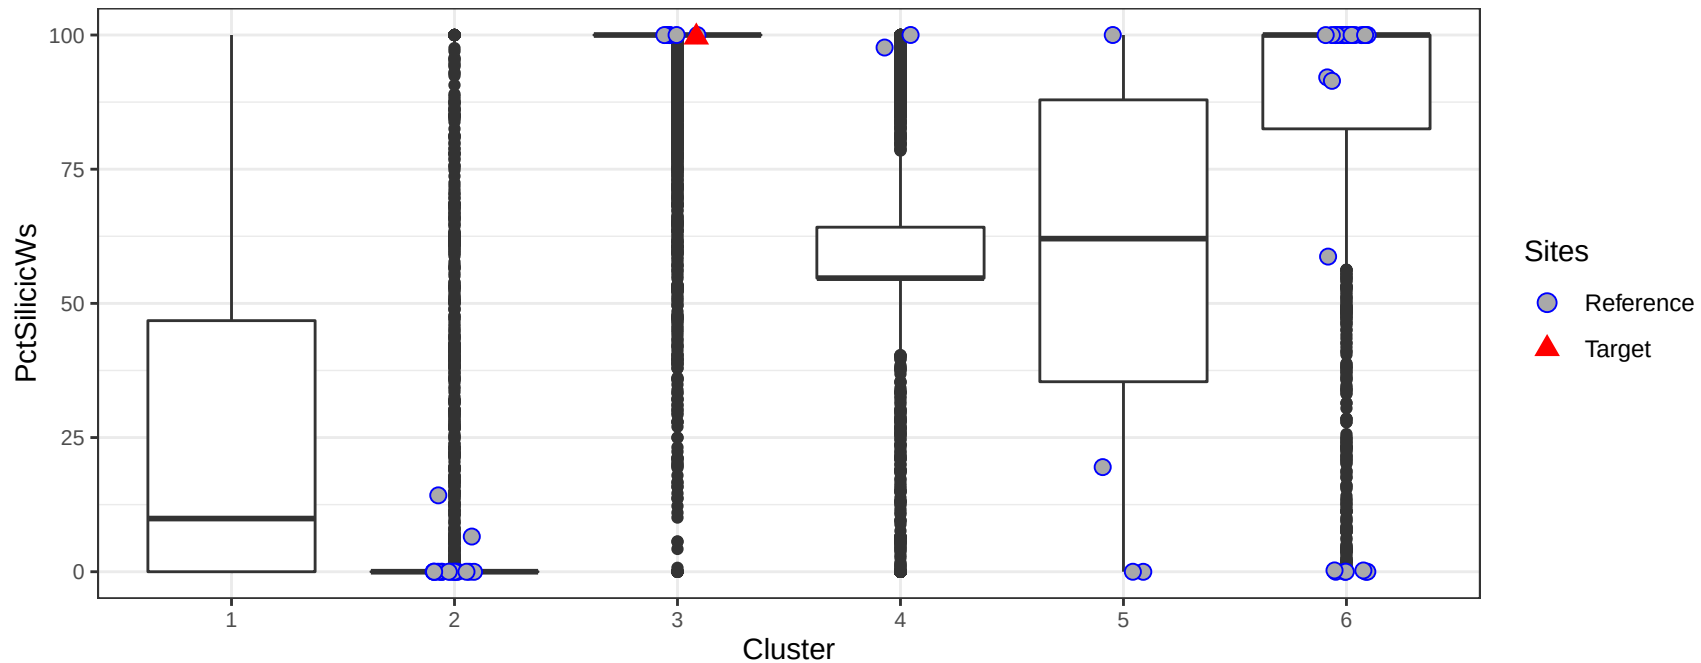

Soil erodibility factor (unitless) in the watershed by cluster

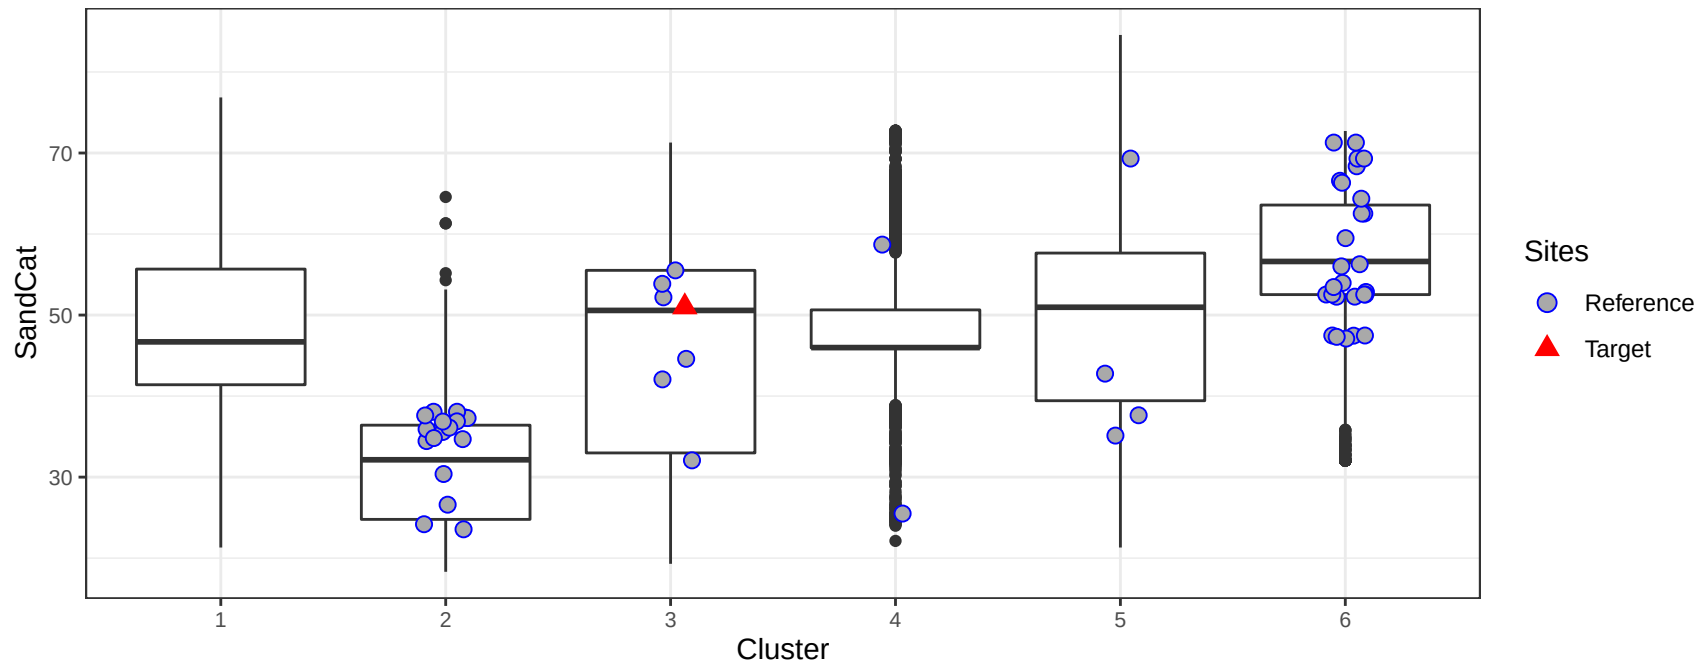

Surface Na₂O content (%) in the watershed by cluster

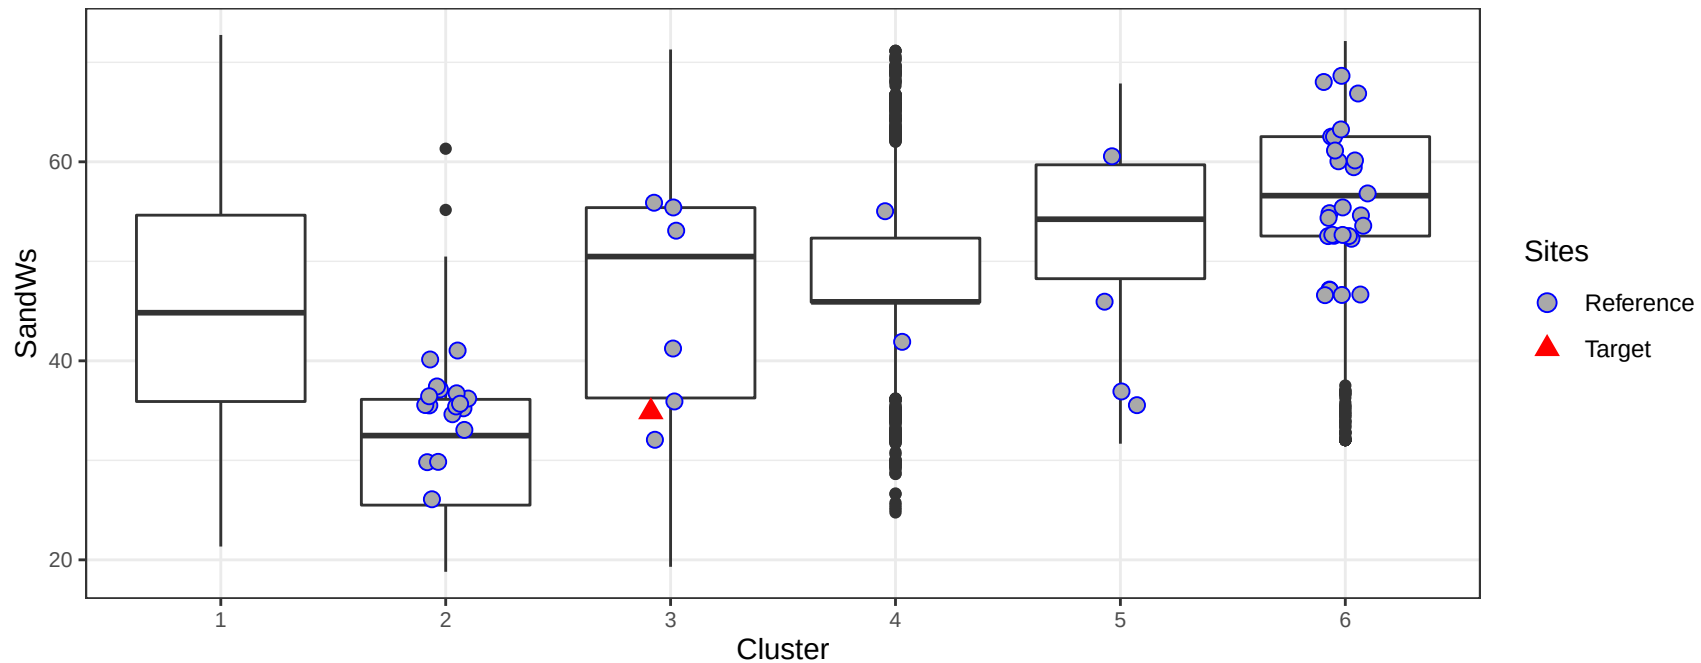

Silicic residual material (%) in the watershed by cluster

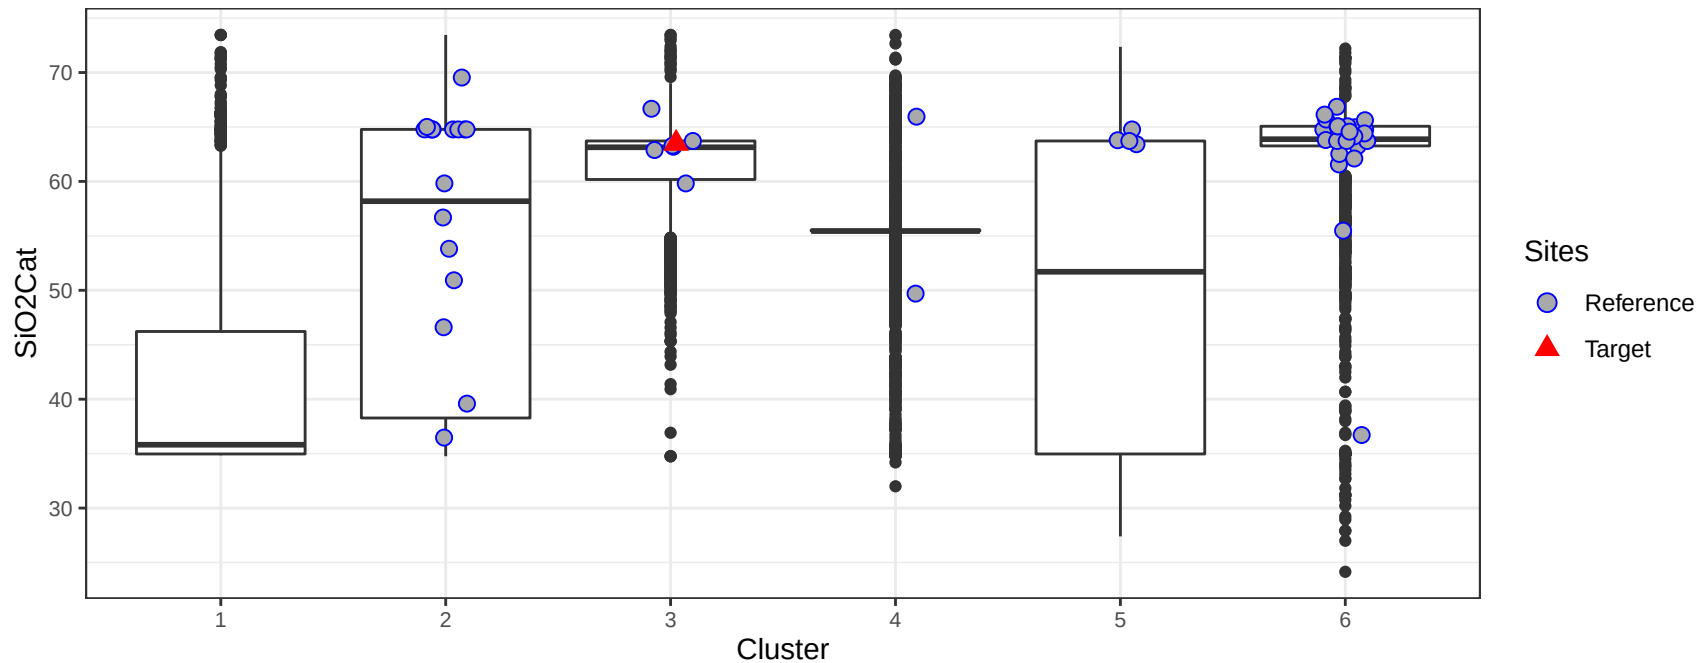

Mean sand content (%) in the catchment by cluster

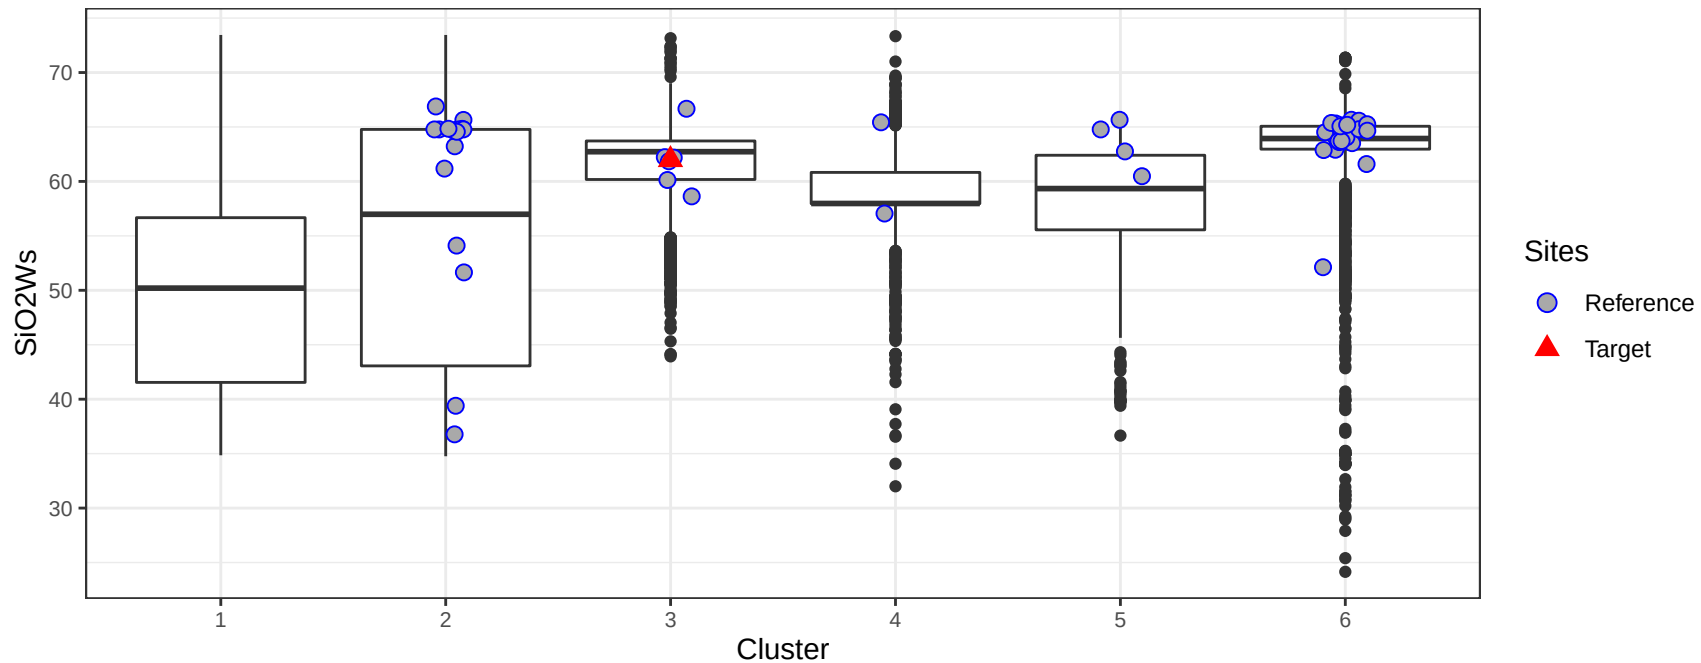

Mean sand content (%) in the watershed by cluster

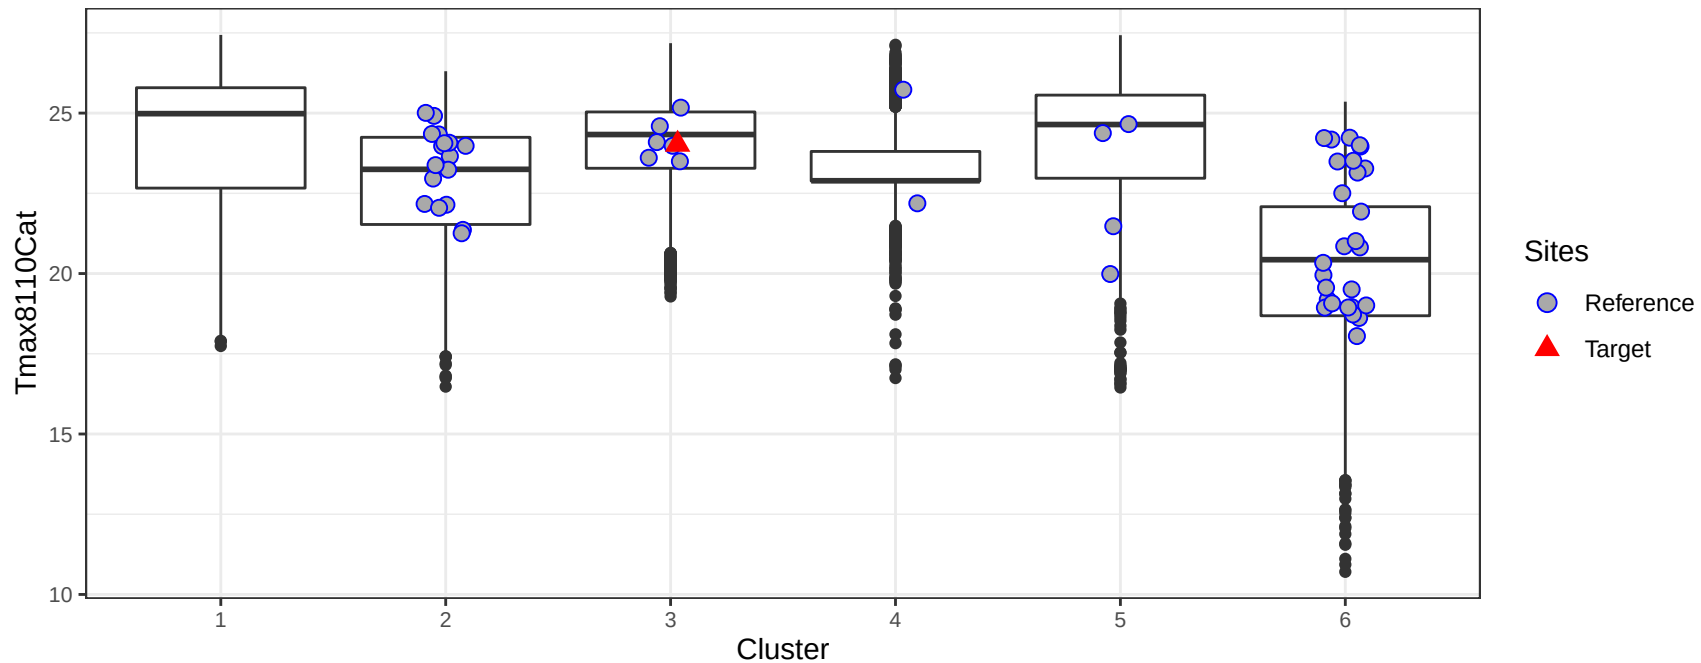

Surface SiO₂ content (%) in the catchment by cluster

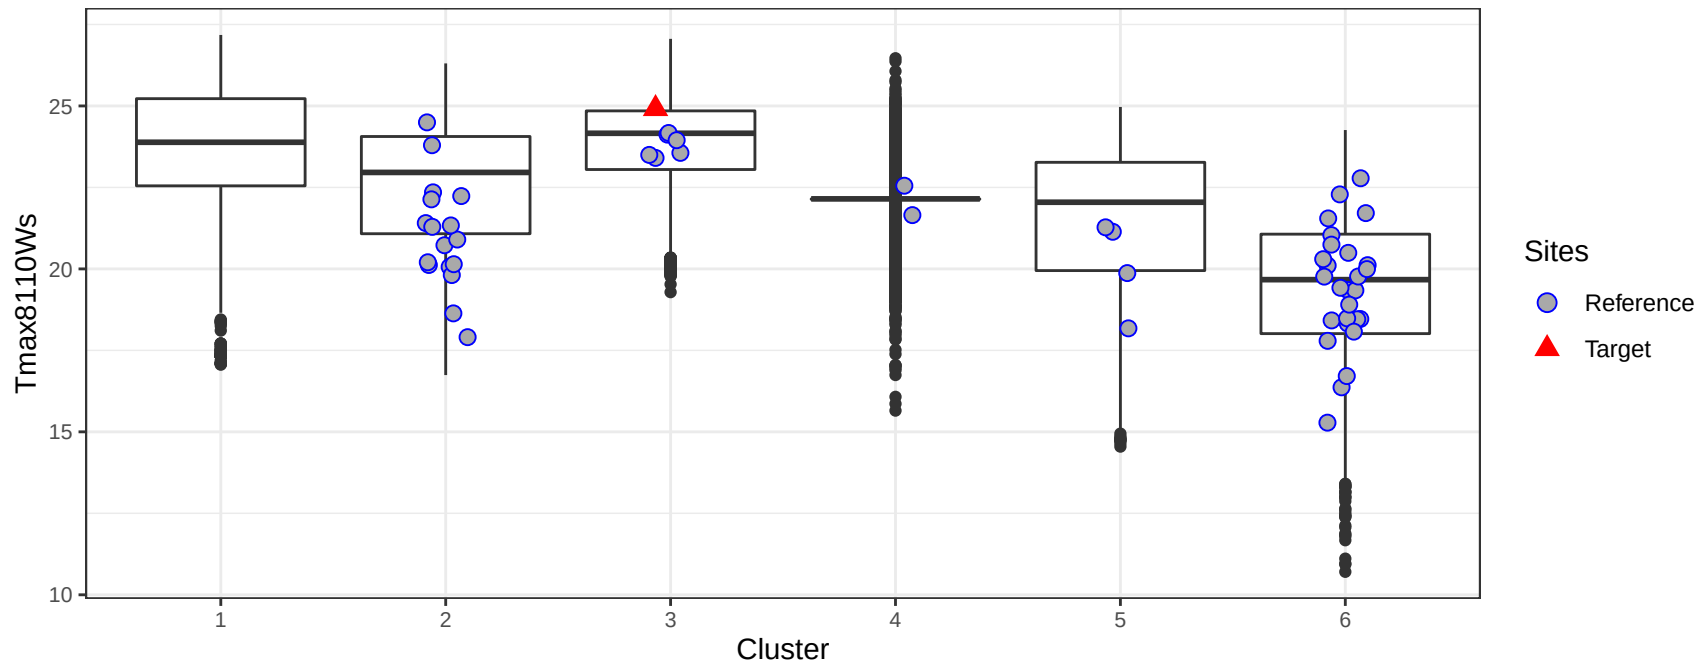

Surface SiO₂ content (%) in the watershed by cluster

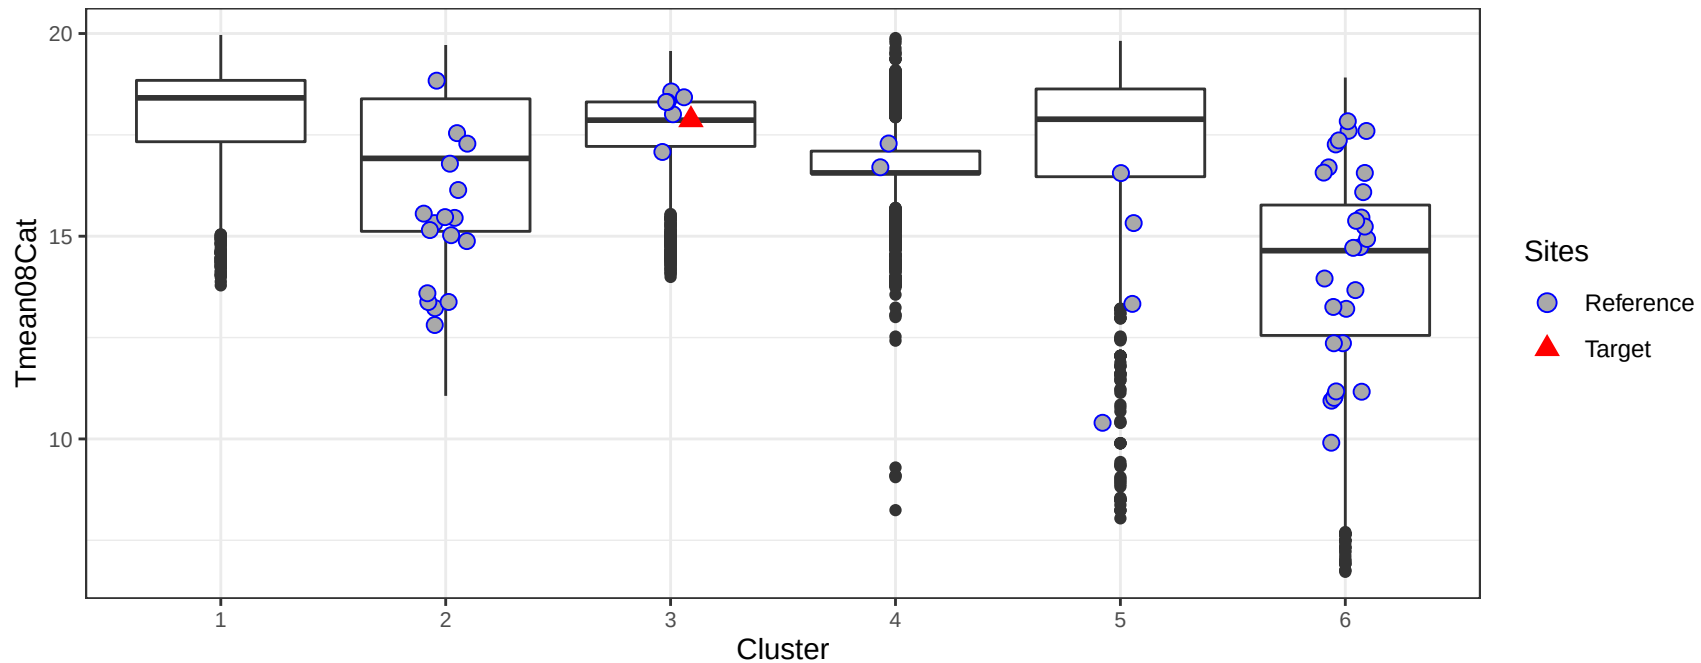

30-year normal maximum temperature (degrees C) in the catchment by cluster

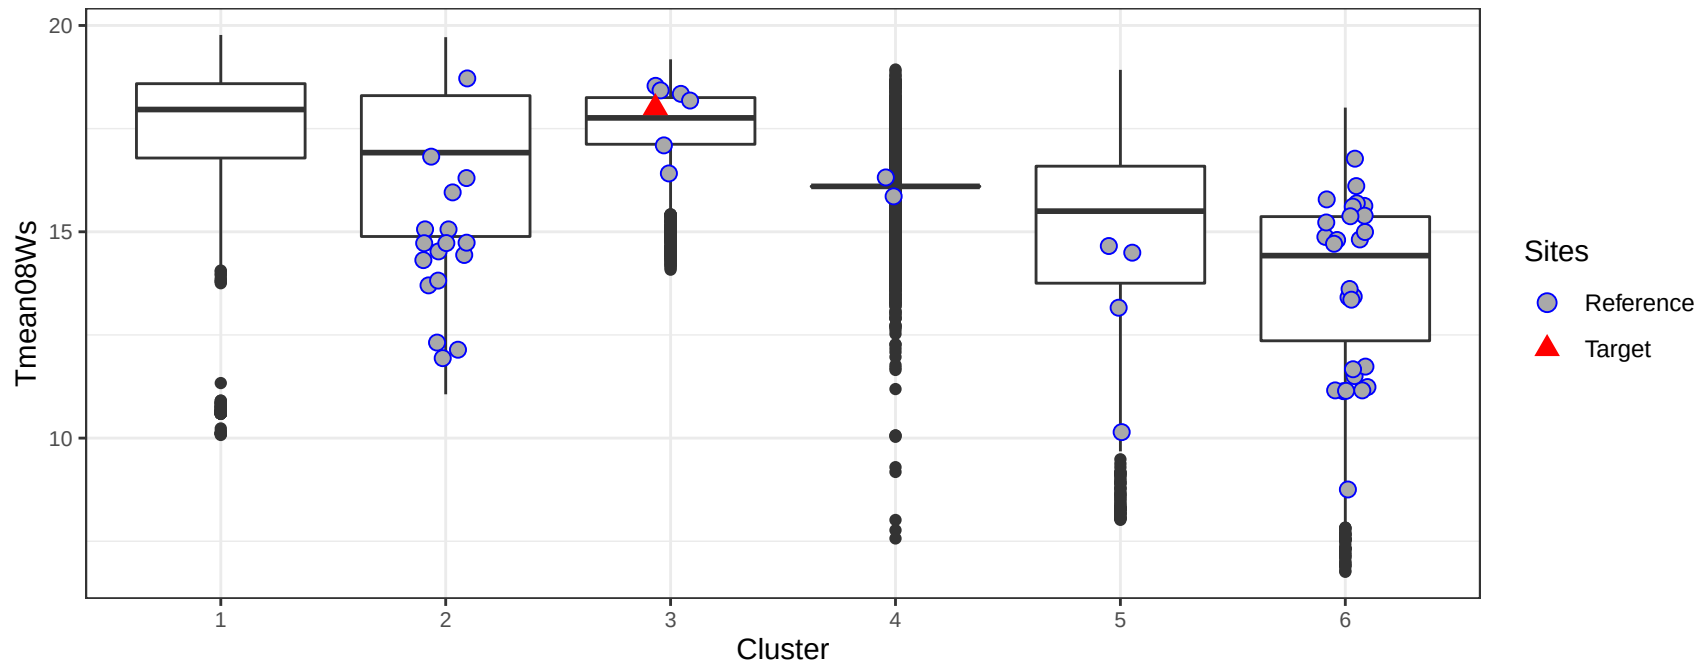

30-year normal maximum temperature (degrees C) in the watershed by cluster

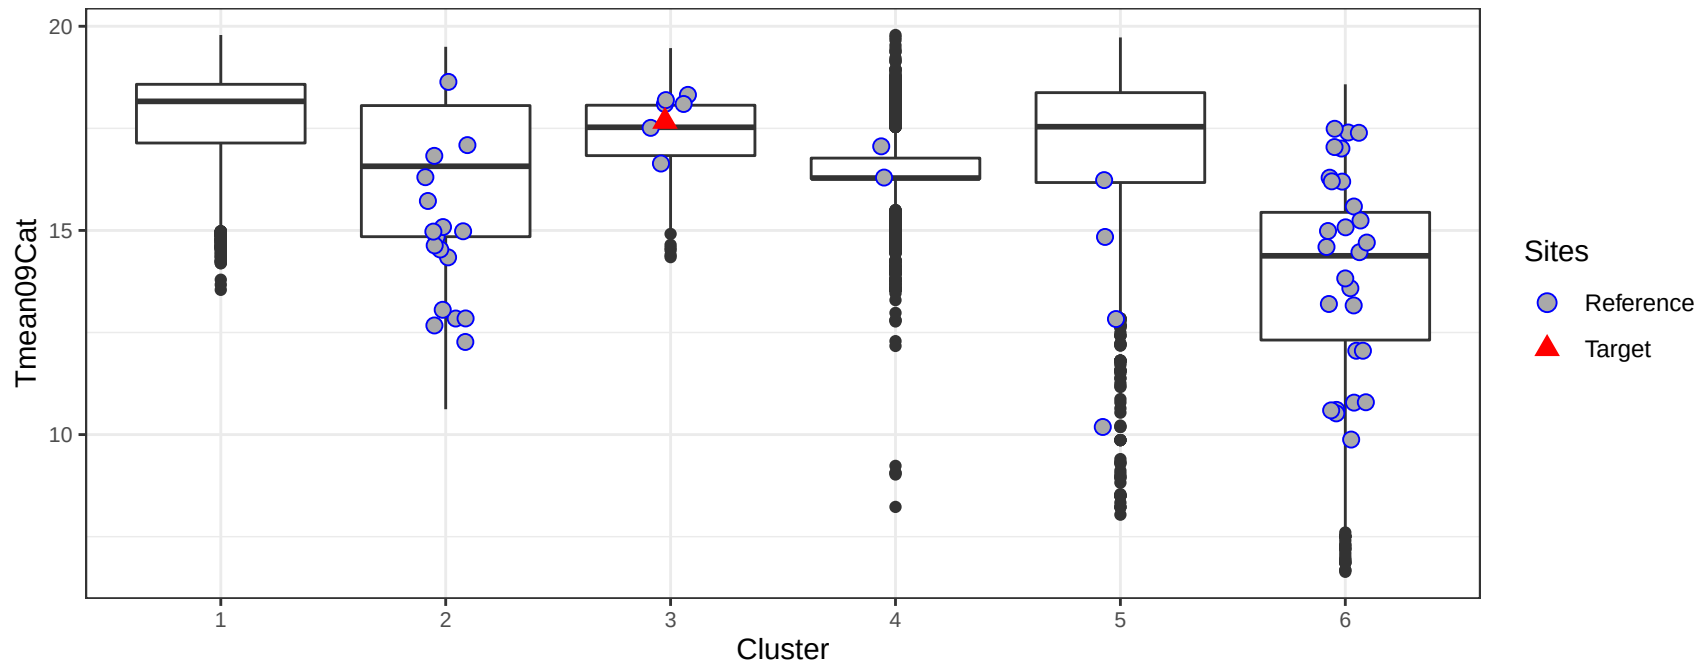

Mean temperature in 2008 (degrees C) in the catchment by cluster

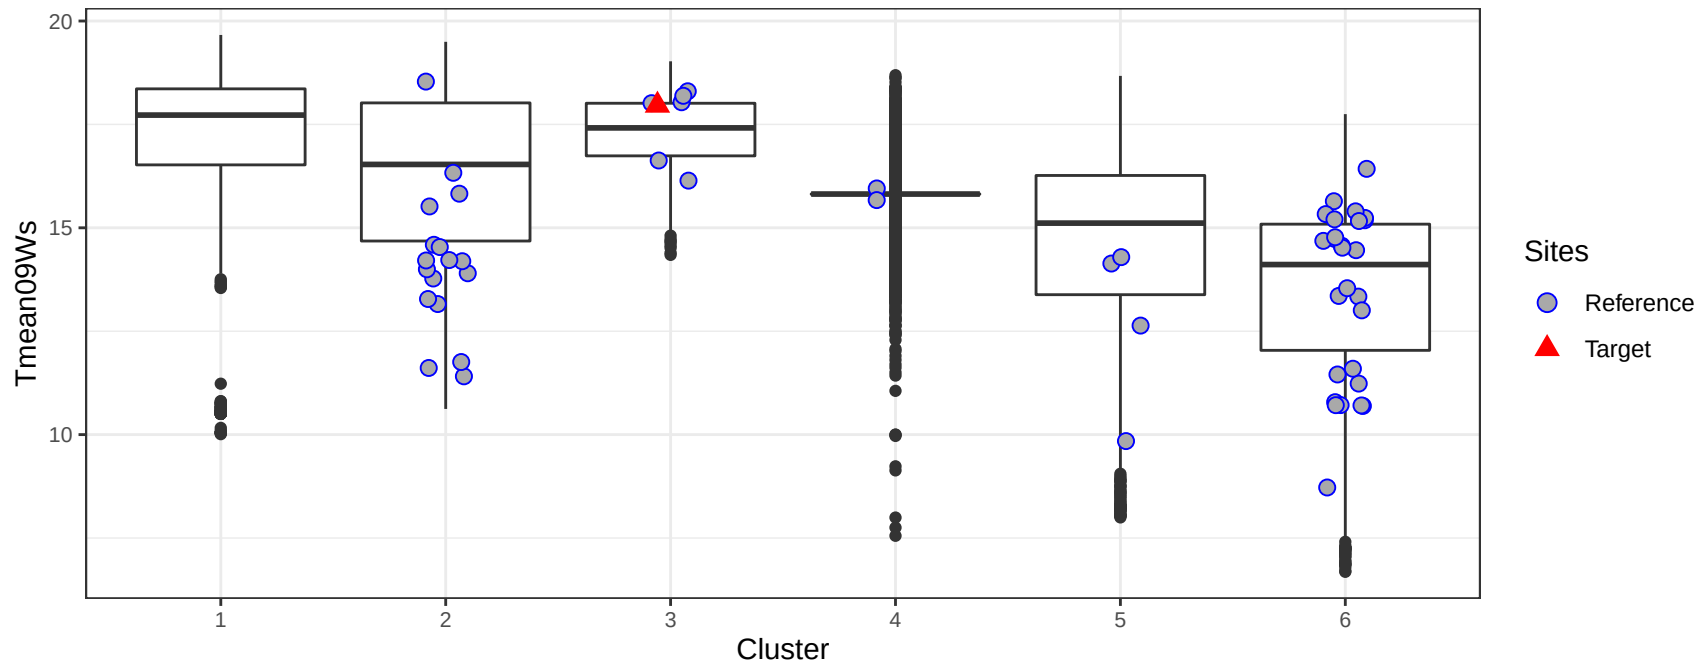

Mean temperature in 2008 (degrees C) in the watershed by cluster

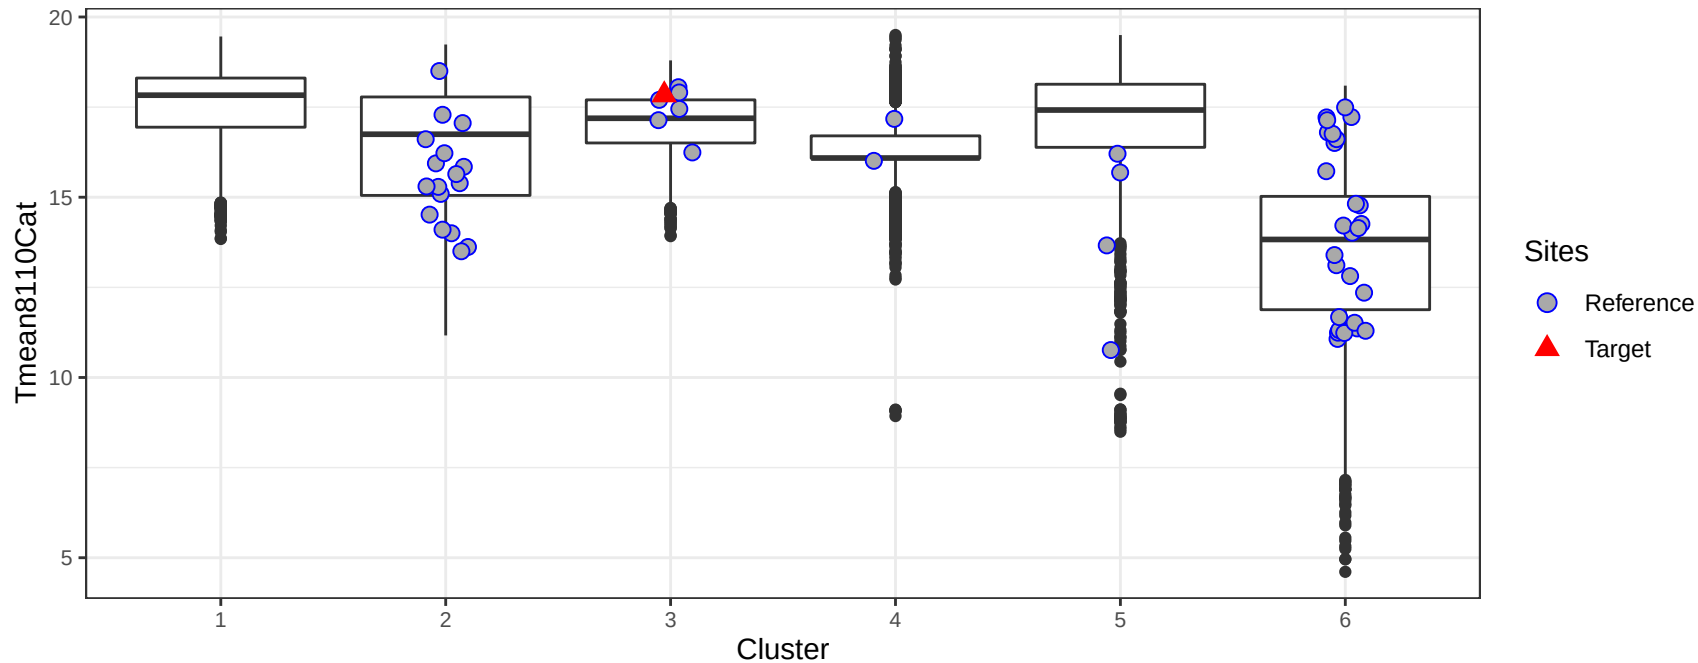

Mean temperature in 2009 (degrees C) in the catchment by cluster

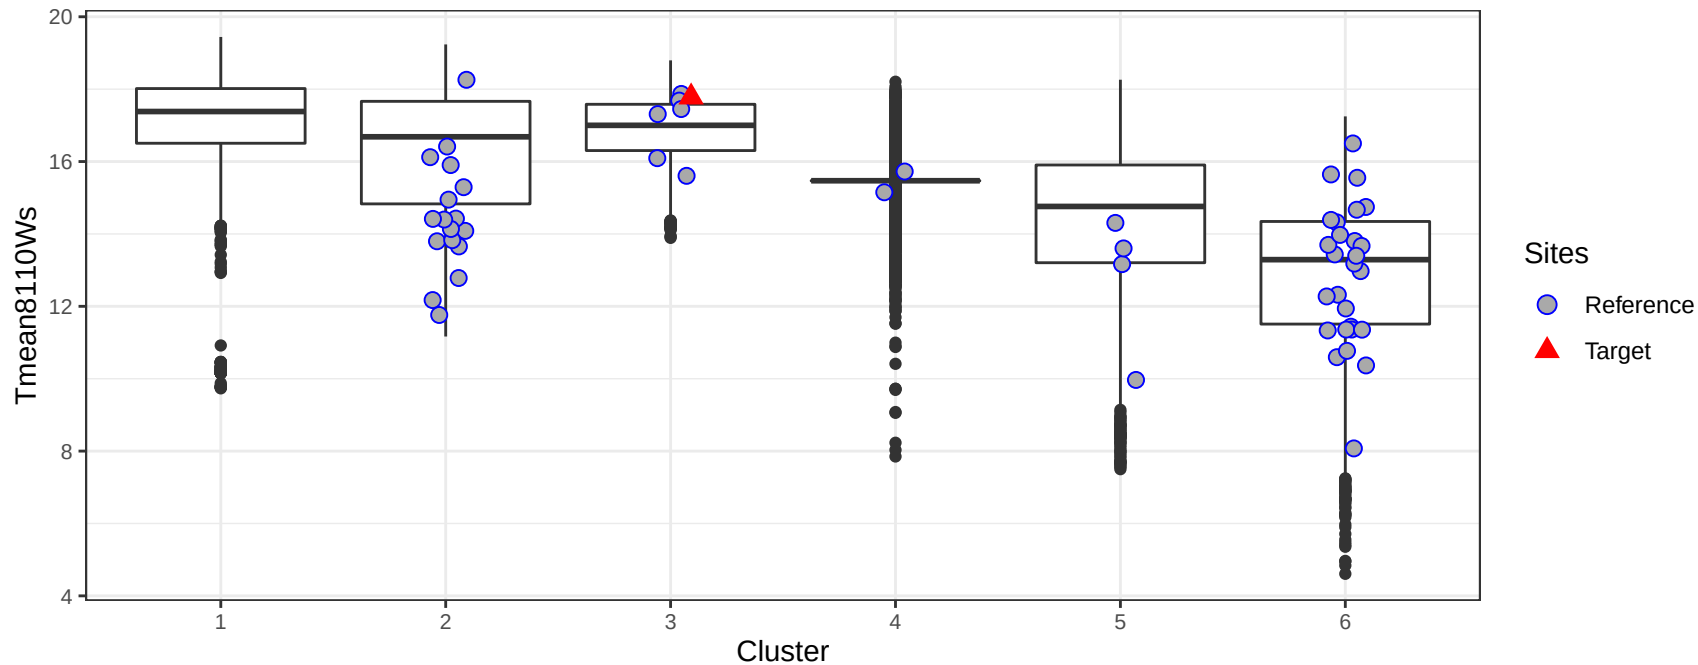

Mean temperature in 2009 (degrees C) in the watershed by cluster

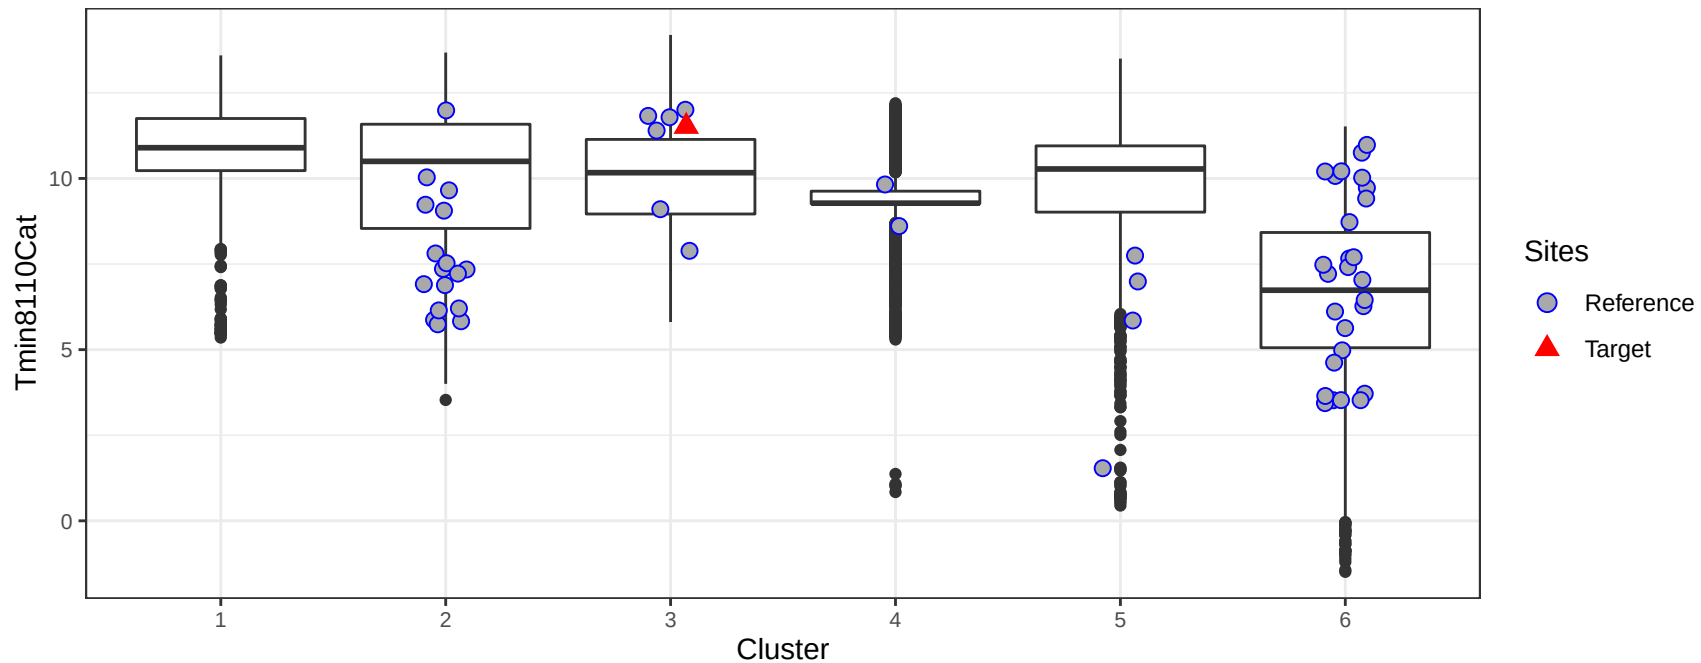

30-year normal mean temperature (degrees C) in the catchment by cluster

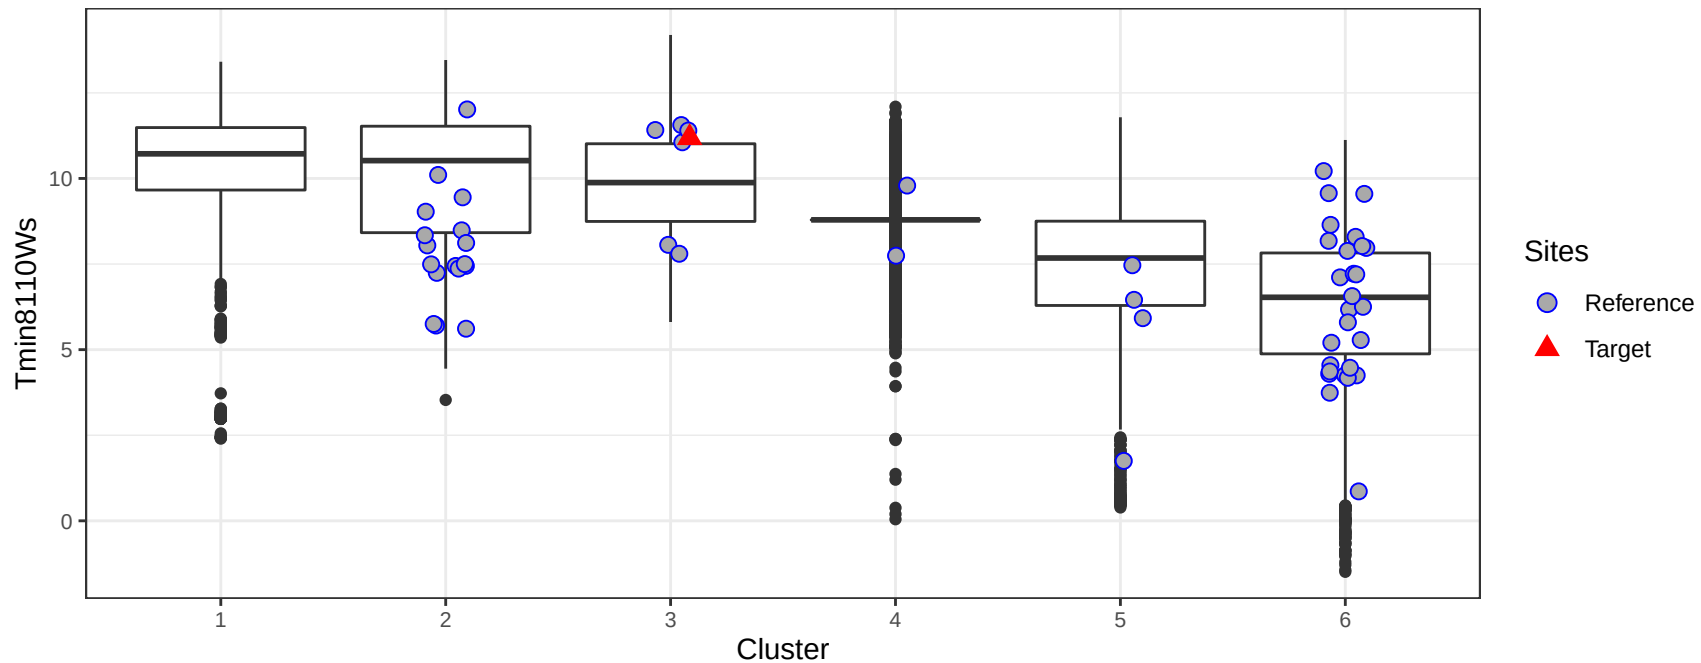

30-year normal mean temperature (degrees C) in the watershed by cluster

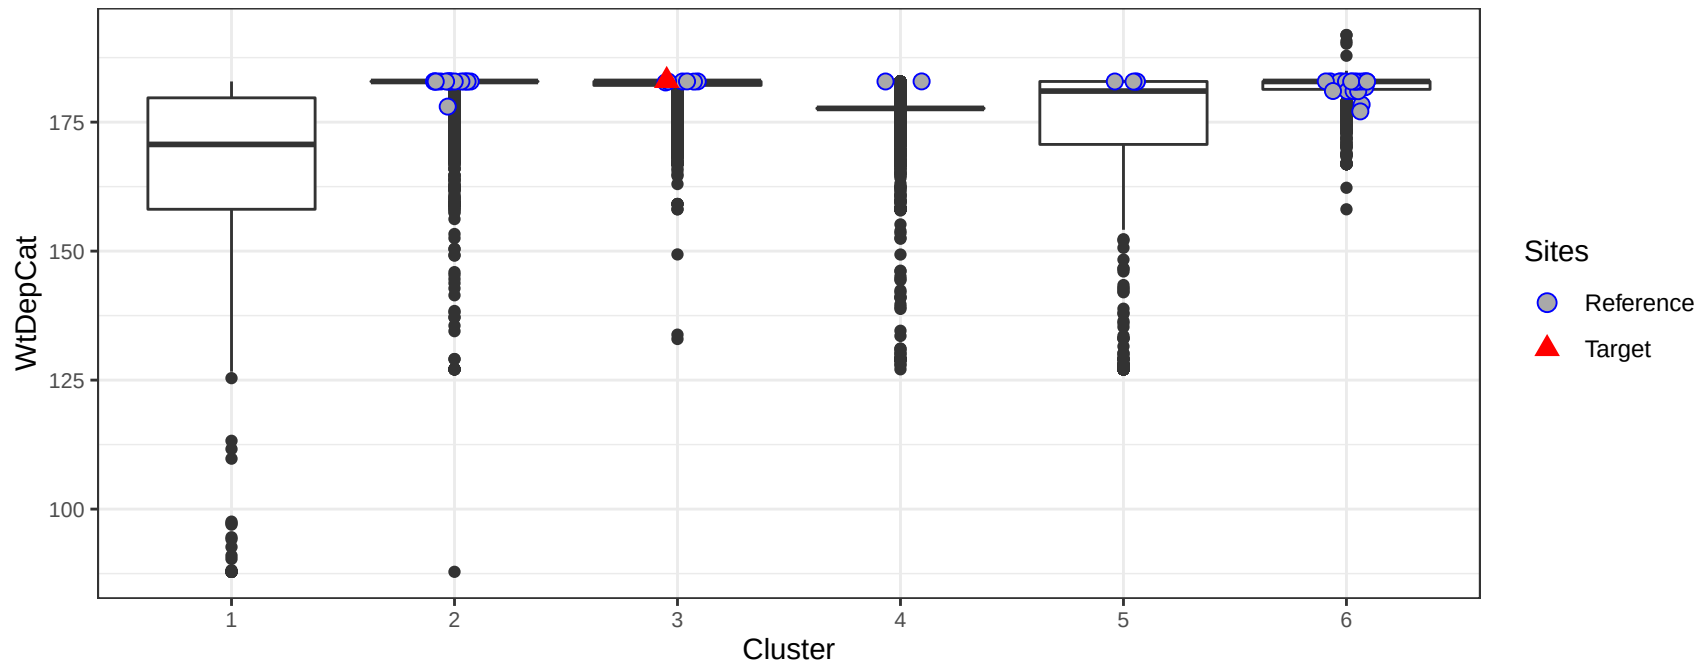

30-year normal minimum temperature (degrees C) in the catchment by cluster

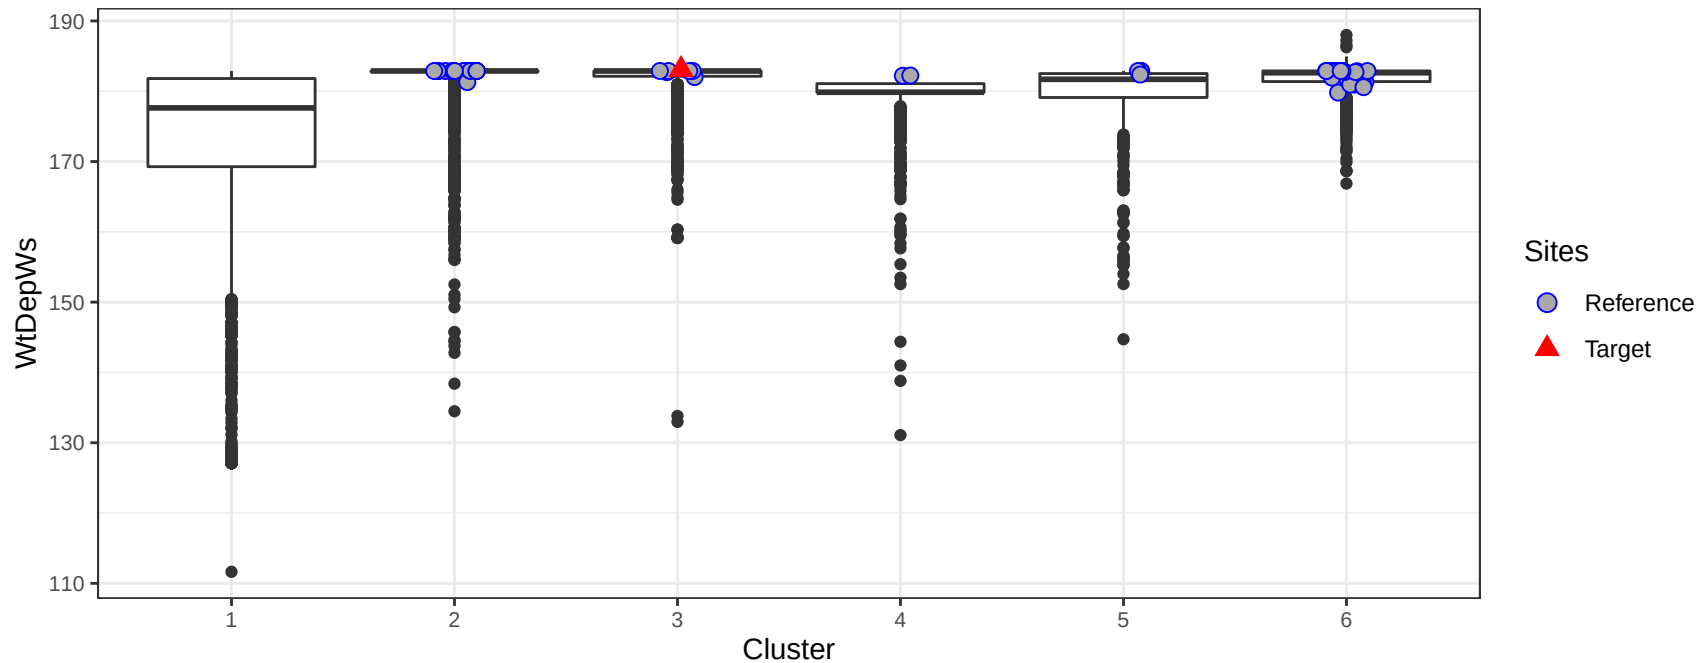

30-year normal minimum temperature (degrees C) in the watershed by cluster

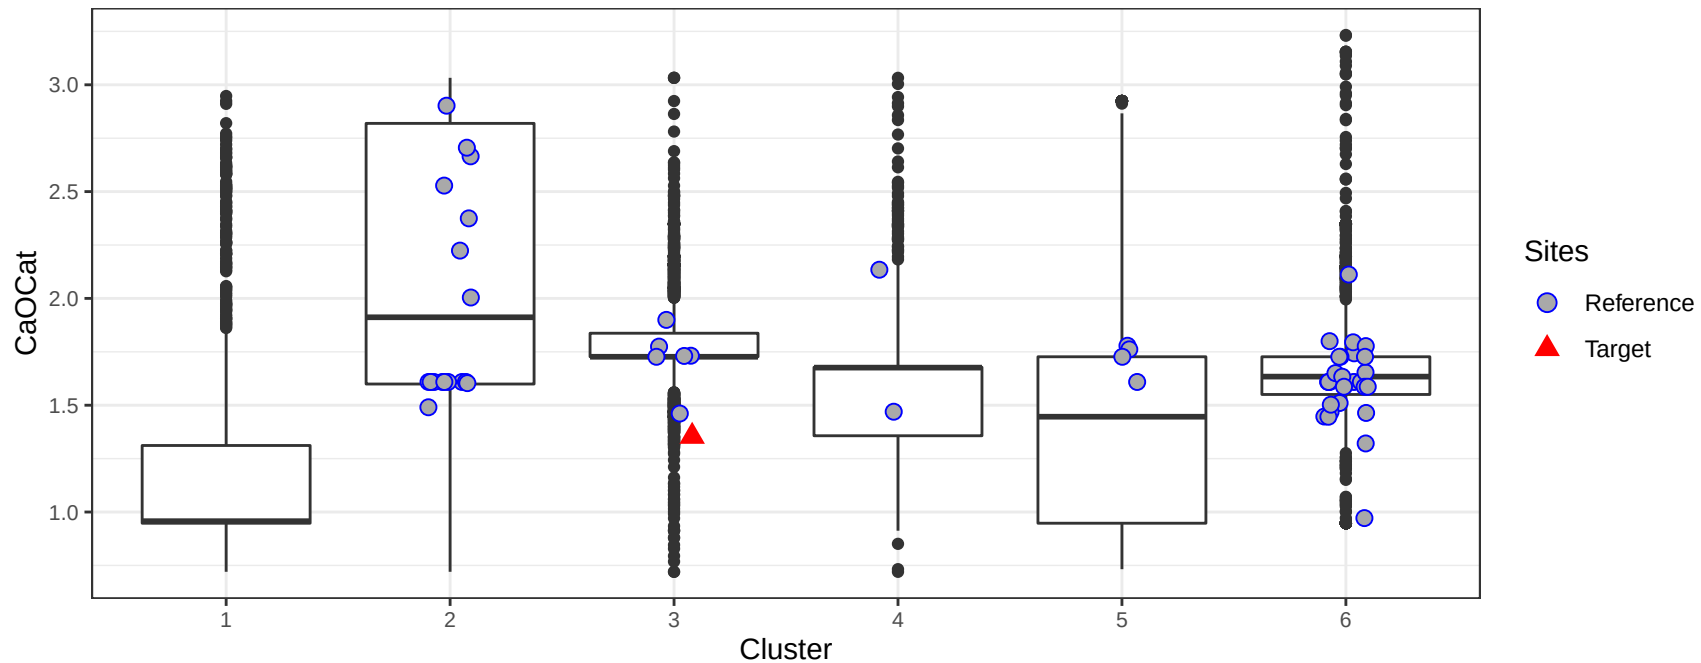

Mean seasonal water table depth (cm/hr) in the catchment by cluster

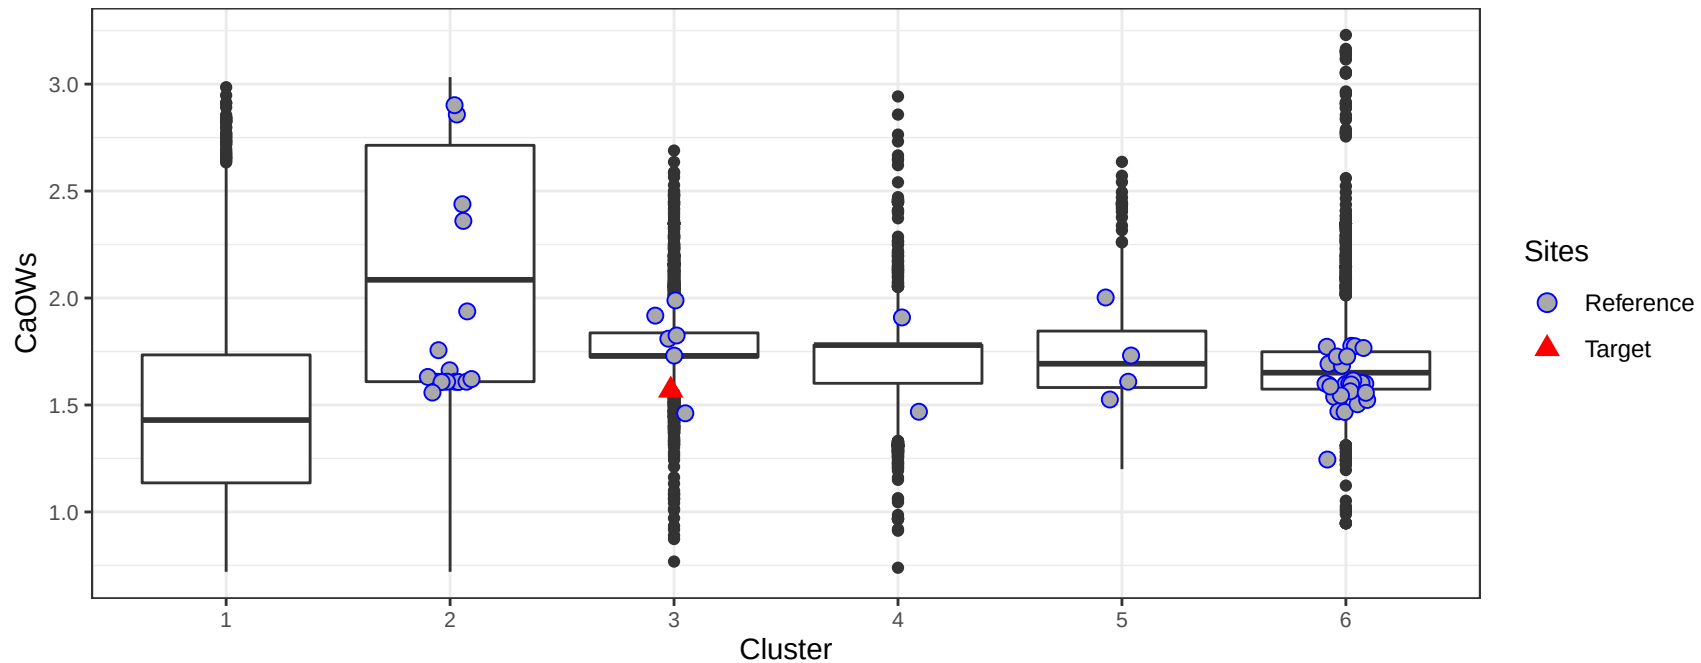

Mean seasonal water table depth (cm/hr) in the watershed by cluster

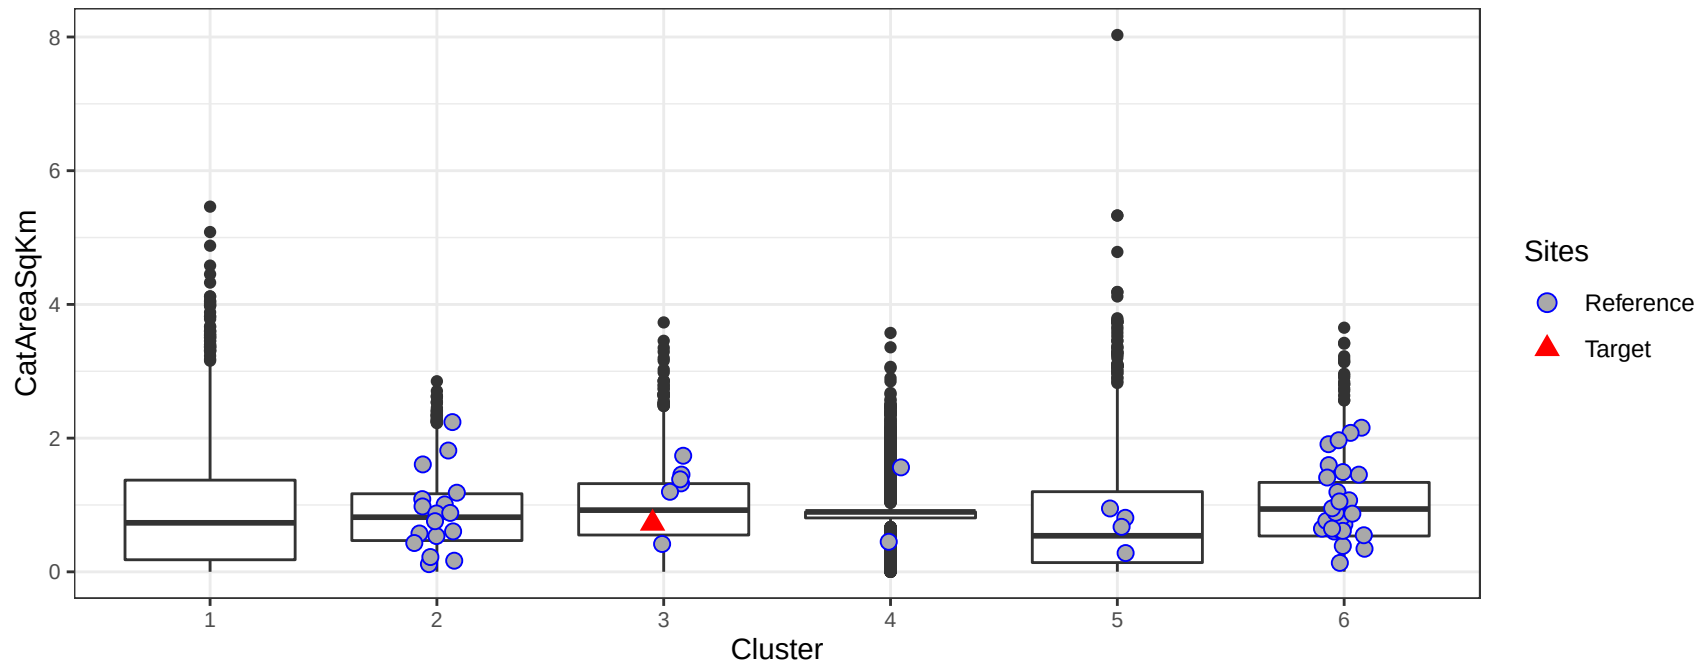

Surface CaO content (%) in the catchment by cluster

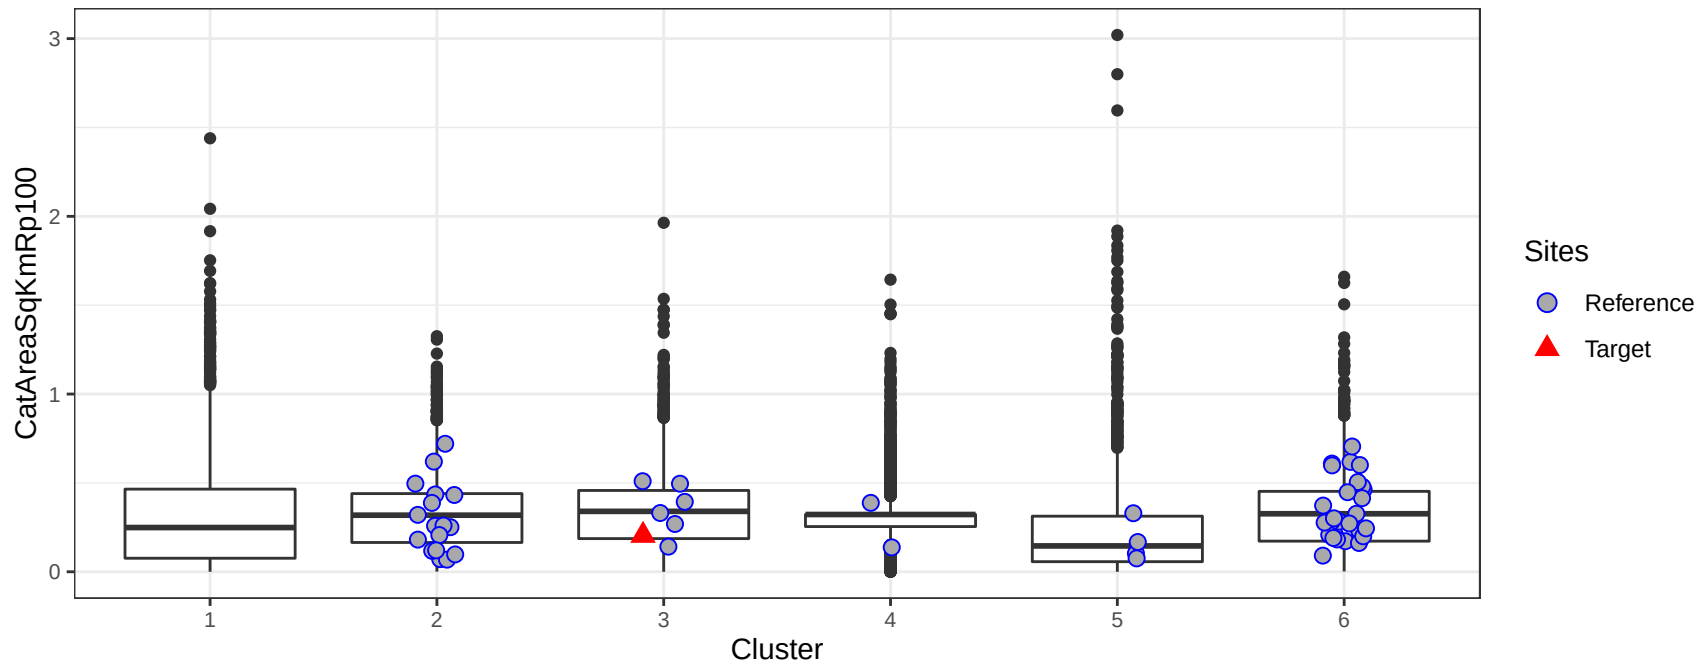

Surface CaO content (%) in the watershed by cluster

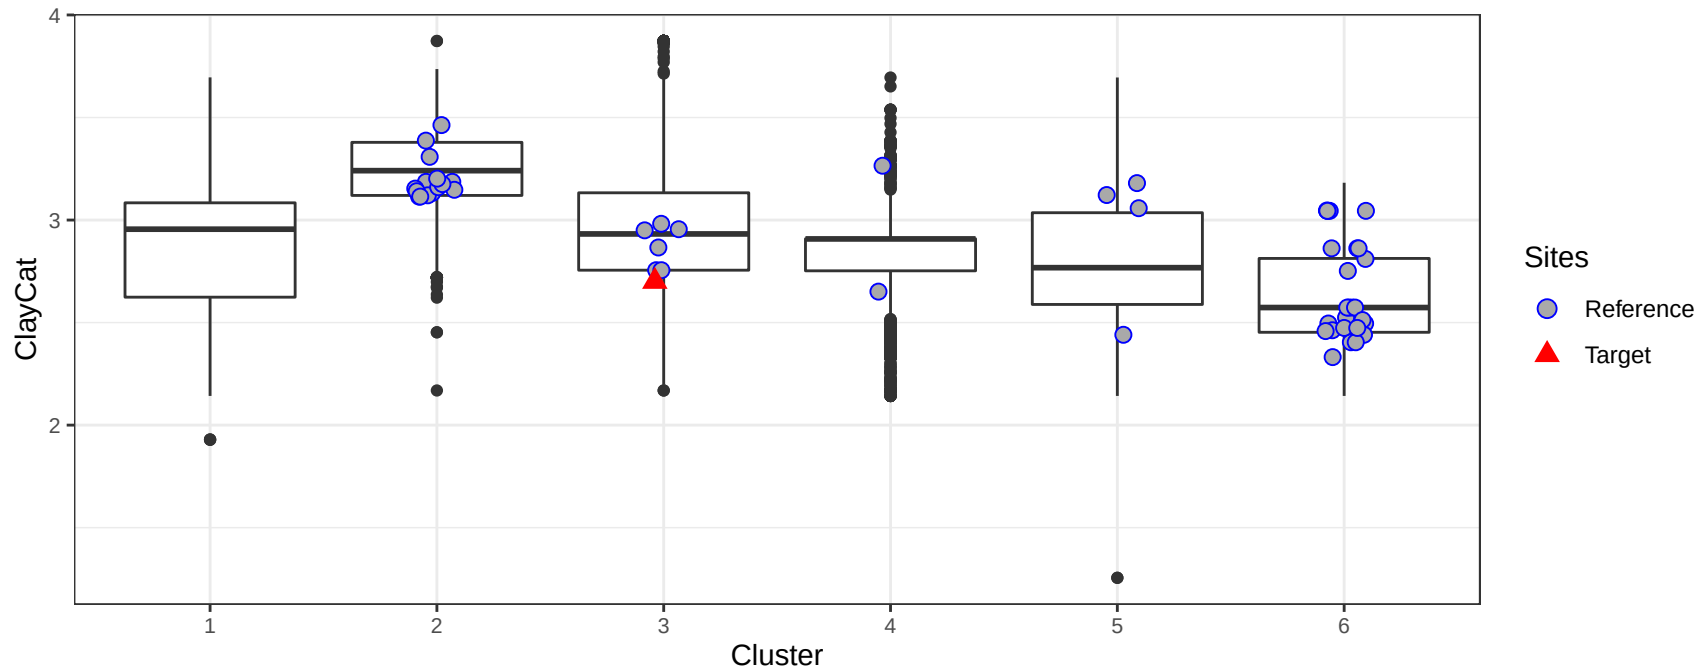

Drainage area (sq. km.) in the catchment by cluster

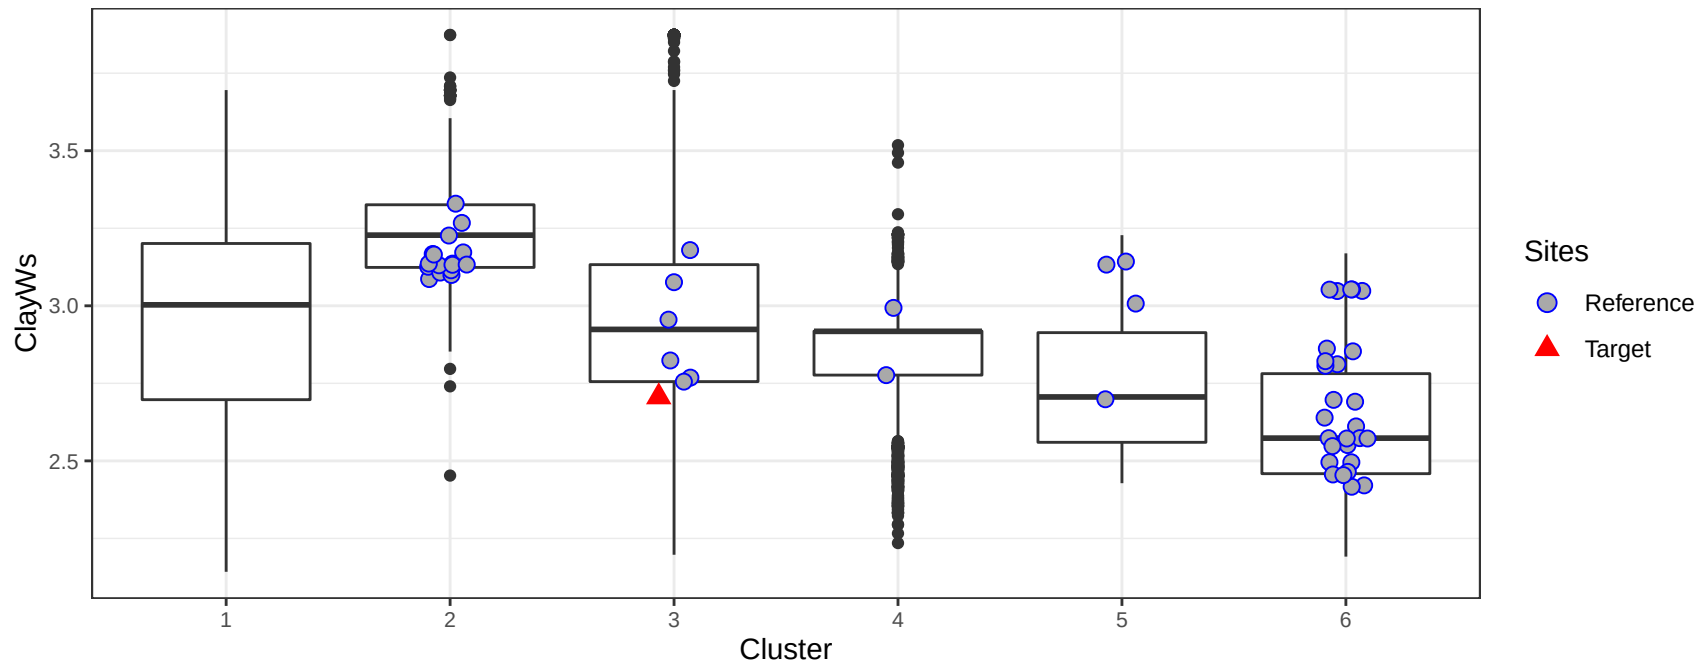

Area within the riparian buffer (sq. km.) in the catchment riparian by cluster

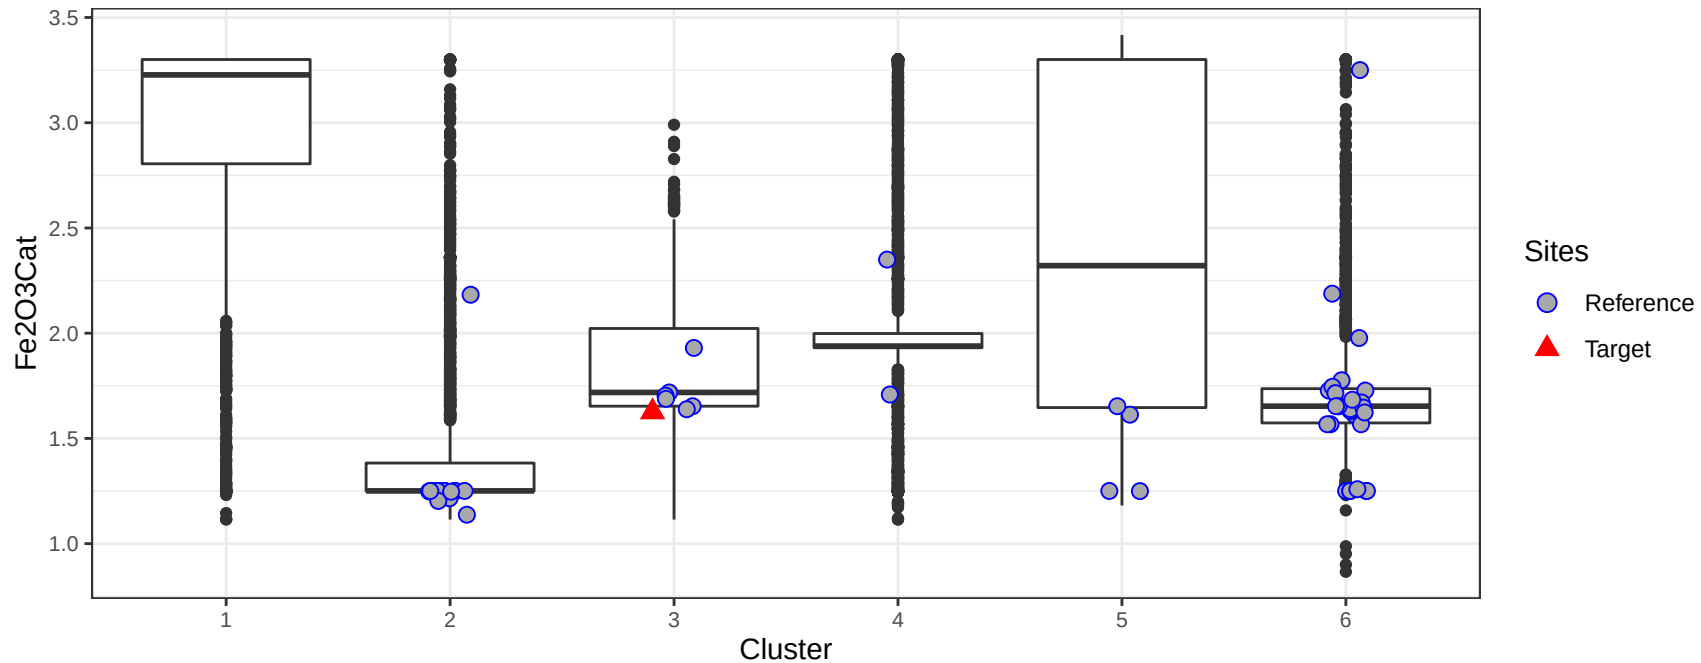

Mean clay content (%) in the catchment by cluster

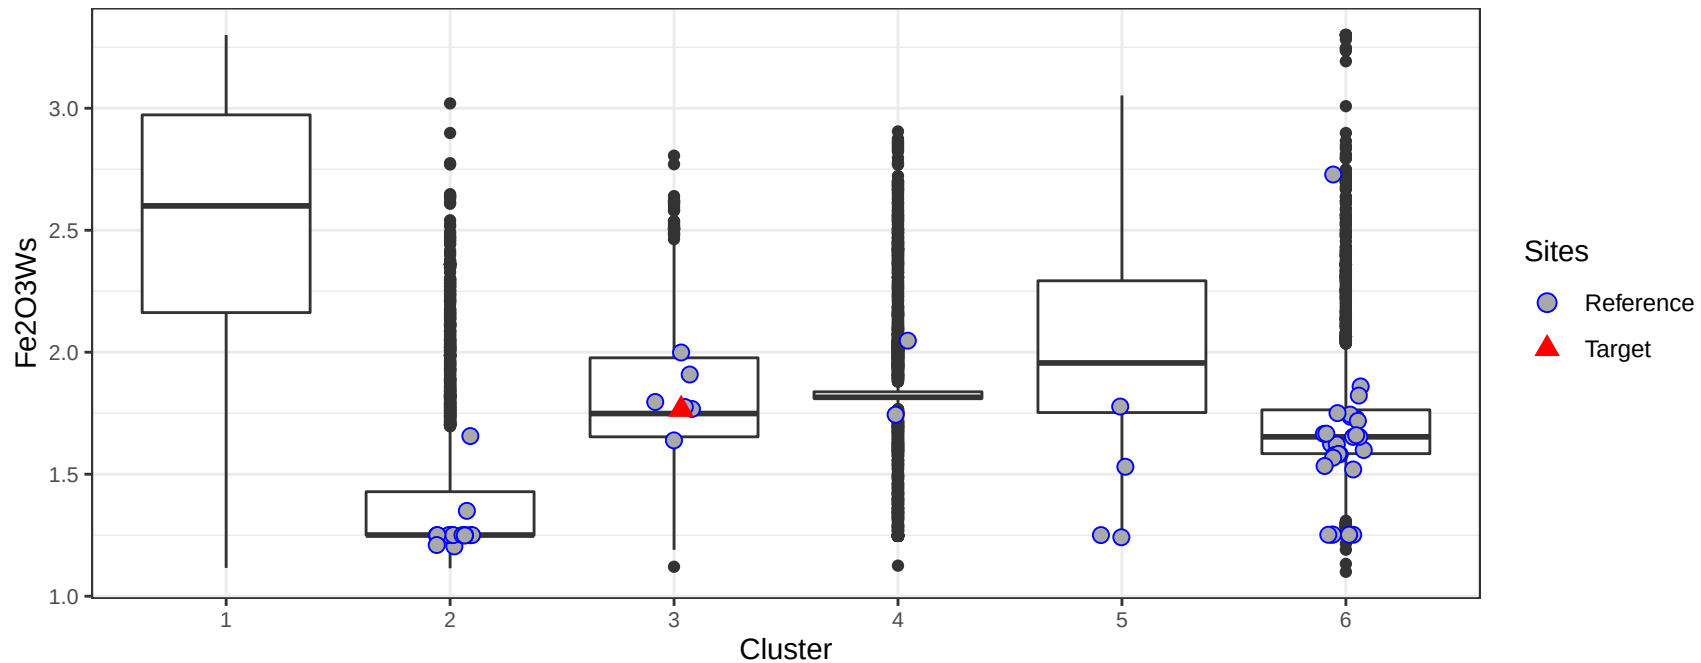

Mean clay content (%) in the watershed by cluster

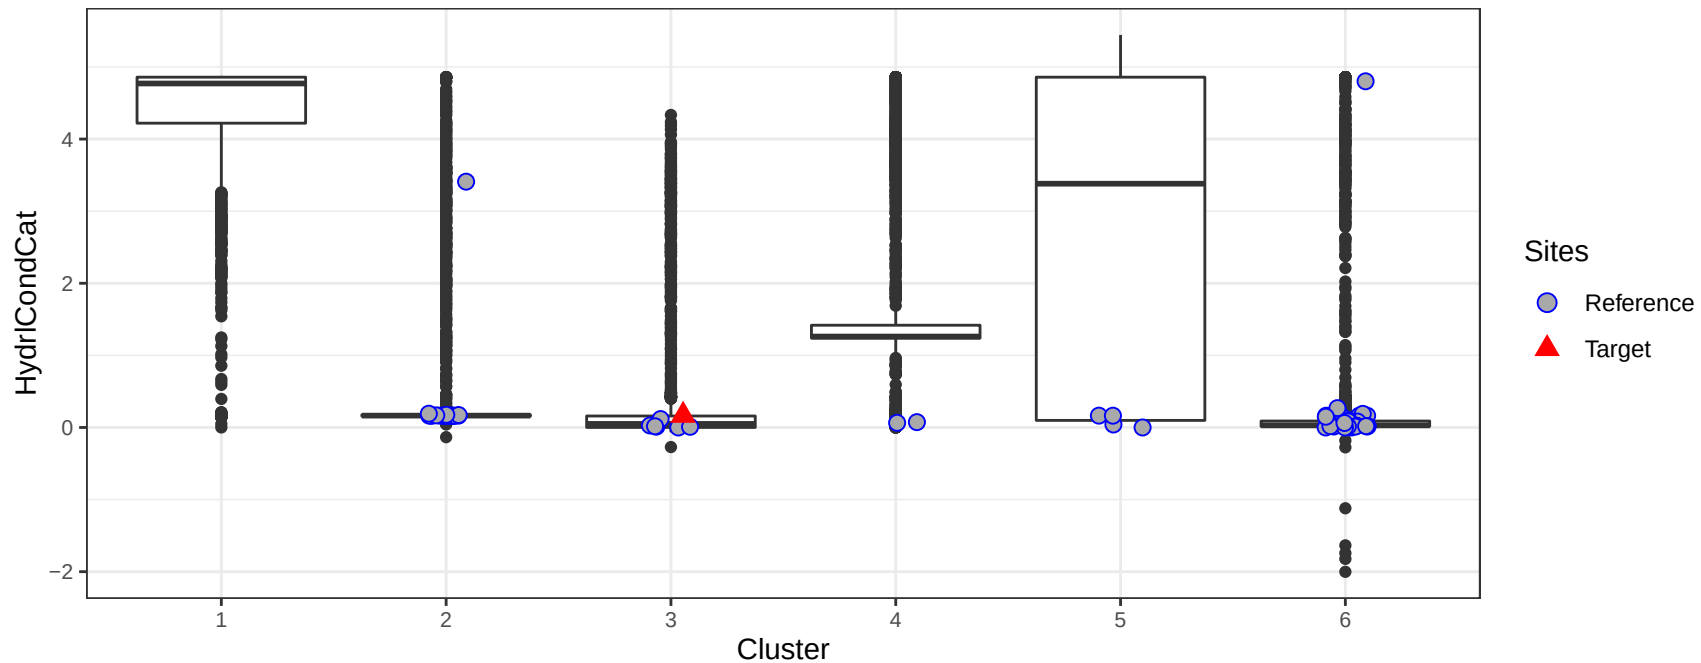

Surface Fe₂O₃ content (%) in the catchment by cluster

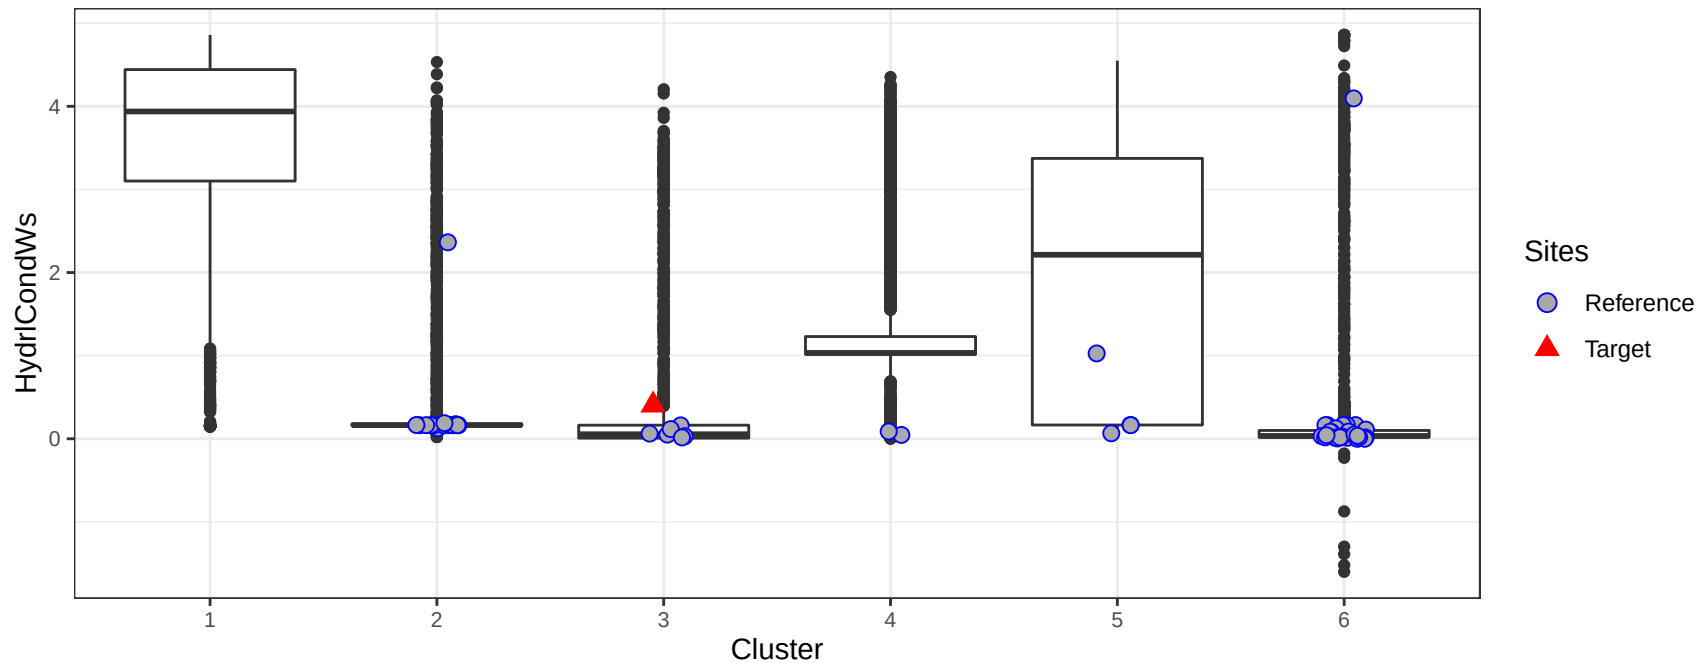

Surface Fe₂O₃ content (%) in the watershed by cluster

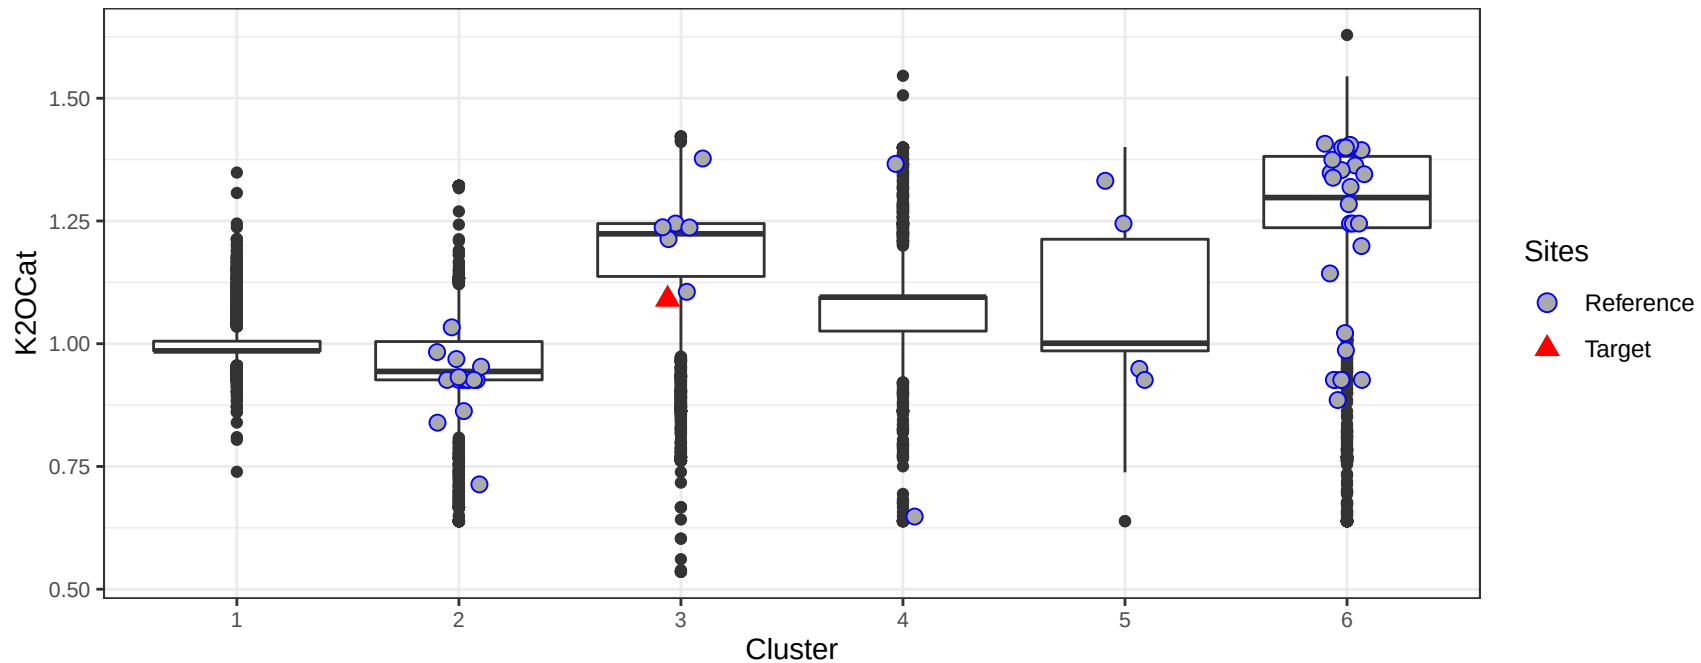

Hydraulic conductivity (um/sec) in the catchment by cluster

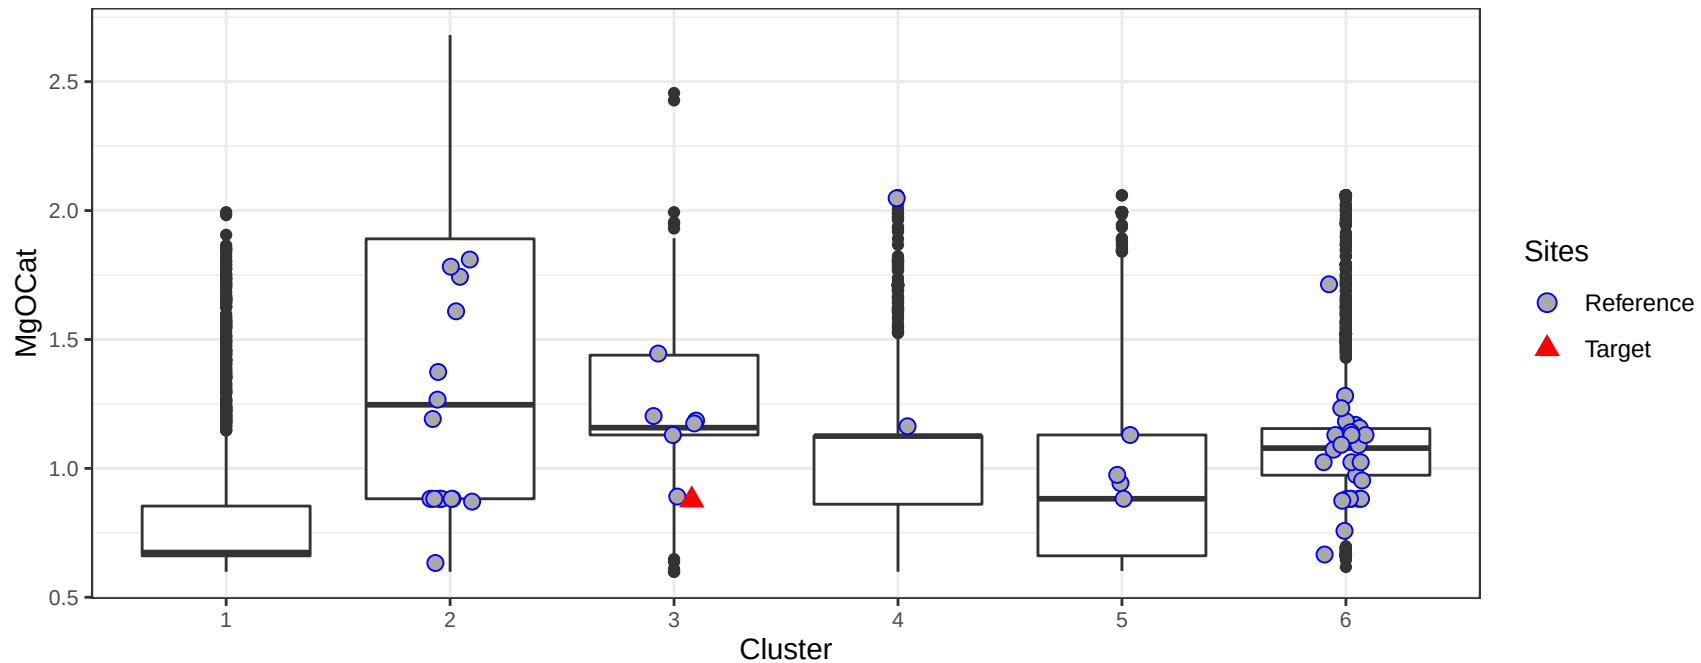

Hydraulic conductivity (um/sec) in the watershed by cluster

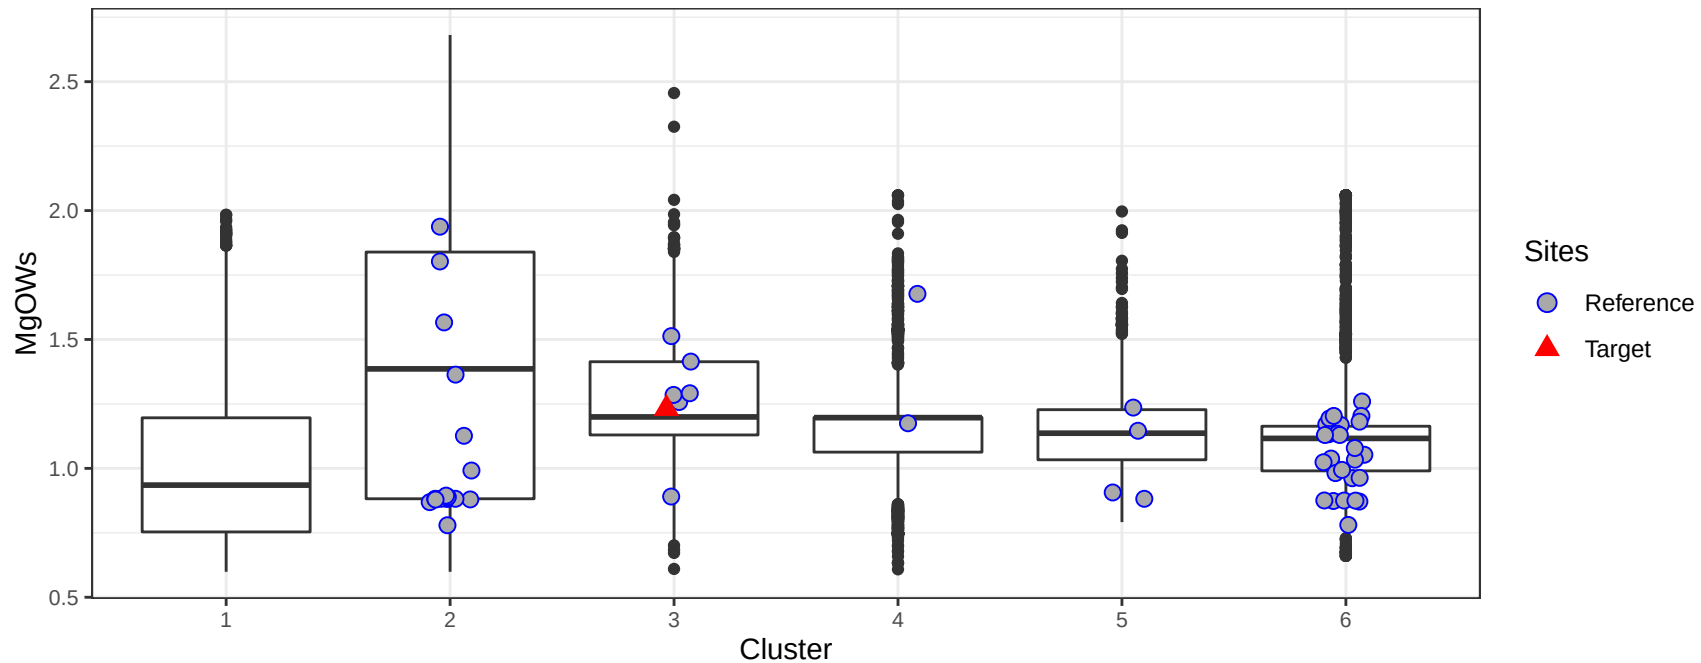

Surface K₂O content (%) in the catchment by cluster

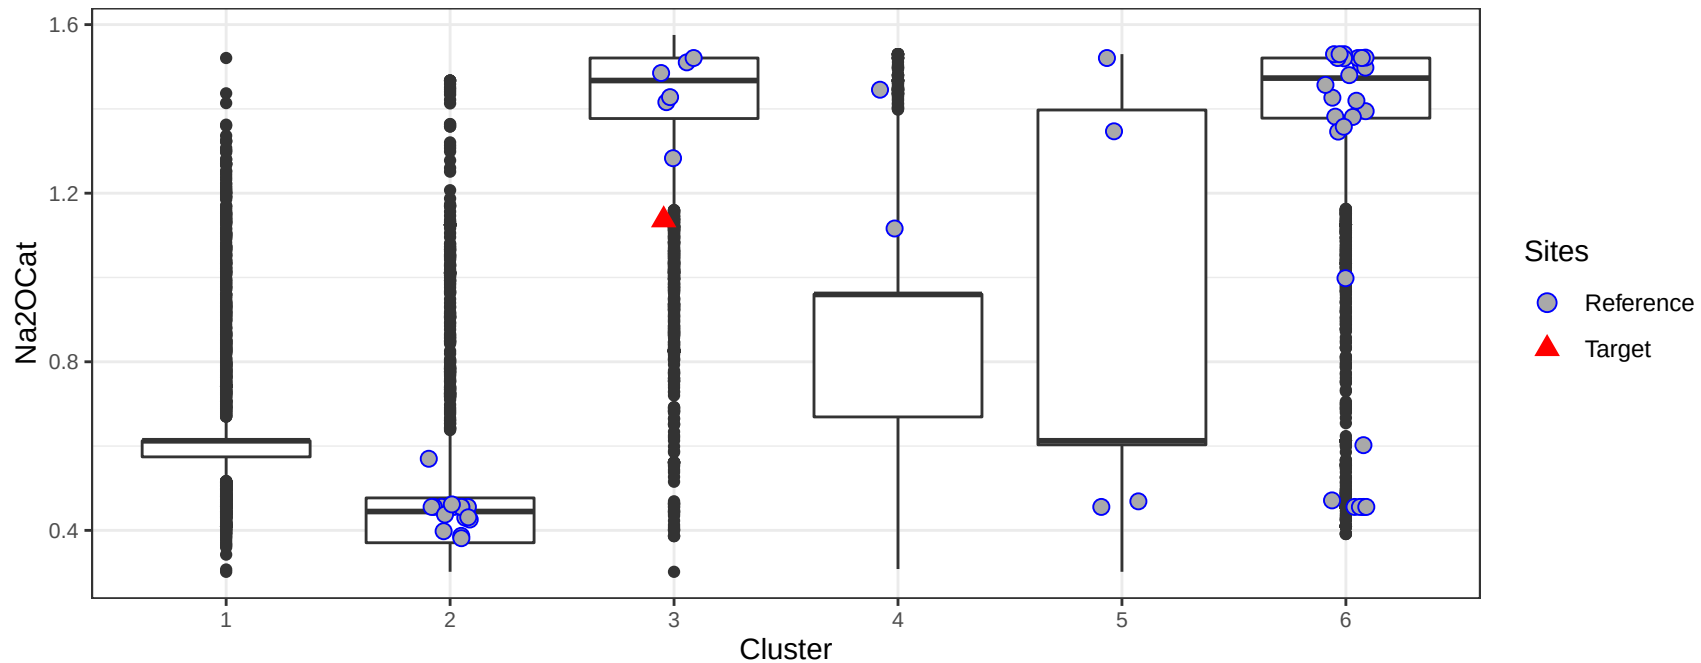

Surface MgO content (%) in the catchment by cluster

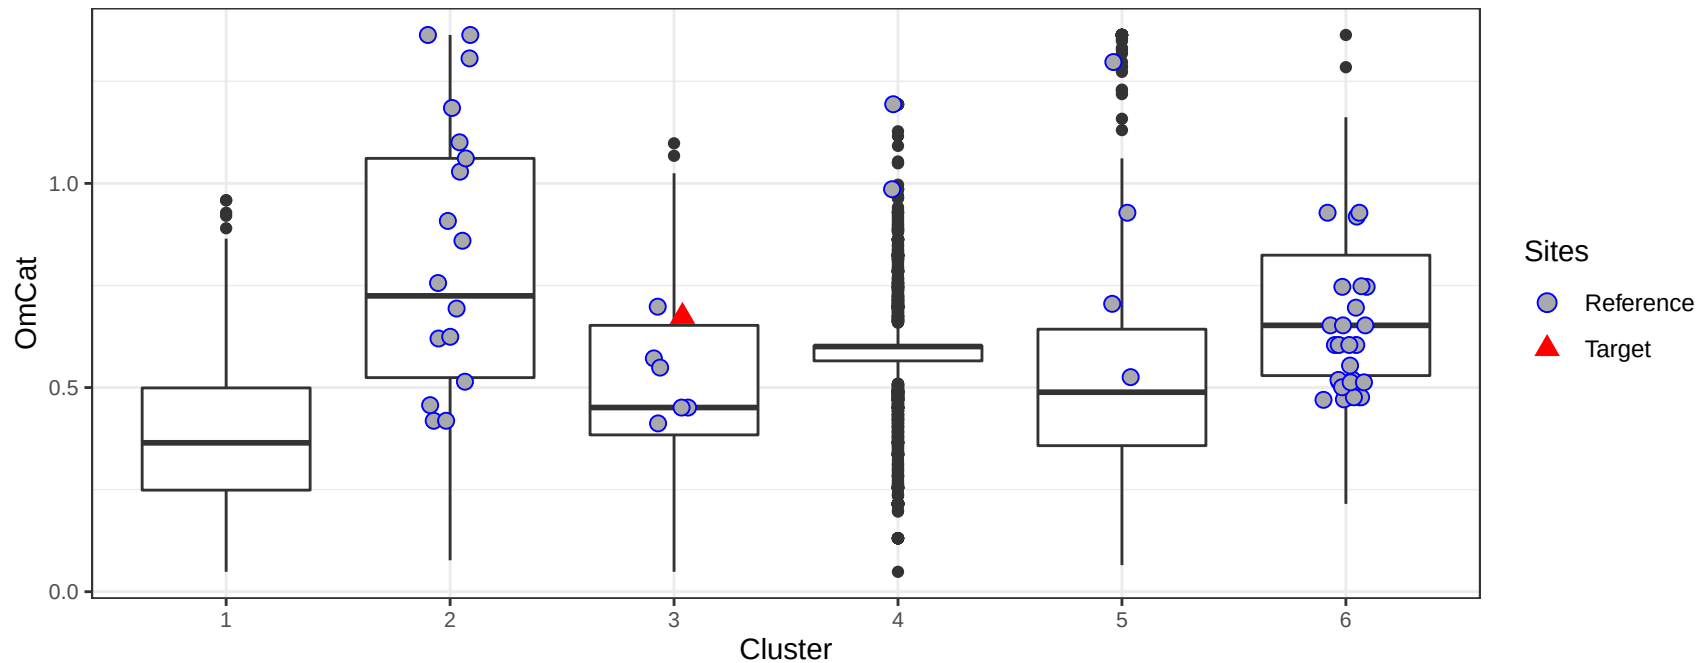

Surface MgO content (%) in the watershed by cluster

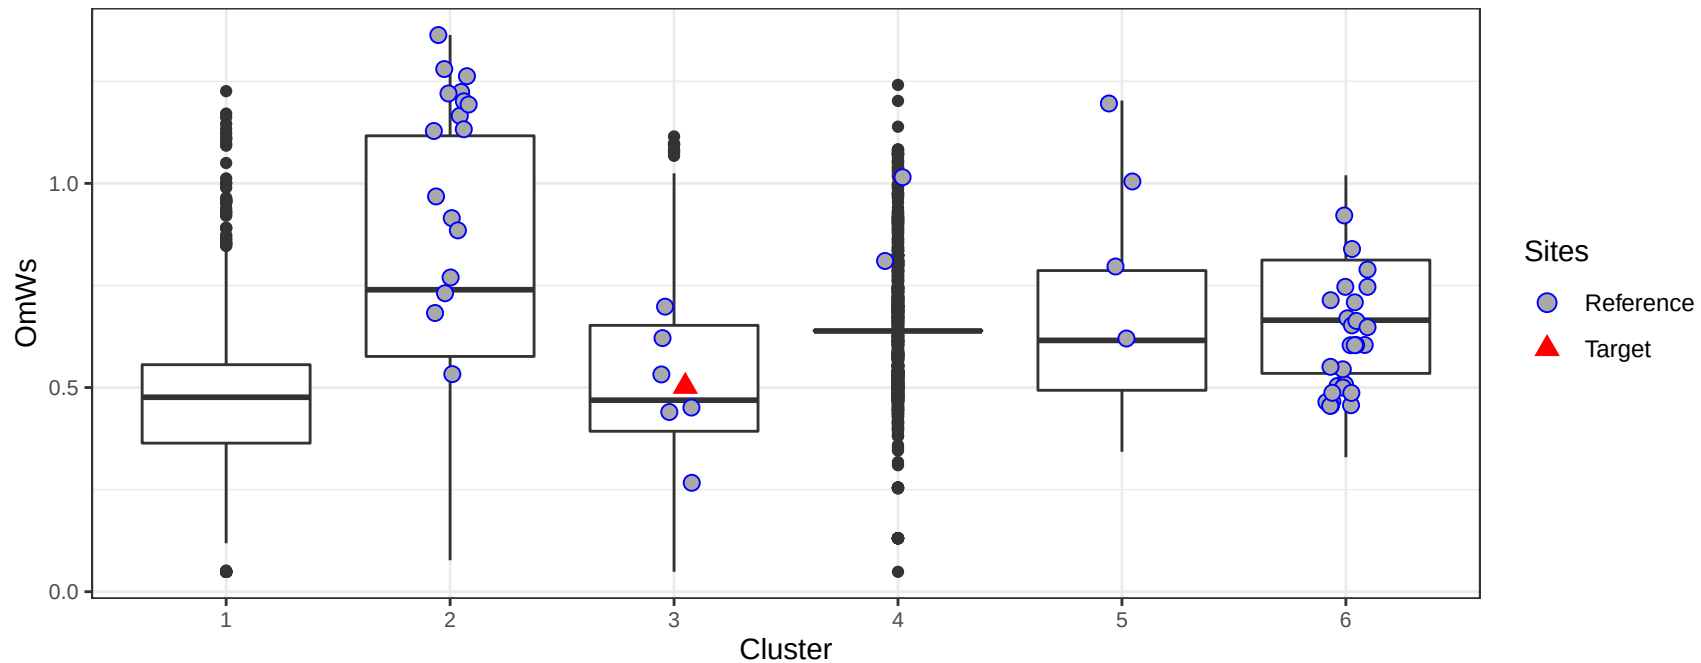

Surface Na₂O content (%) in the catchment by cluster

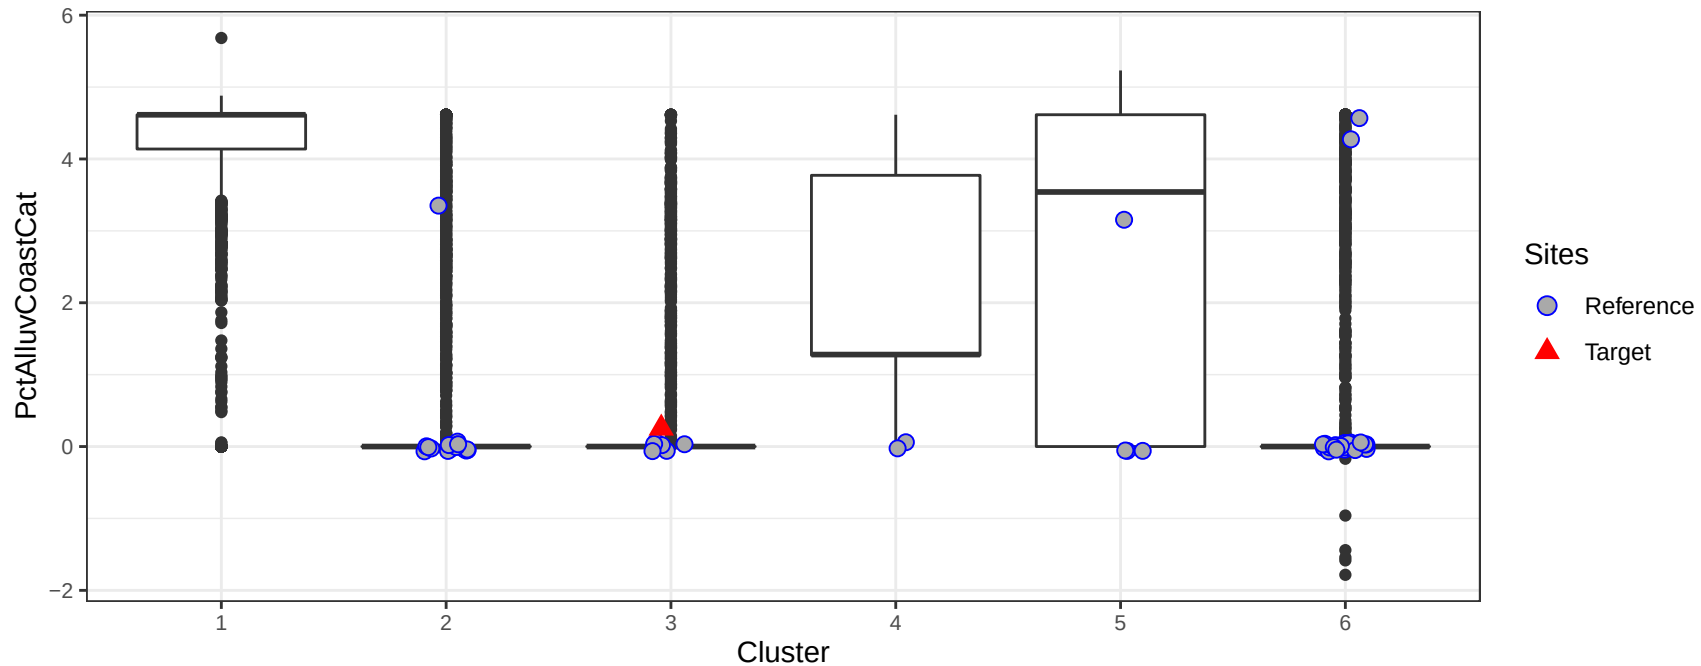

Mean organic matter content (% by weight) in the catchment by cluster

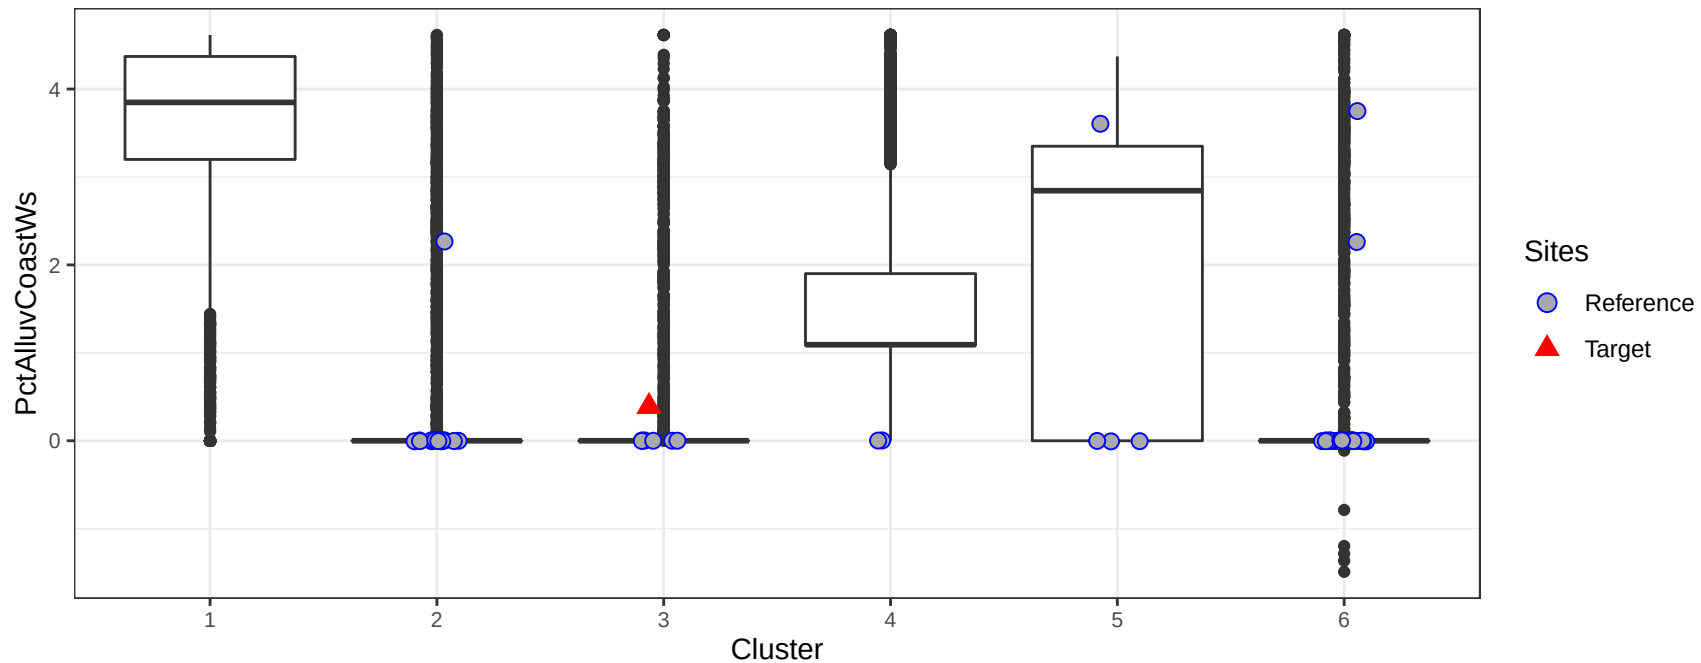

Mean organic matter content (% by weight) in the watershed by cluster

Alluvium and fine-textured coastal zone sediment (%) in the catchment by cluster

Alluvium and fine-textured coastal zone sediment (%) in the watershed by cluster

Non-carbonate residual material (%) in the catchment by cluster

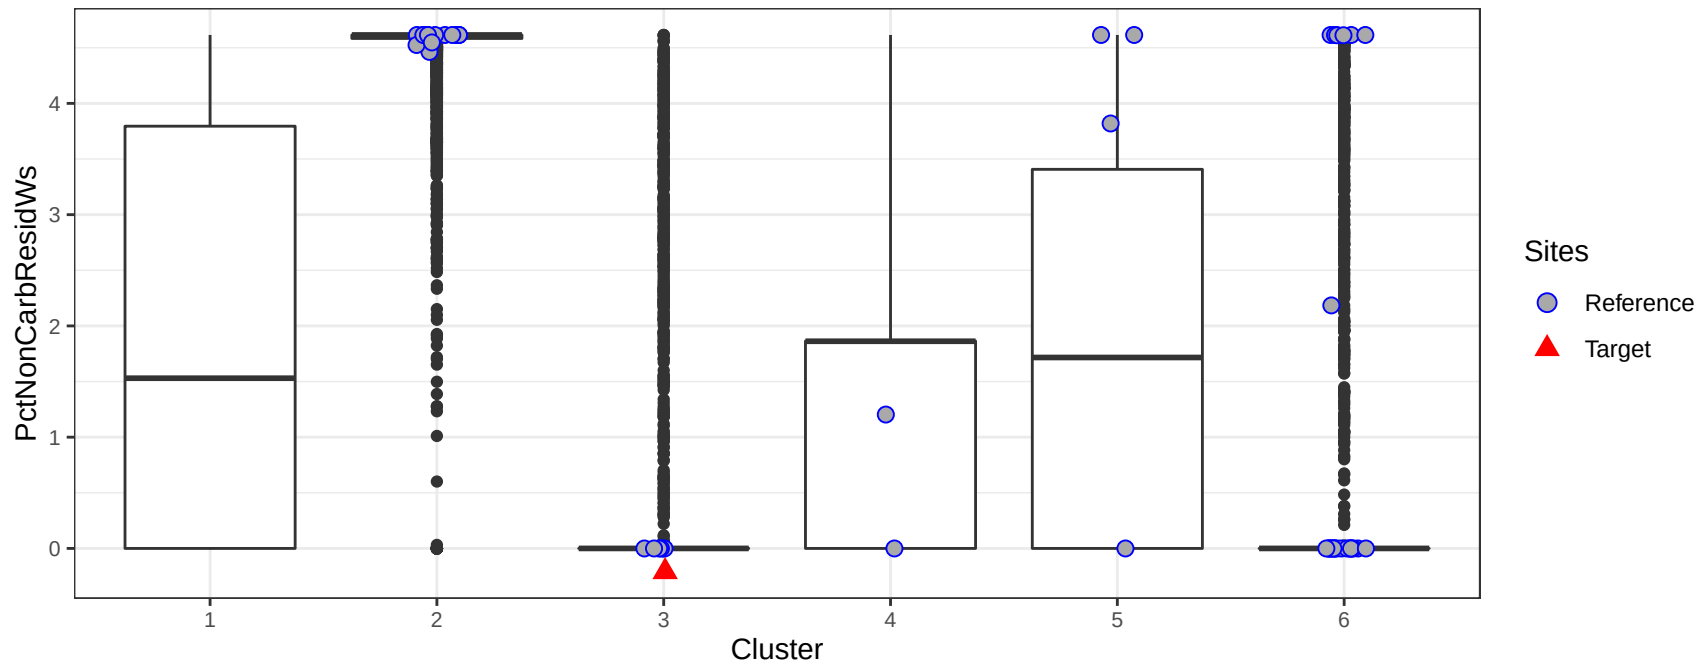

Sites

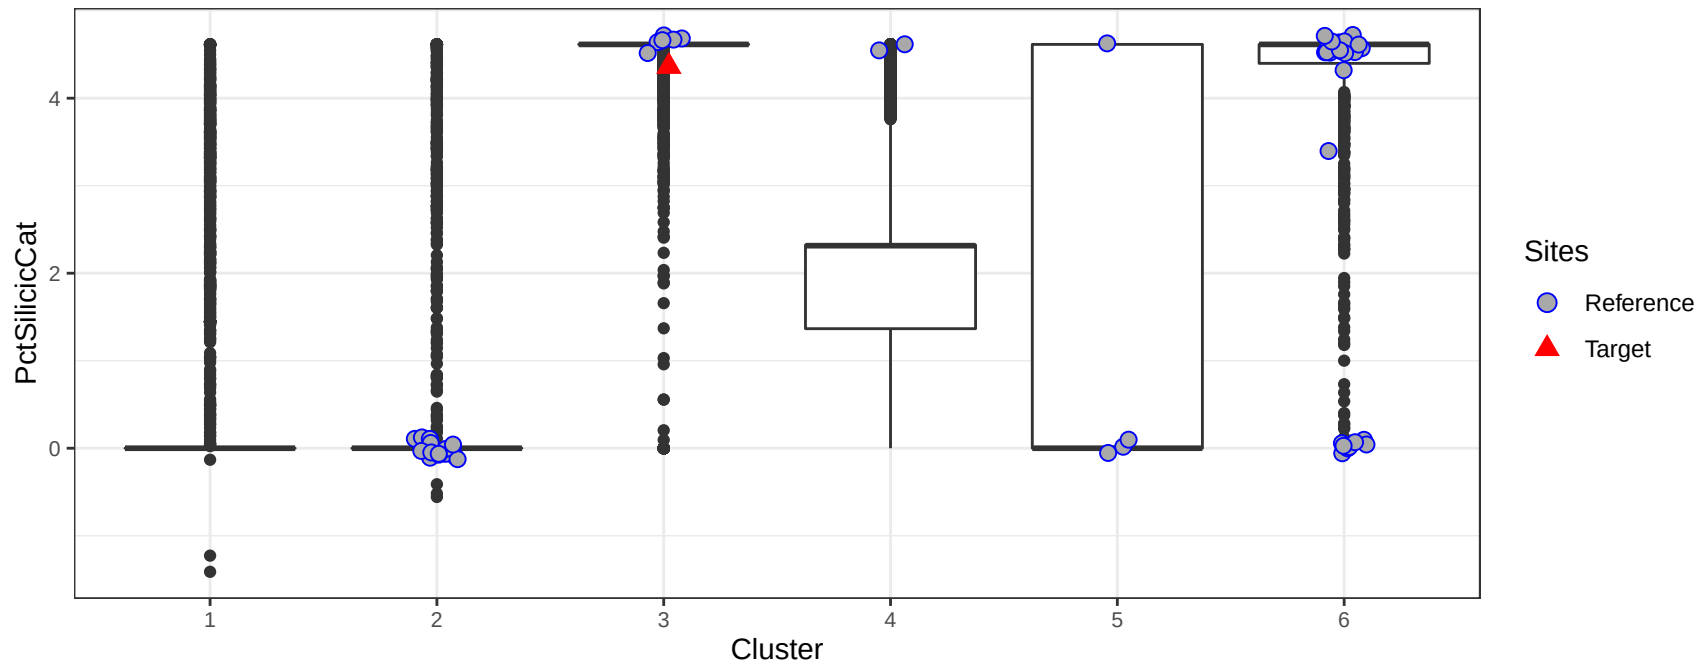

○ Reference

▲ Target

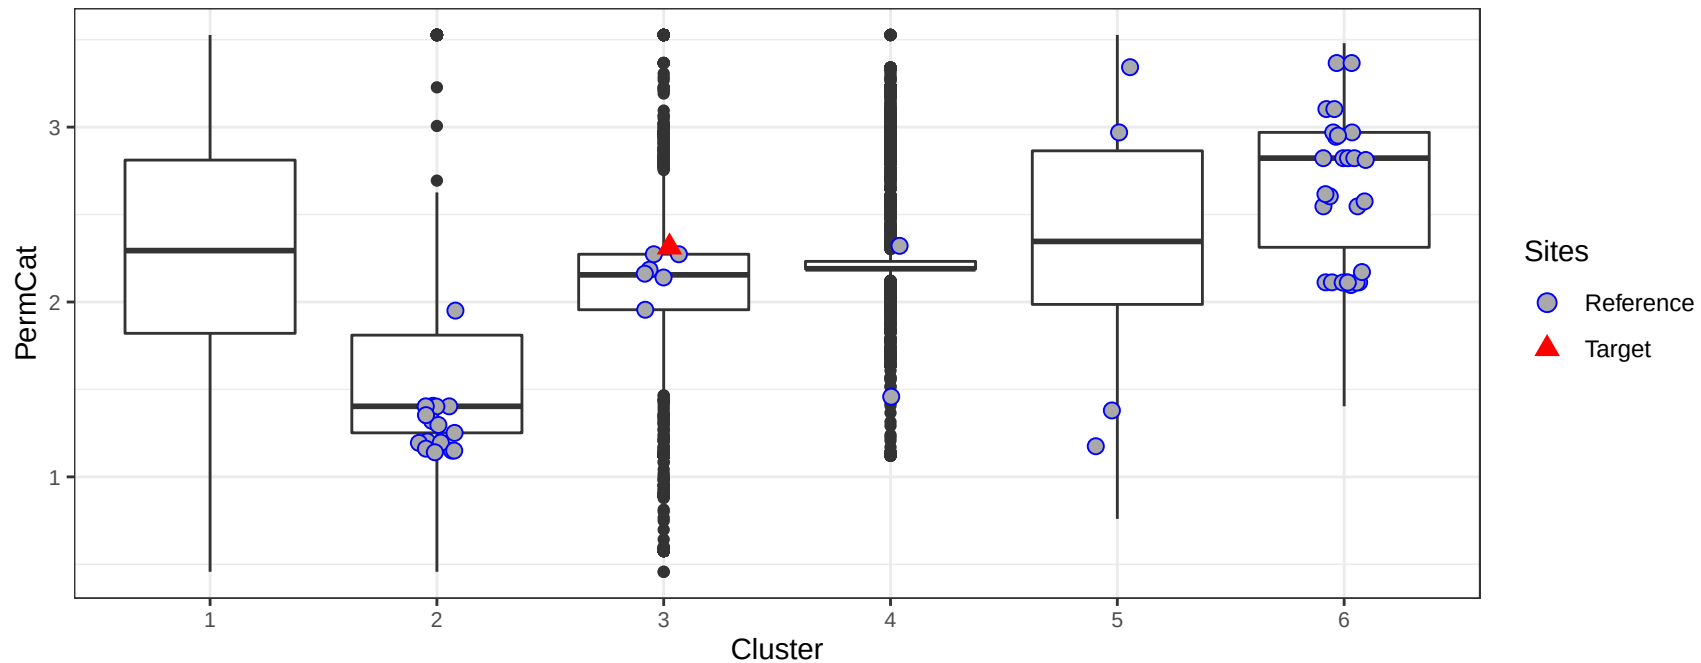

Non-carbonate residual material (%) in the watershed by cluster

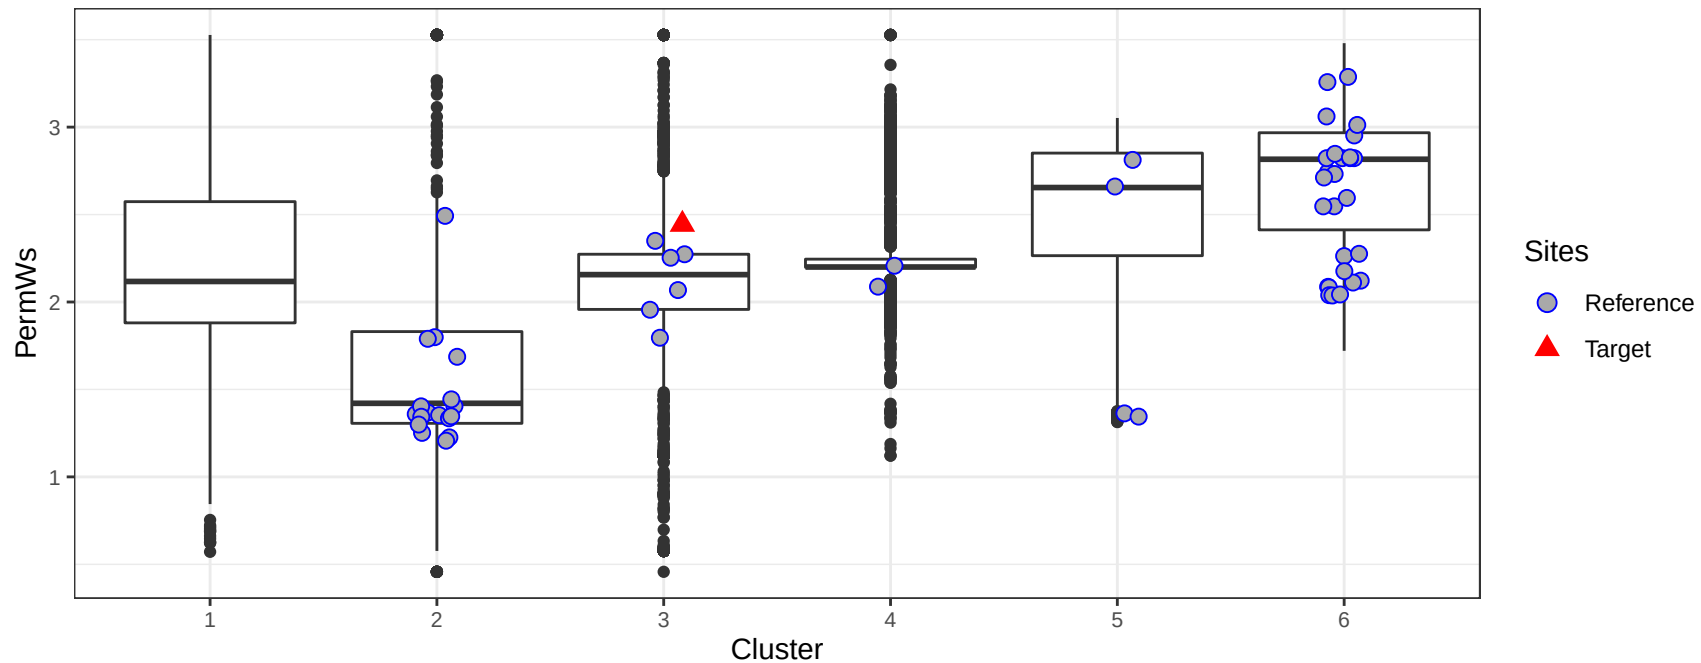

Silicic residual material (%) in the catchment by cluster

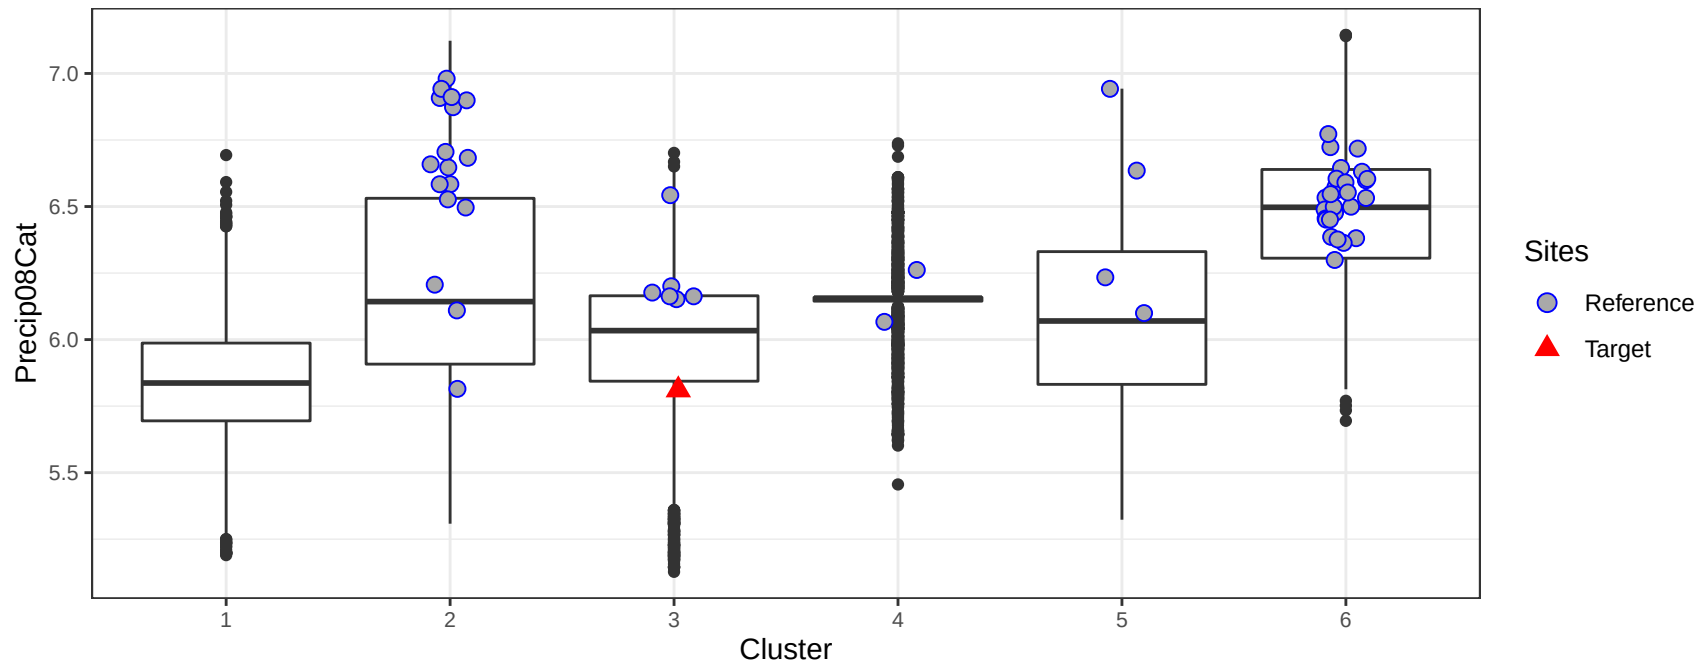

Mean permeability (cm/hr) in the catchment by cluster

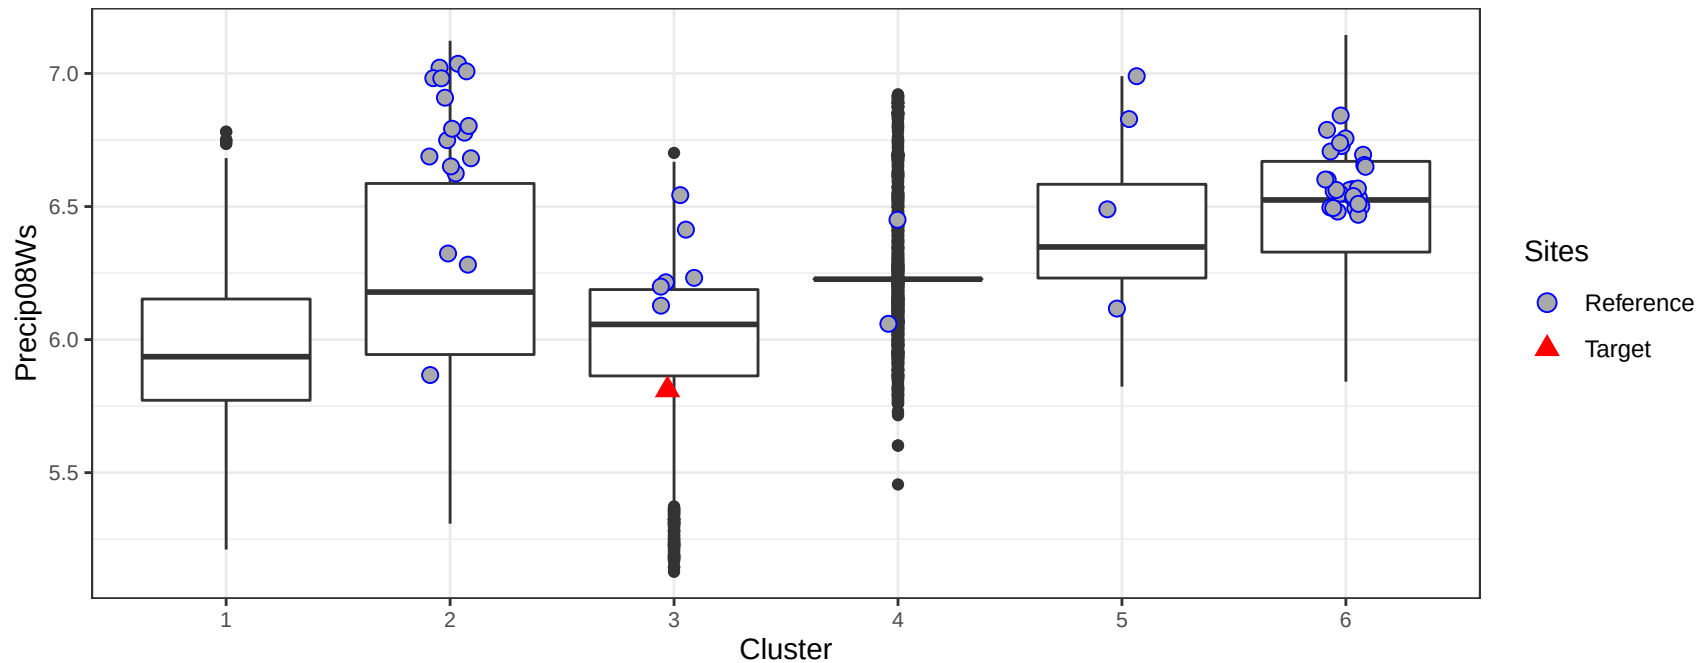

Mean permeability (cm/hr) in the watershed by cluster

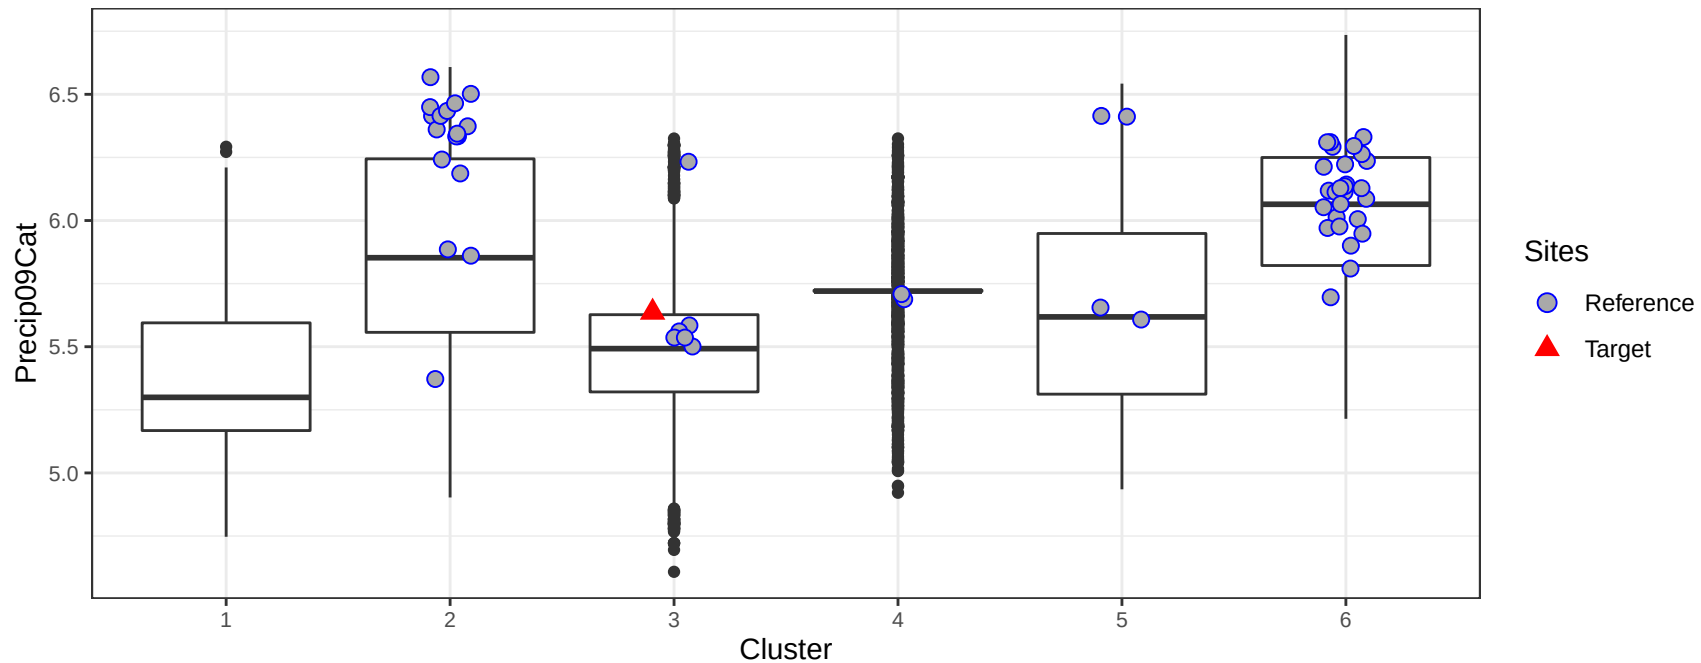

Mean precipitation in 2008 (mm) in the catchment by cluster

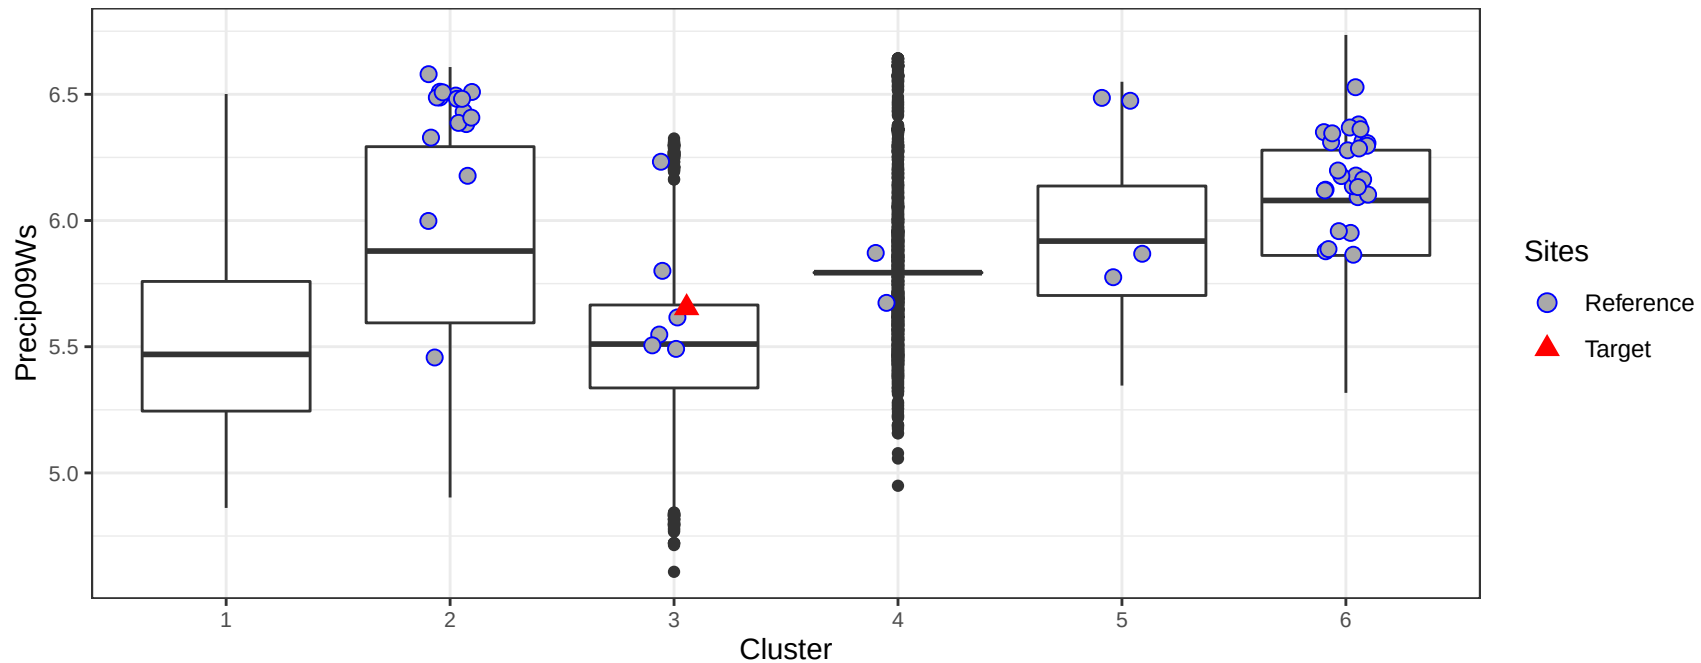

Mean precipitation in 2008 (mm) in the watershed by cluster

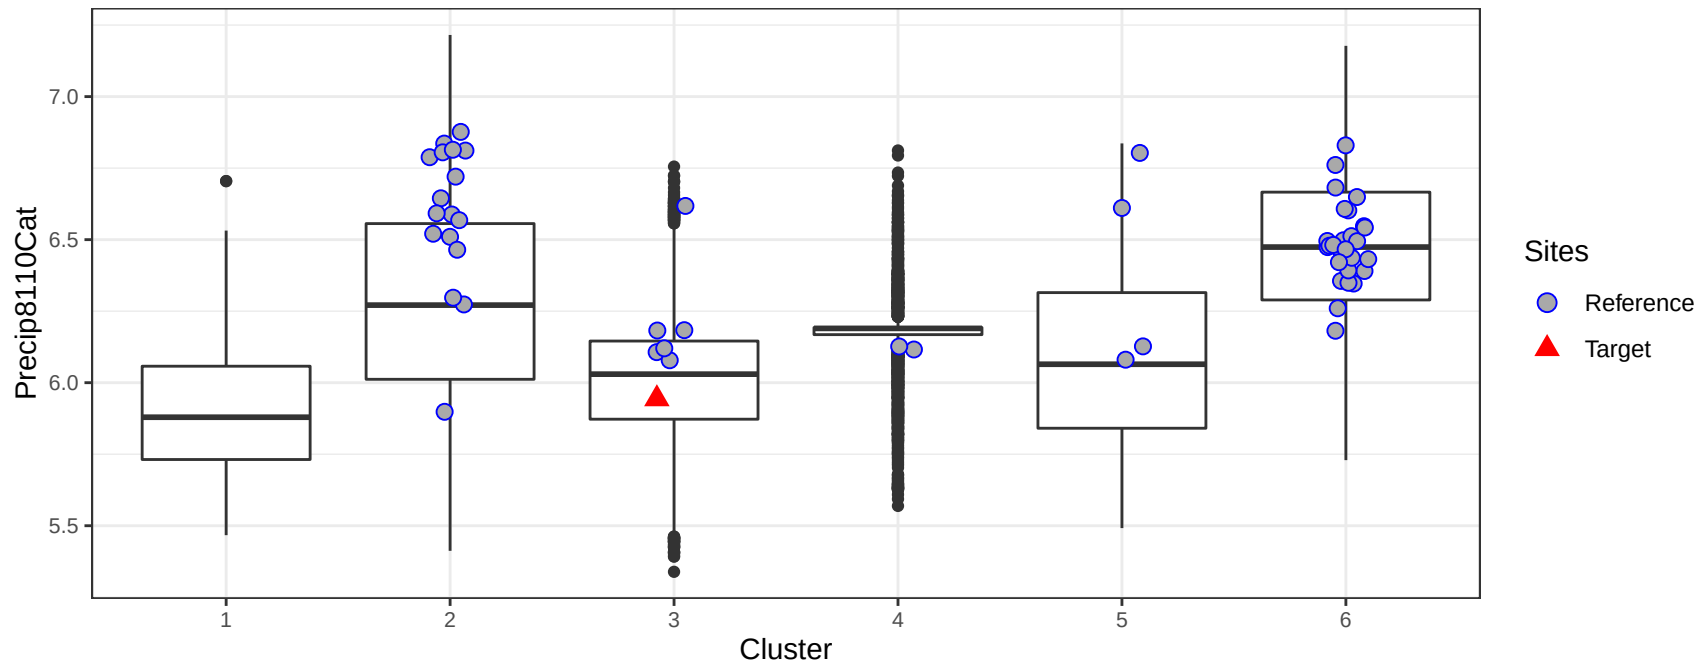

Mean precipitation in 2009 (mm) in the catchment by cluster

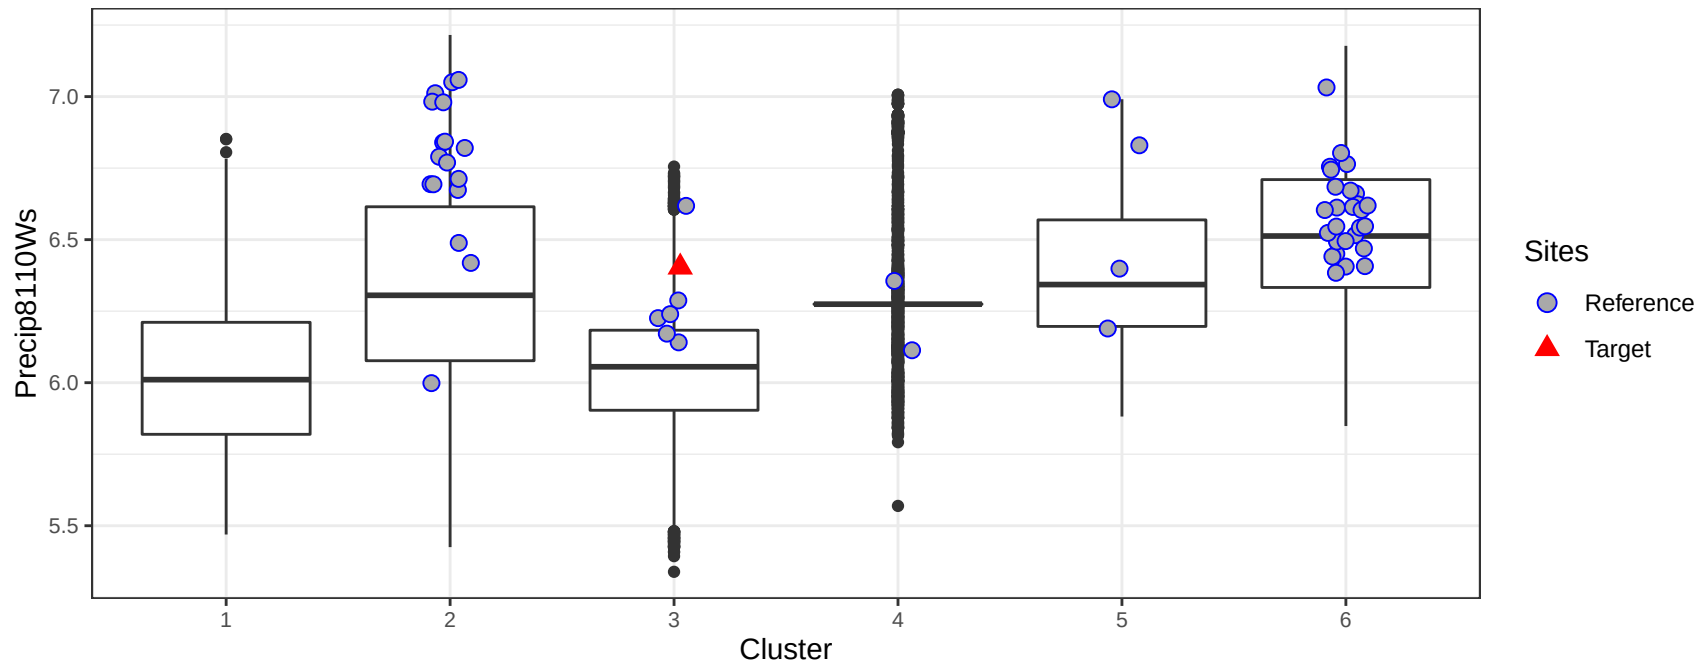

Mean precipitation in 2009 (mm) in the watershed by cluster

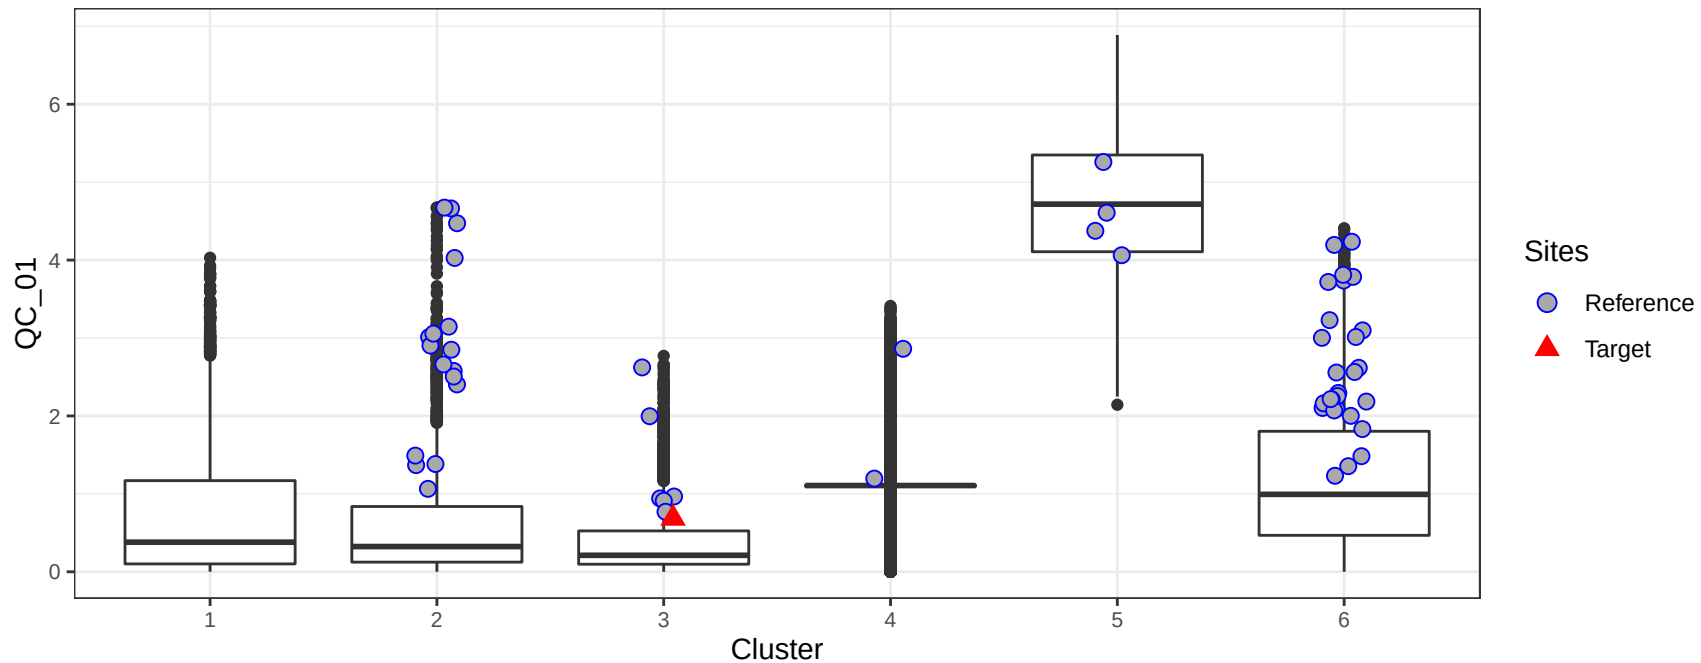

30-year normal mean precipitation (mm) in the catchment by cluster

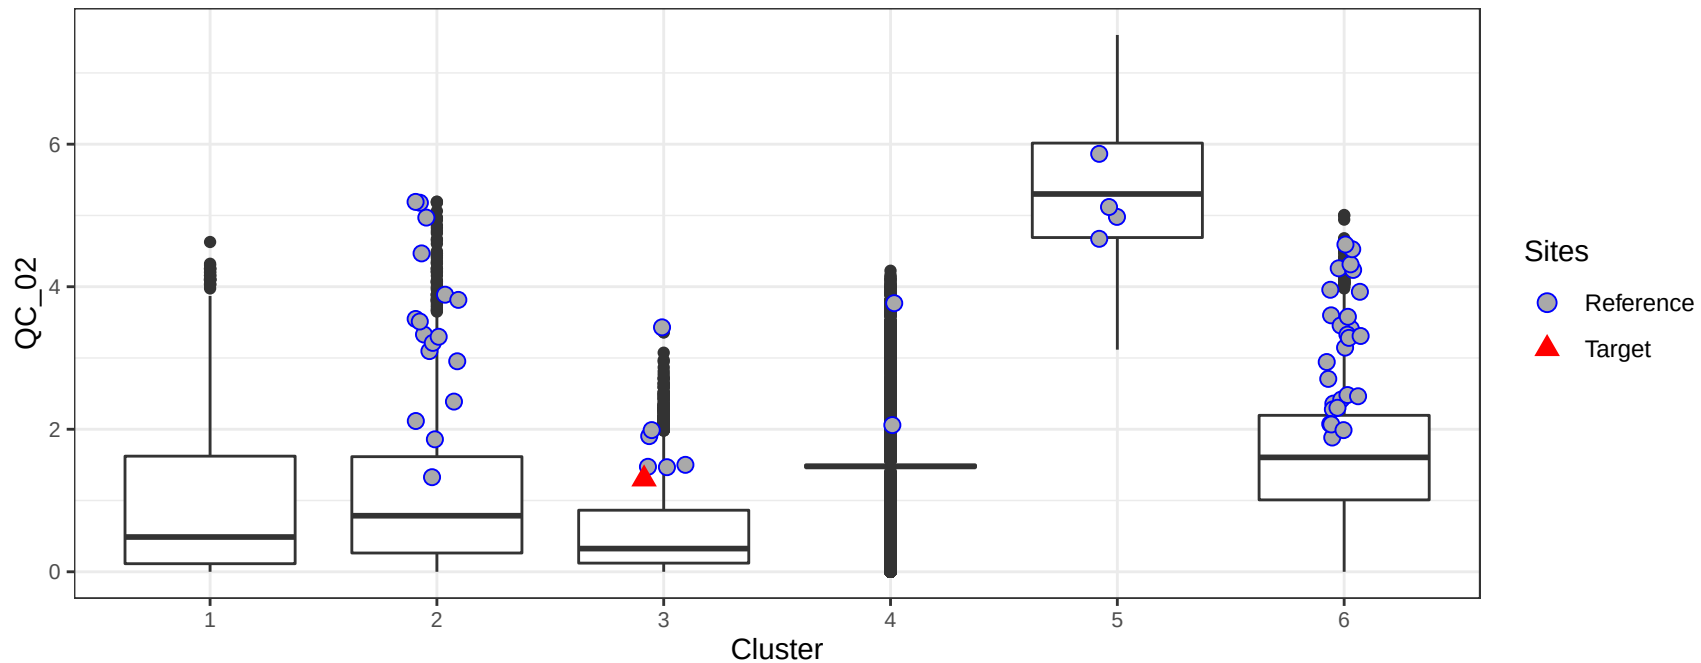

30-year normal mean precipitation (mm) in the watershed by cluster

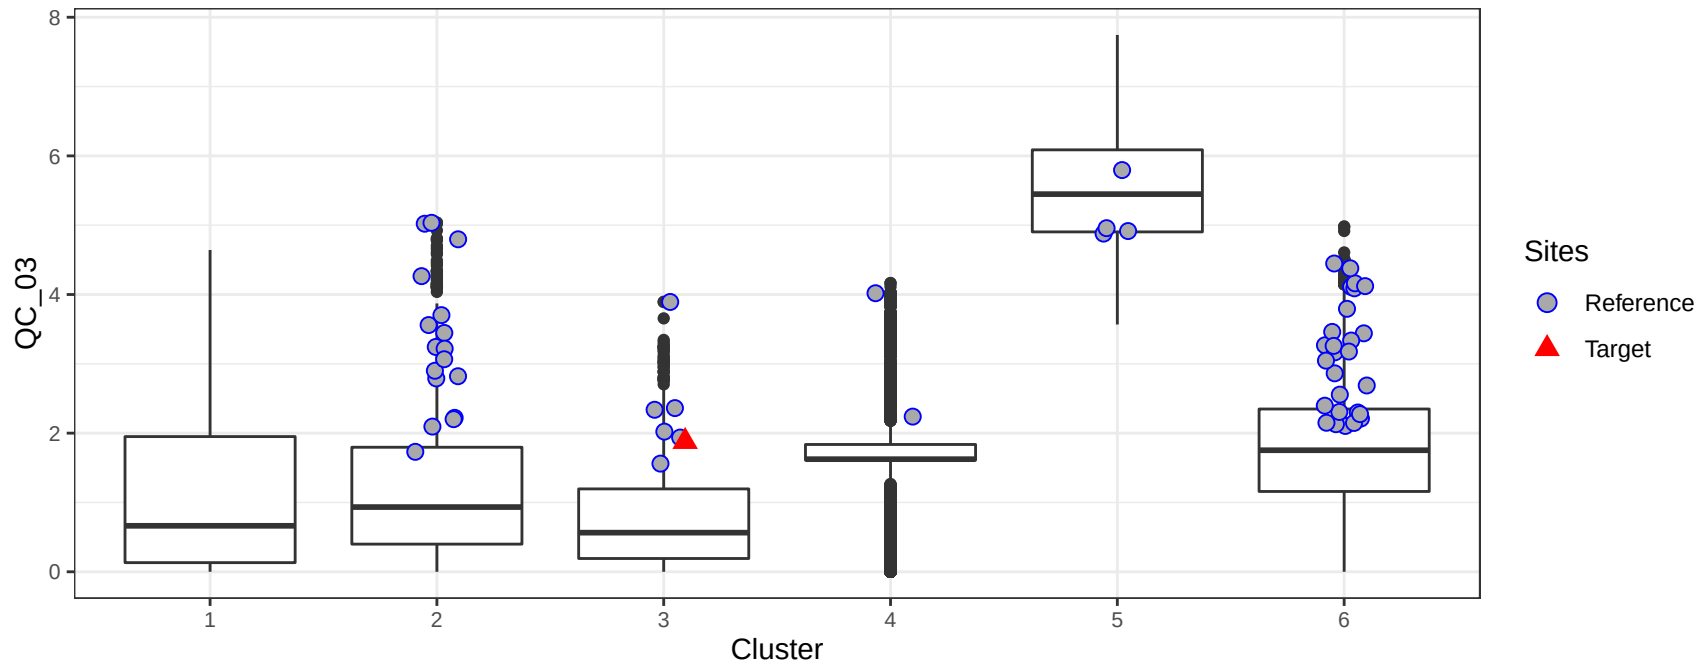

Mean January flow (est.) (cfs) in the catchment by cluster

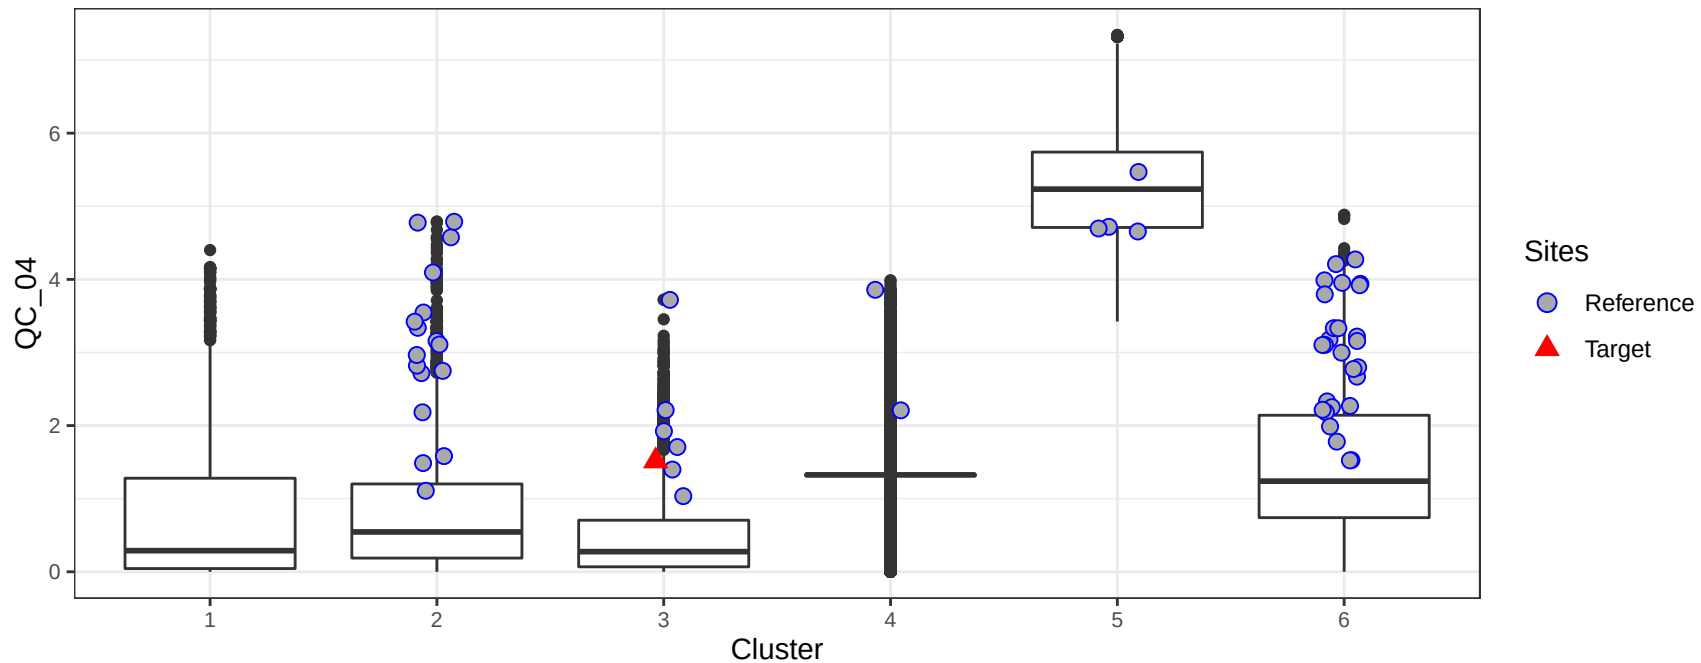

Mean February flow (est.) (cfs) in the catchment by cluster

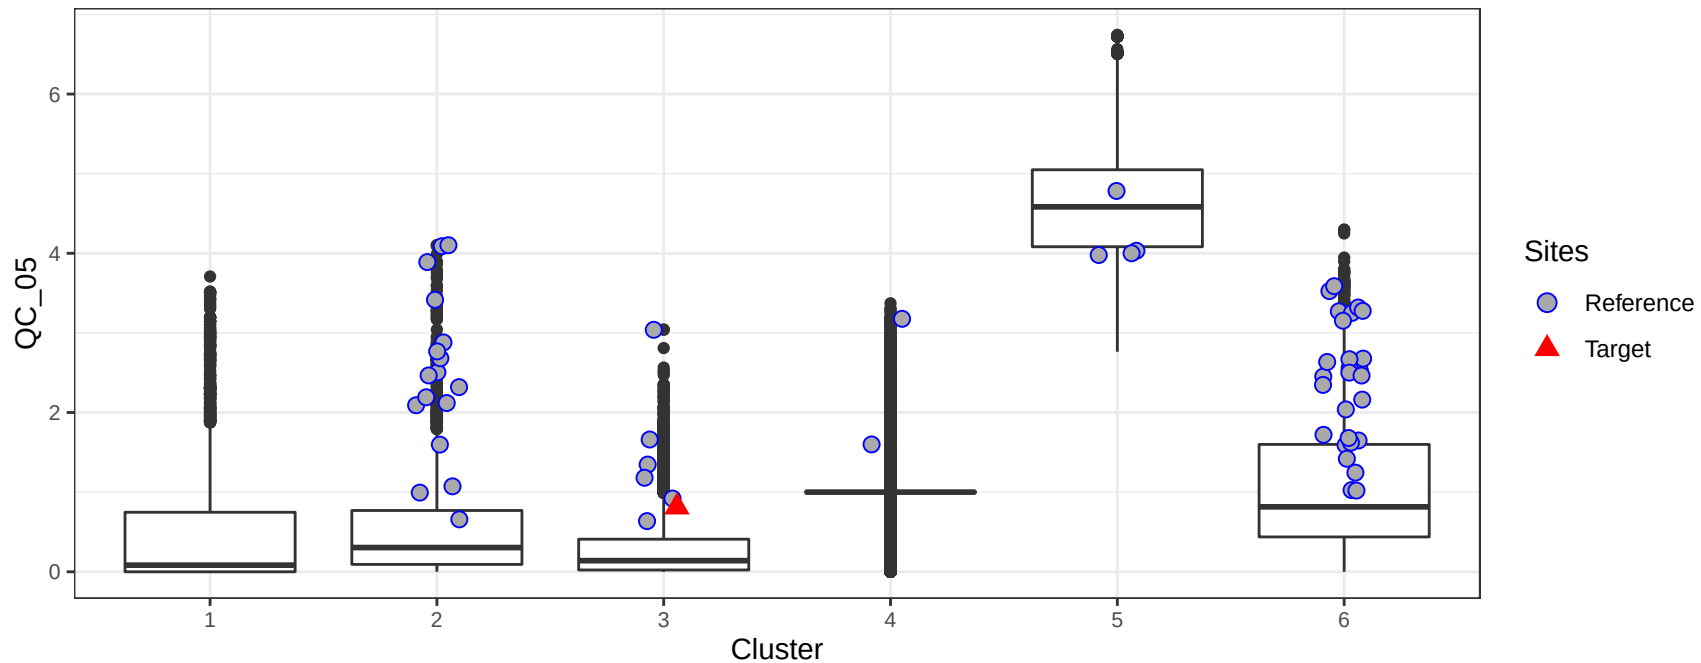

Mean March flow (est.) (cfs) in the catchment by cluster

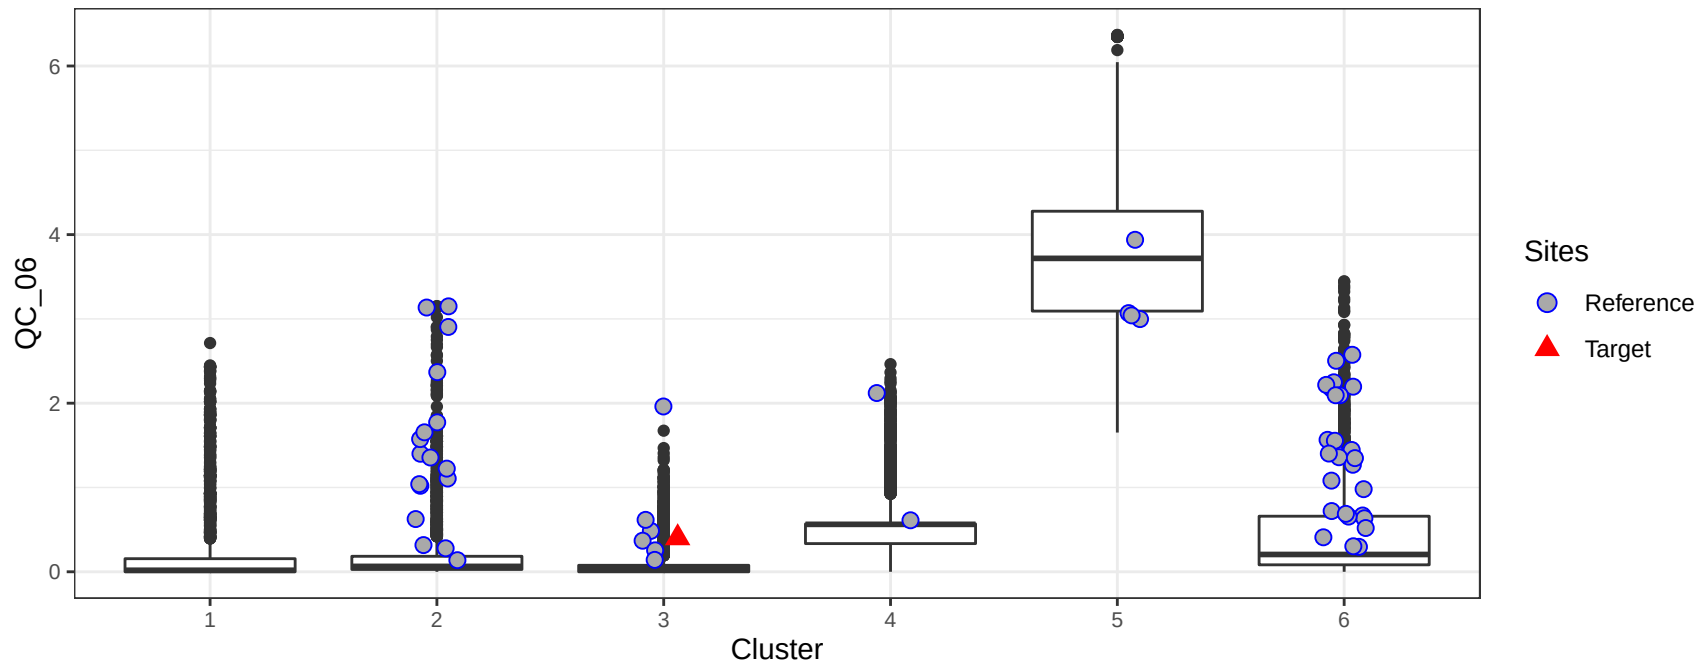

Mean April flow (est.) (cfs) in the catchment by cluster

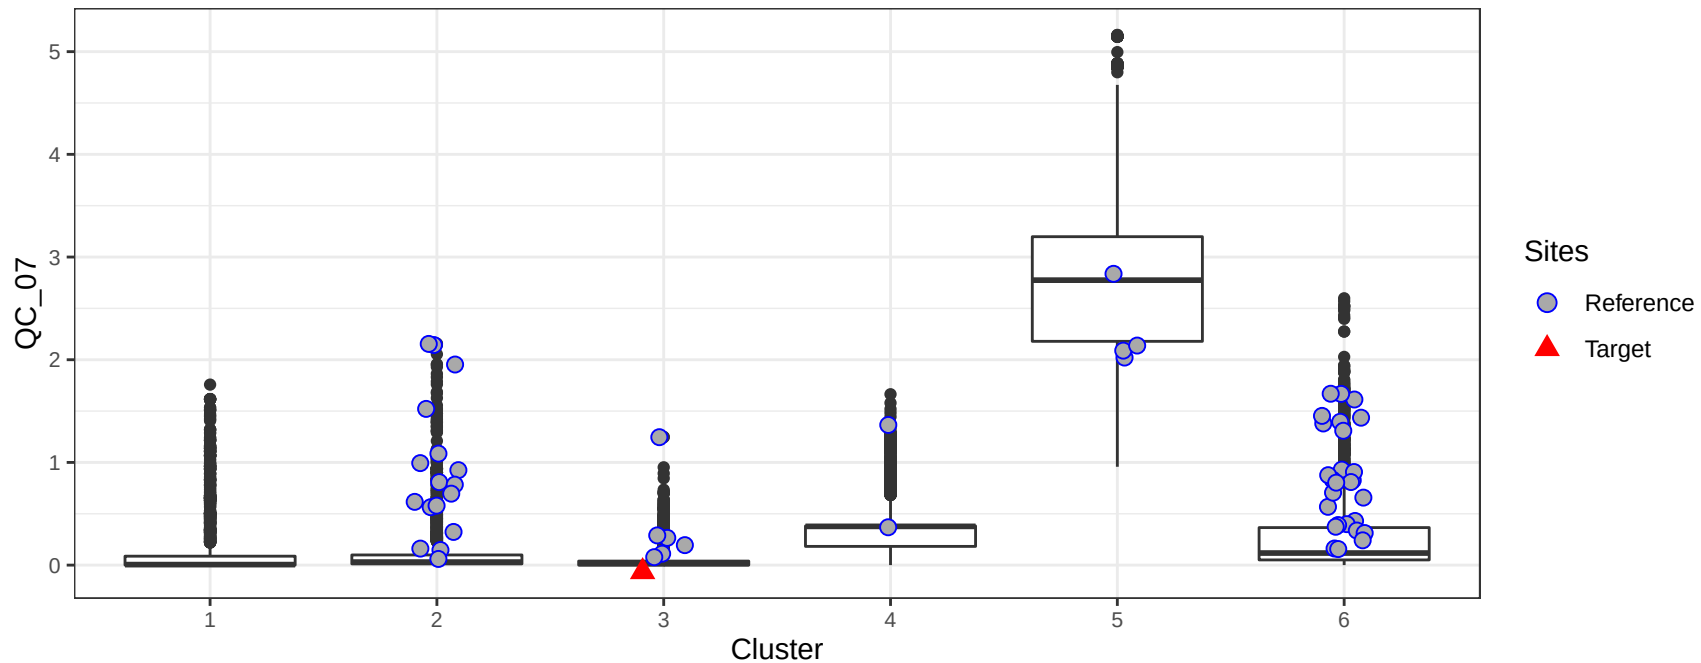

Mean May flow (est.) (cfs) in the catchment by cluster

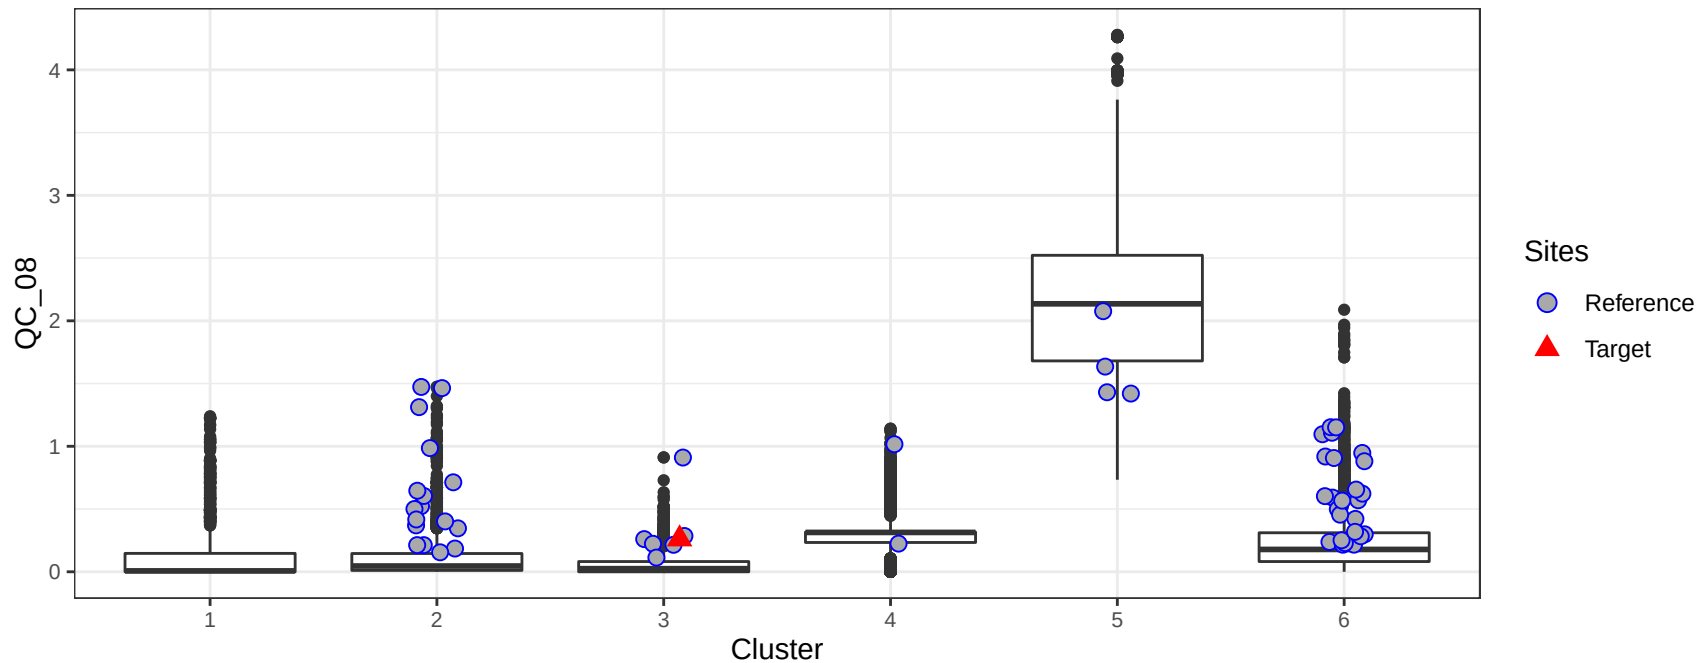

Mean June flow (est.) (cfs) in the catchment by cluster

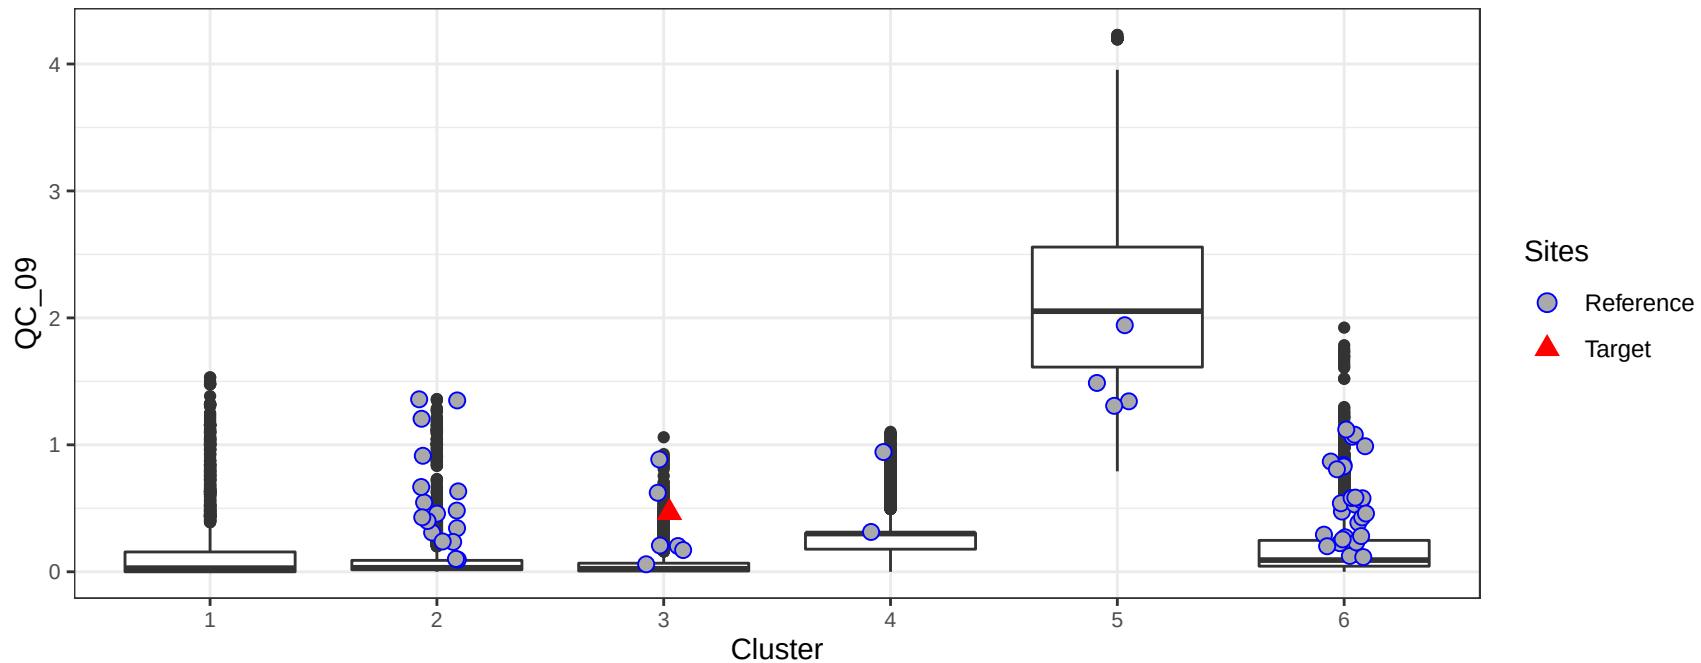

Mean July flow (est.) (cfs) in the catchment by cluster

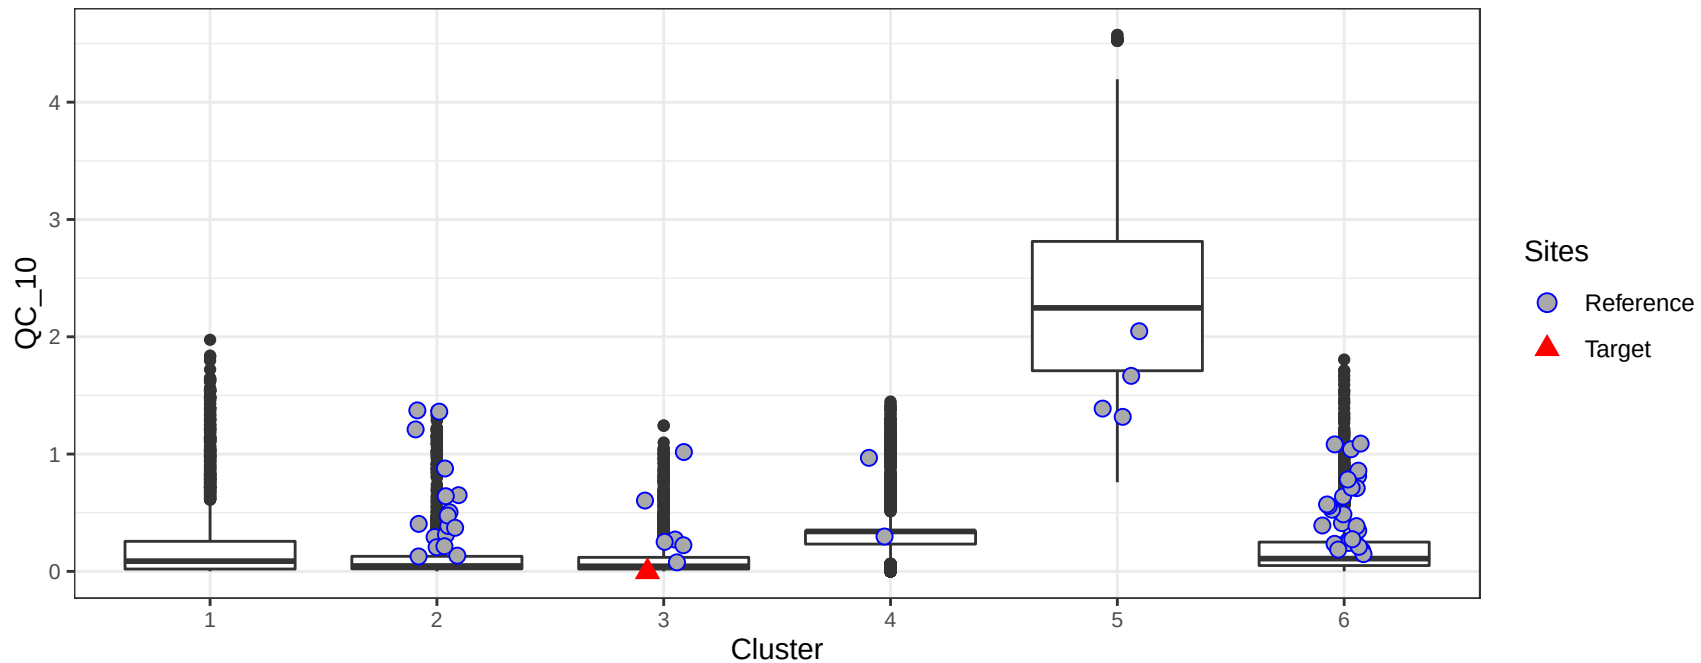

Mean August flow (est.) (cfs) in the catchment by cluster

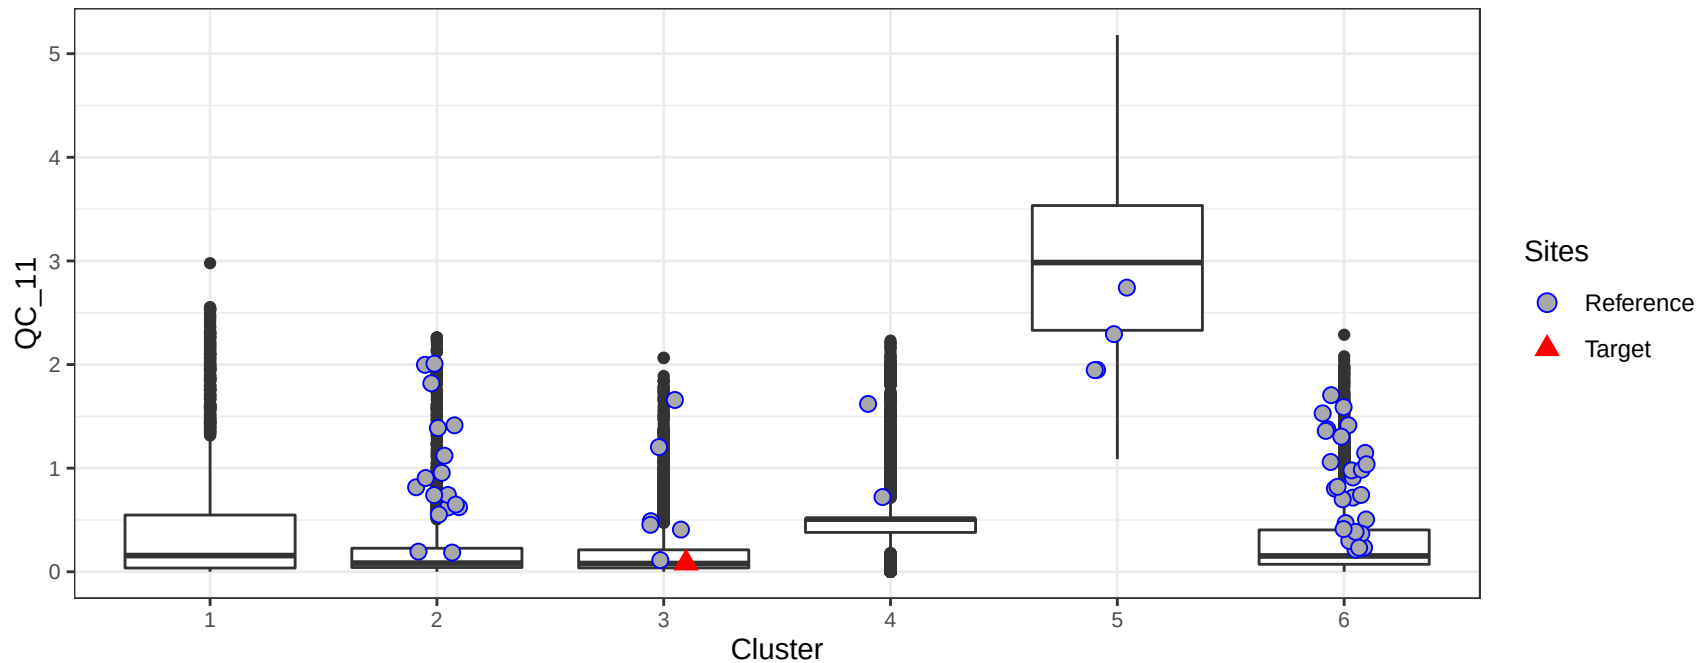

Mean September flow (est.) (cfs) in the catchment by cluster

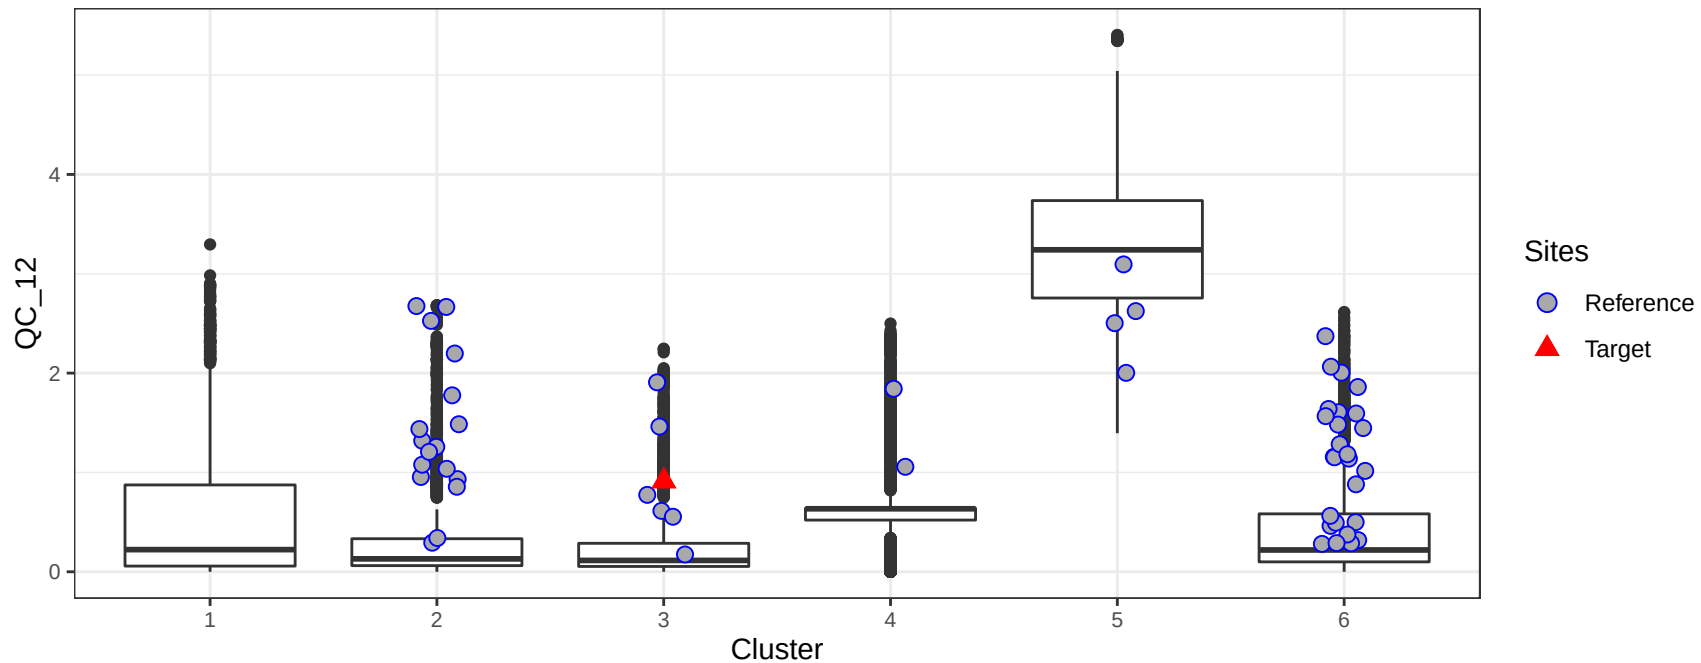

Mean October flow (est.) (cfs) in the catchment by cluster

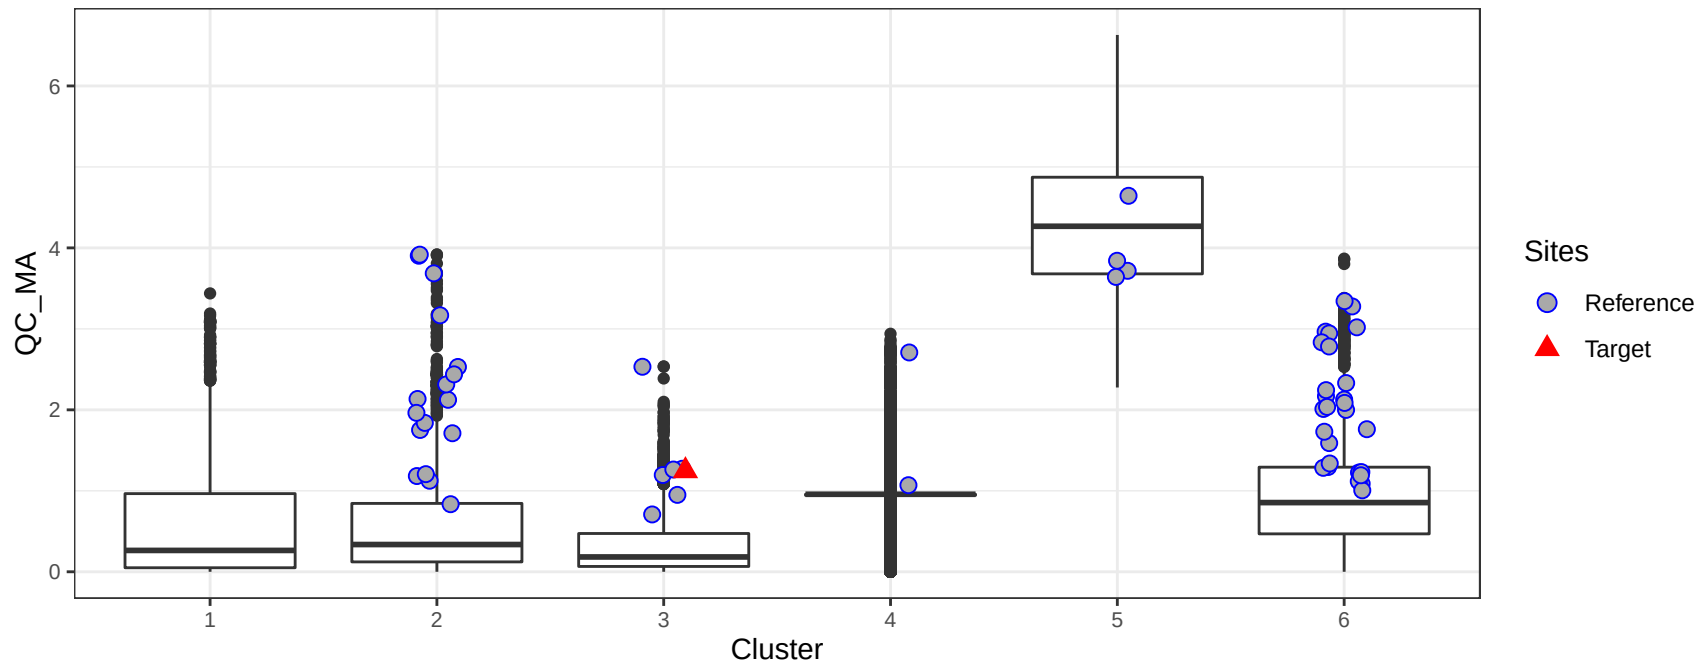

Mean November flow (est.) (cfs) in the catchment by cluster

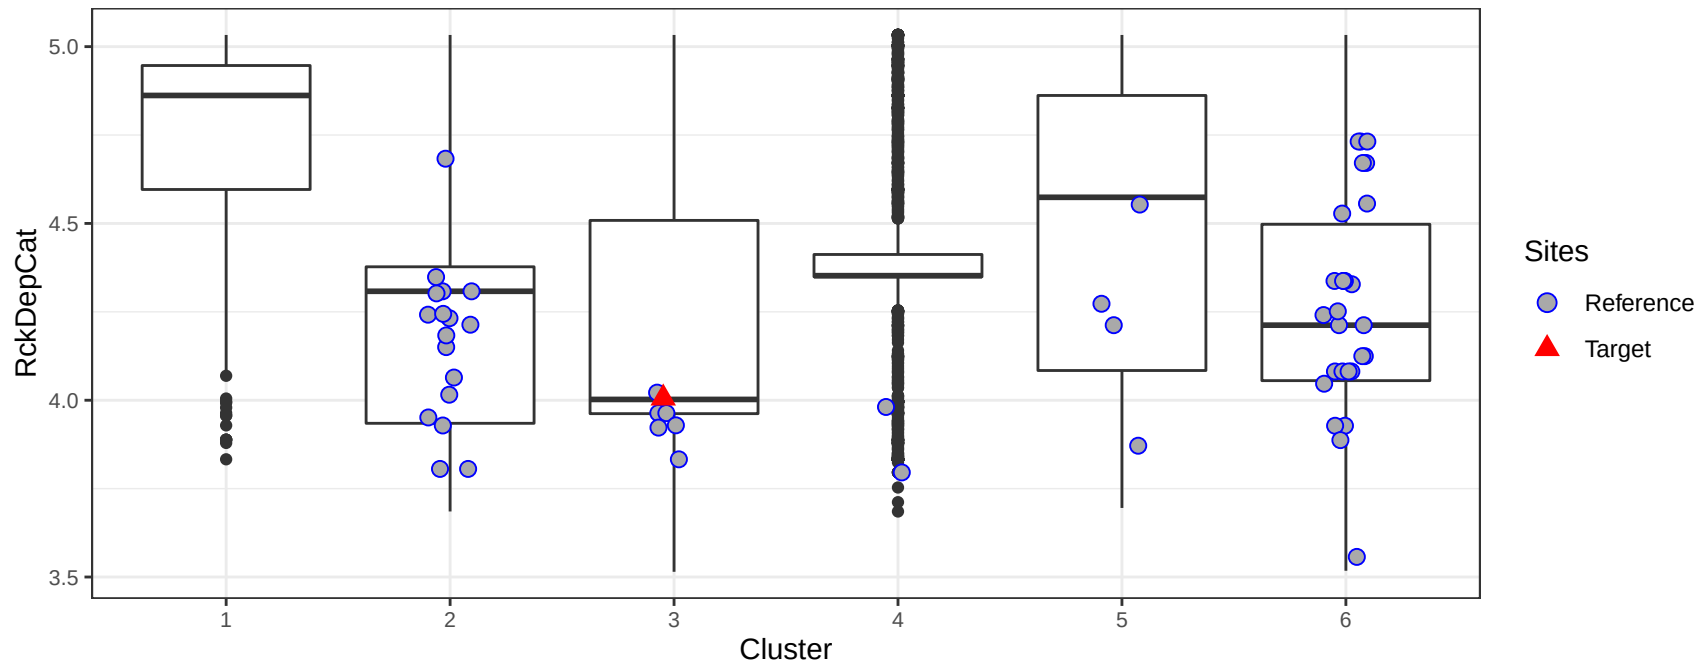

Mean December flow (est.) (cfs) in the catchment by cluster

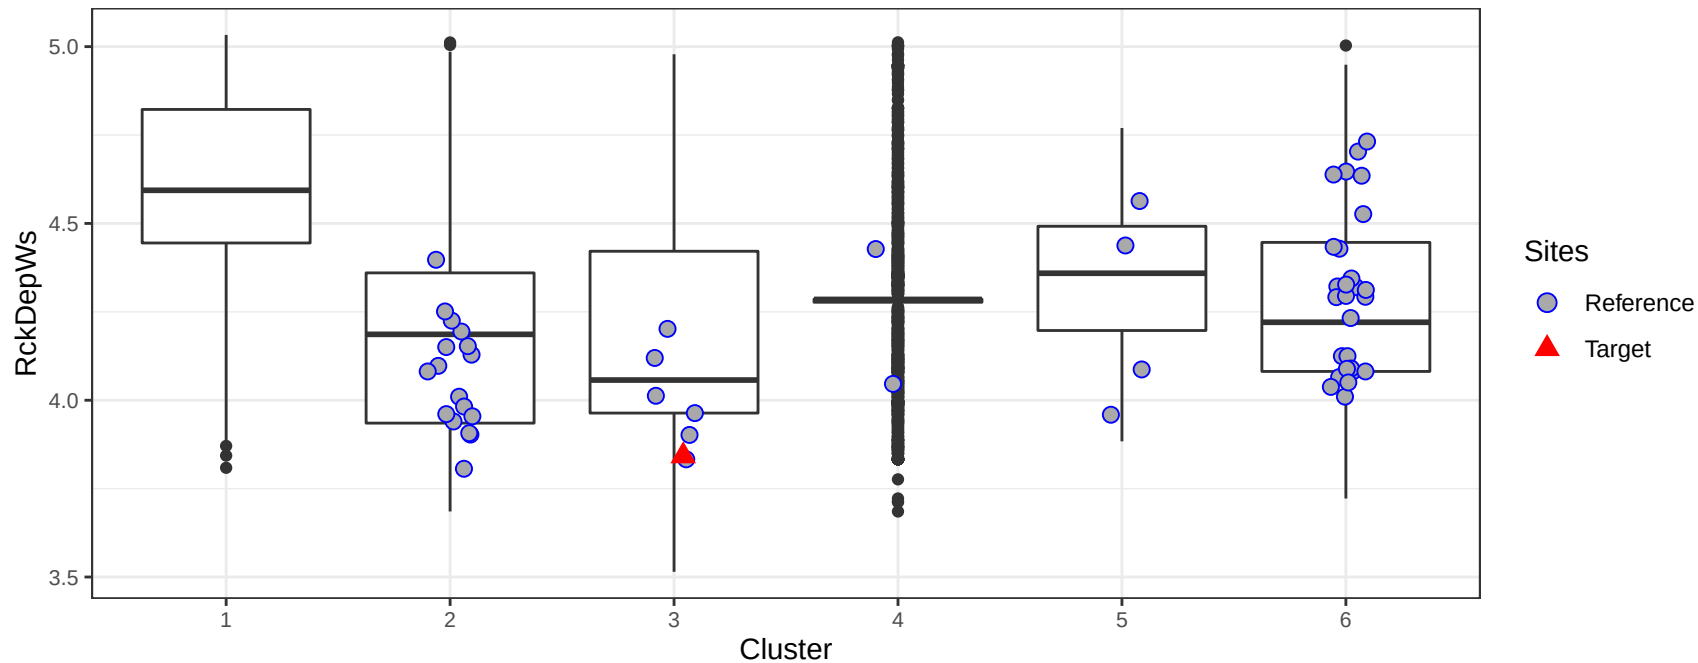

Mean annual flow (est.) (cfs) in the catchment by cluster

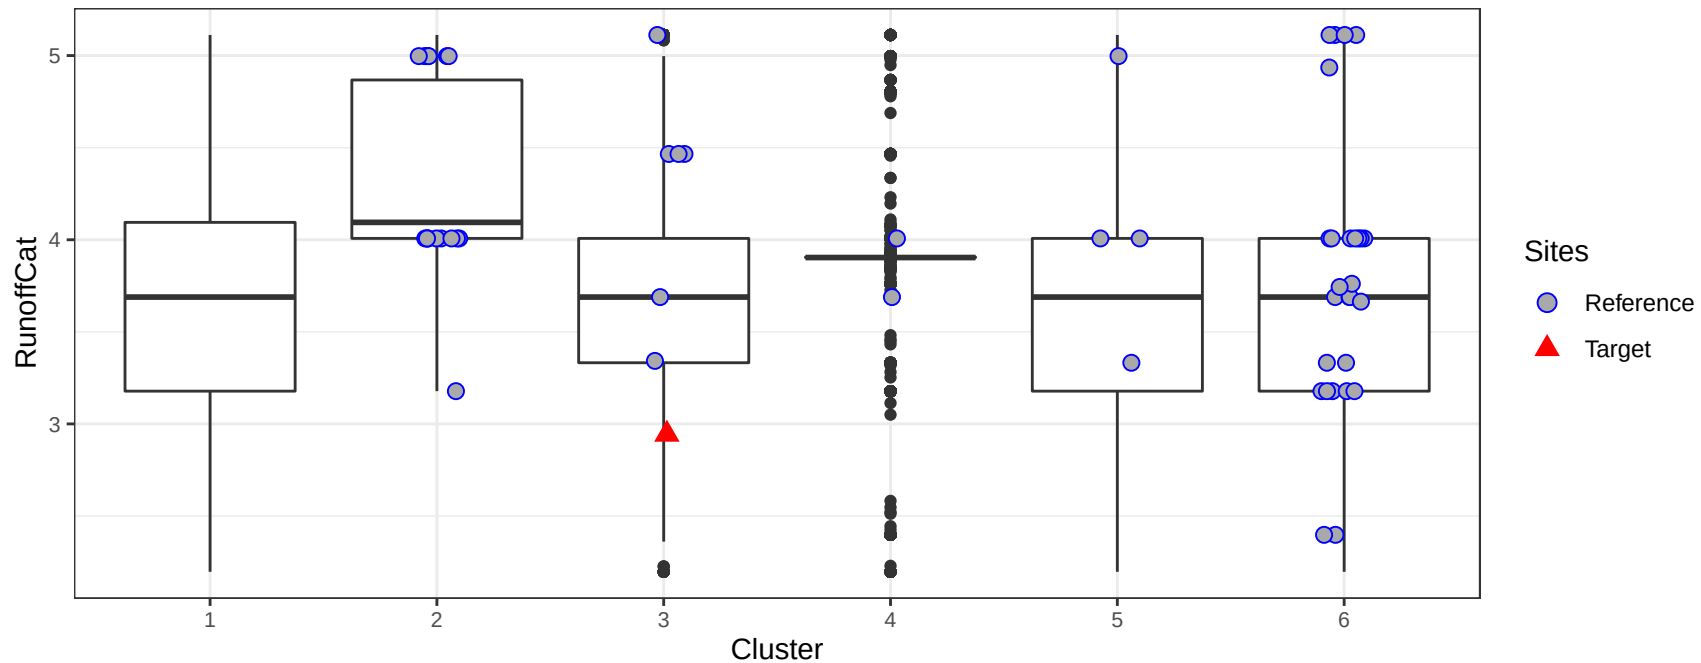

Mean depth to bedrock (cm/hr) in the catchment by cluster

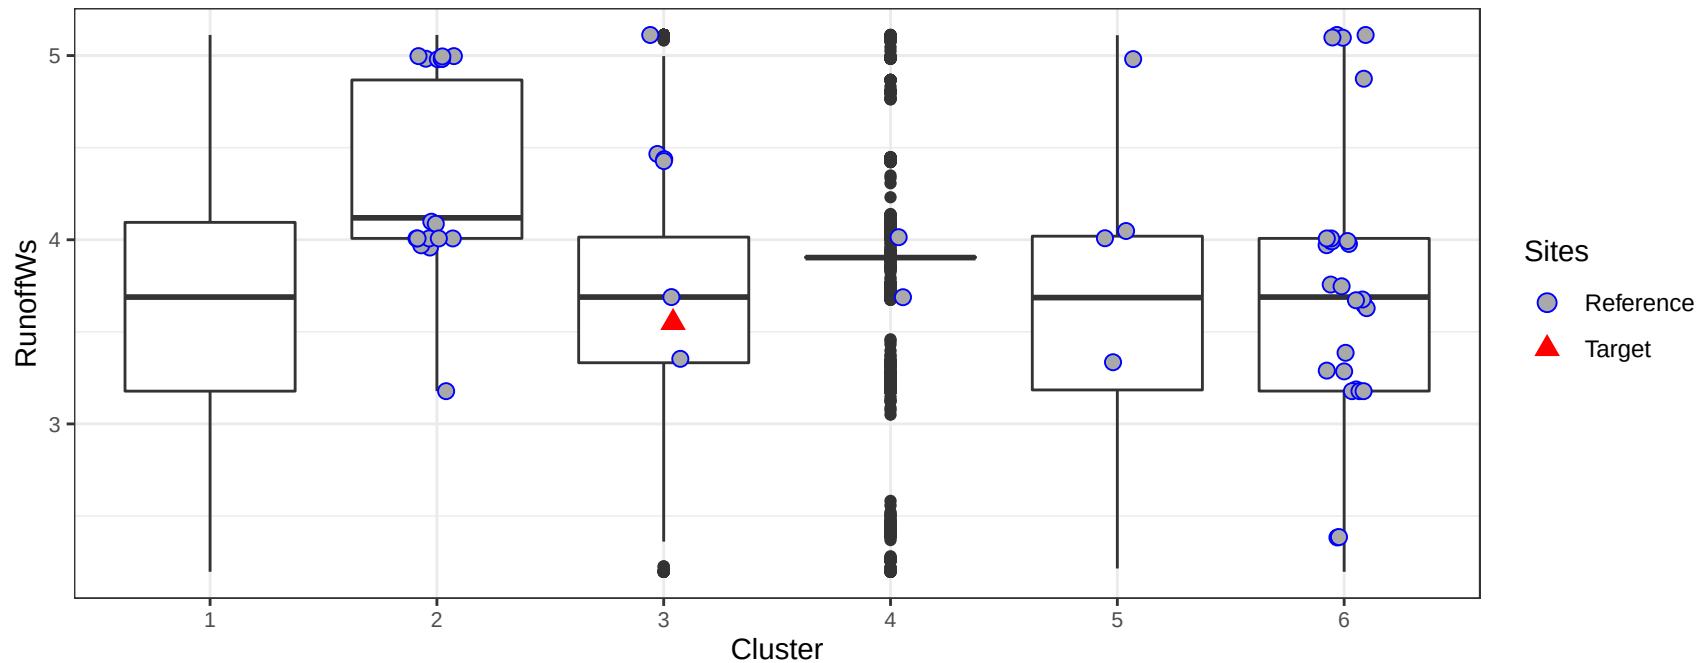

Mean depth to bedrock (cm/hr) in the watershed by cluster

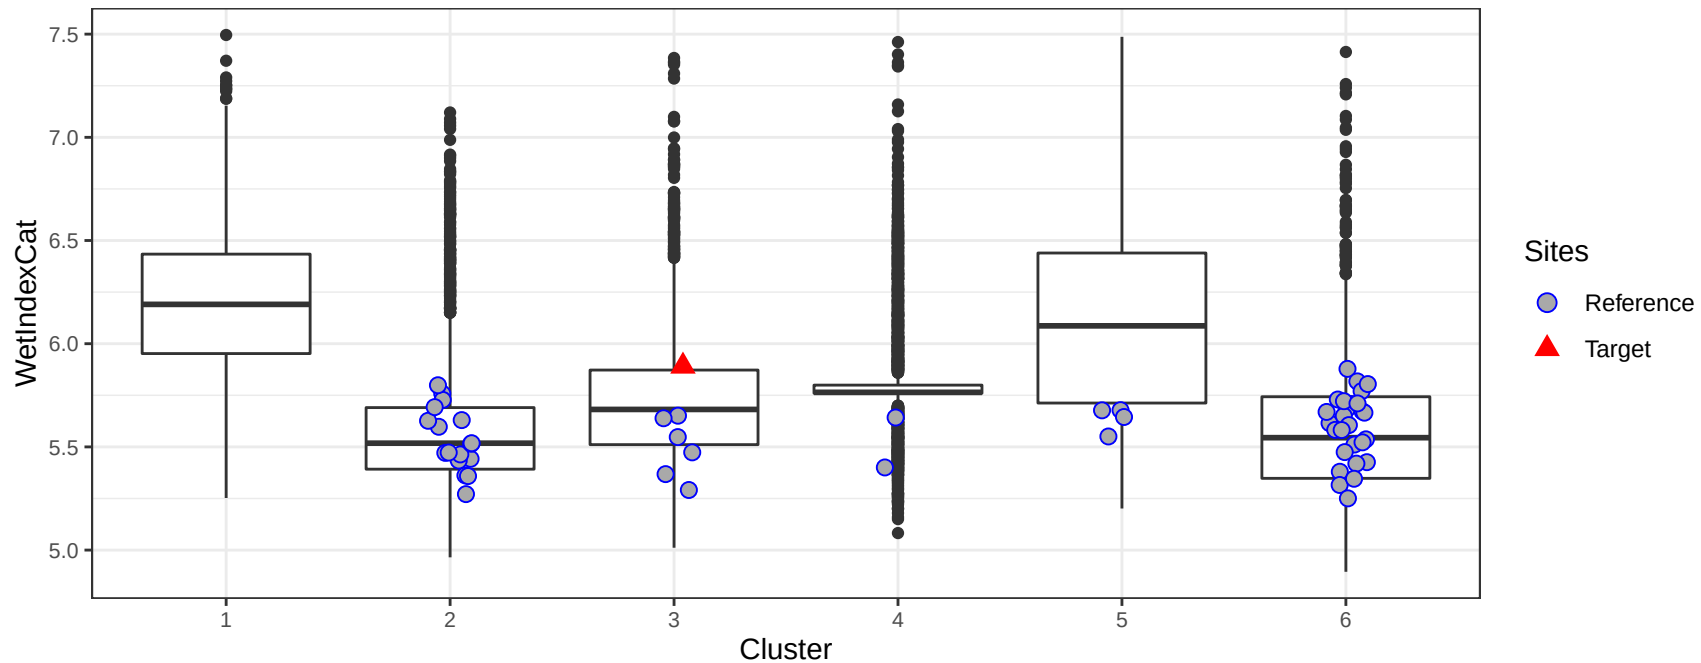

Mean runoff (mm) in the catchment by cluster

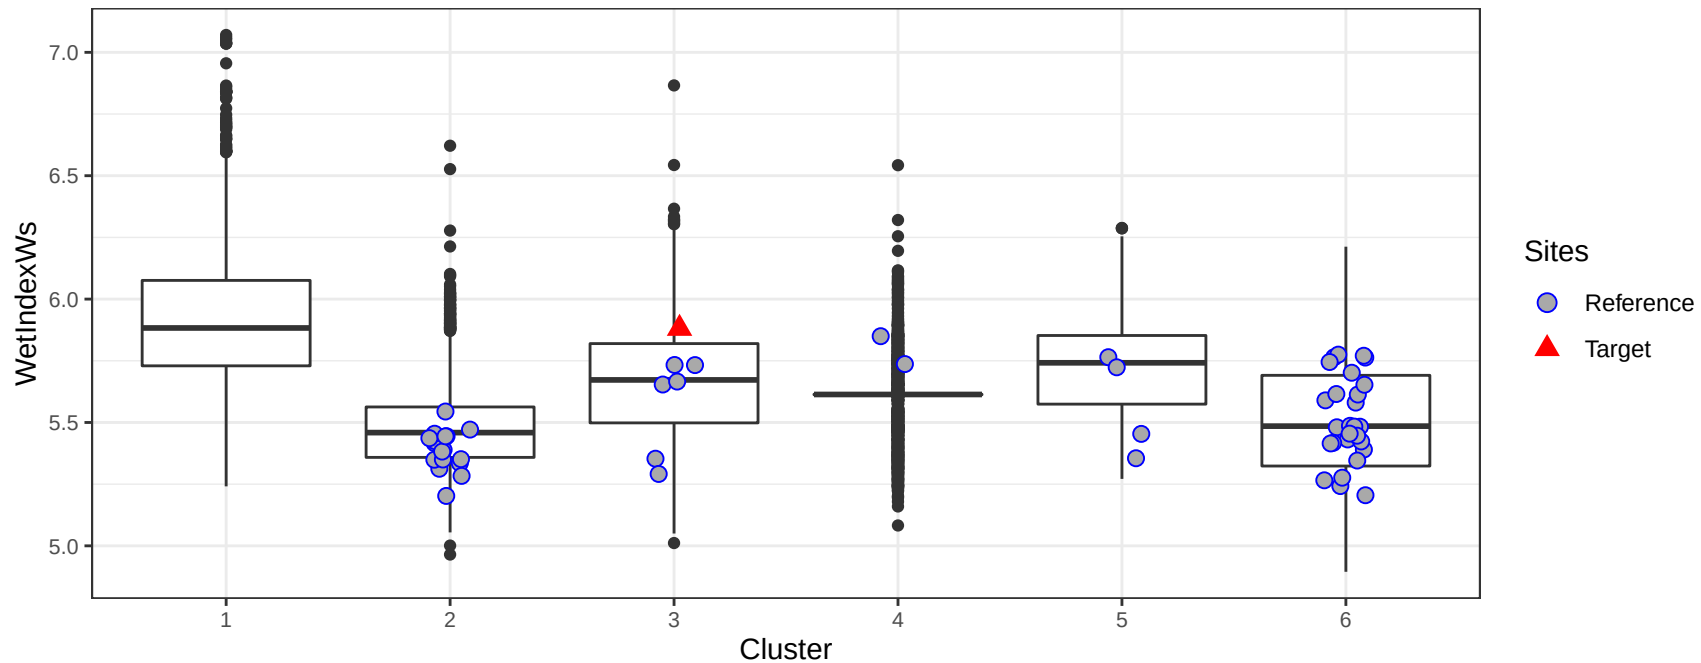

Mean runoff (mm) in the watershed by cluster

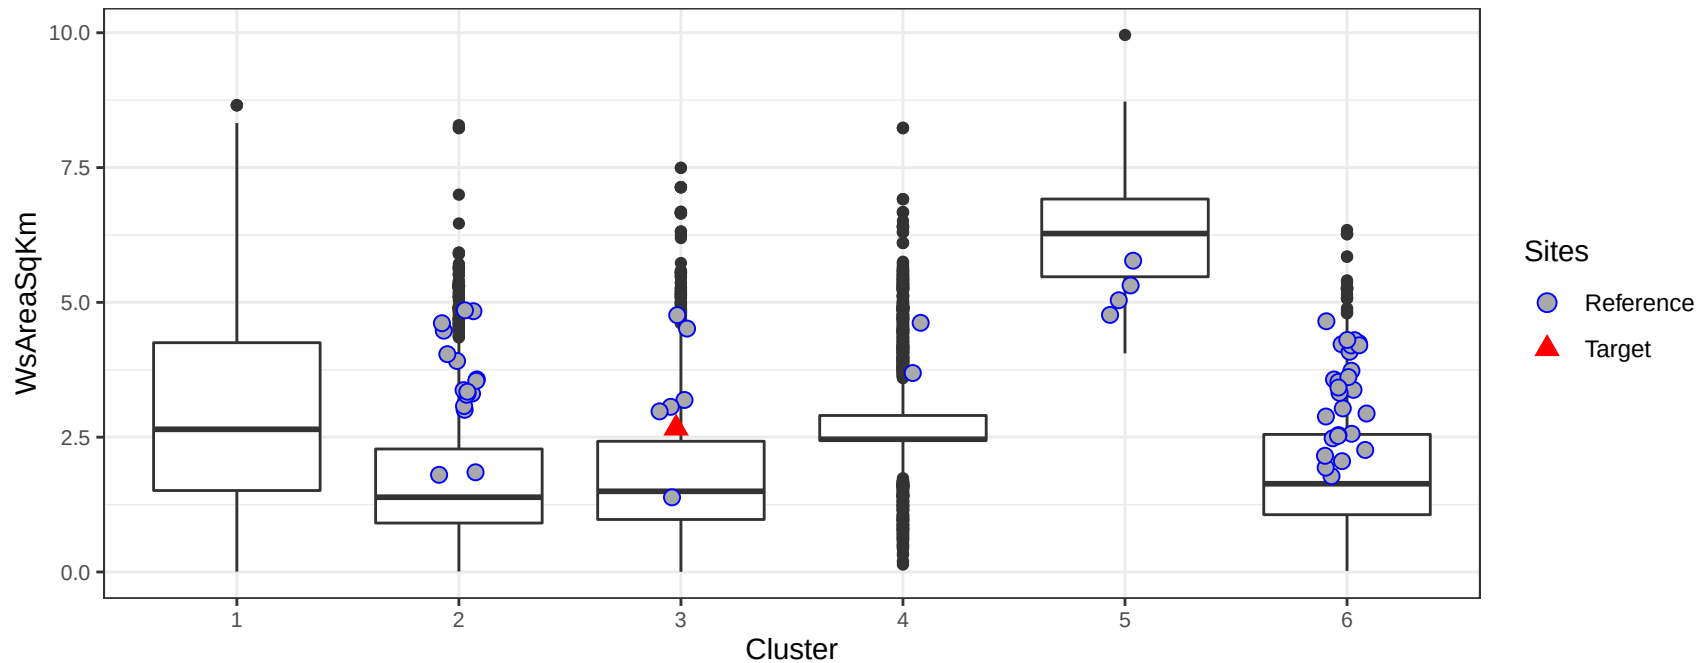

Wetness Index (unitless) in the catchment by cluster

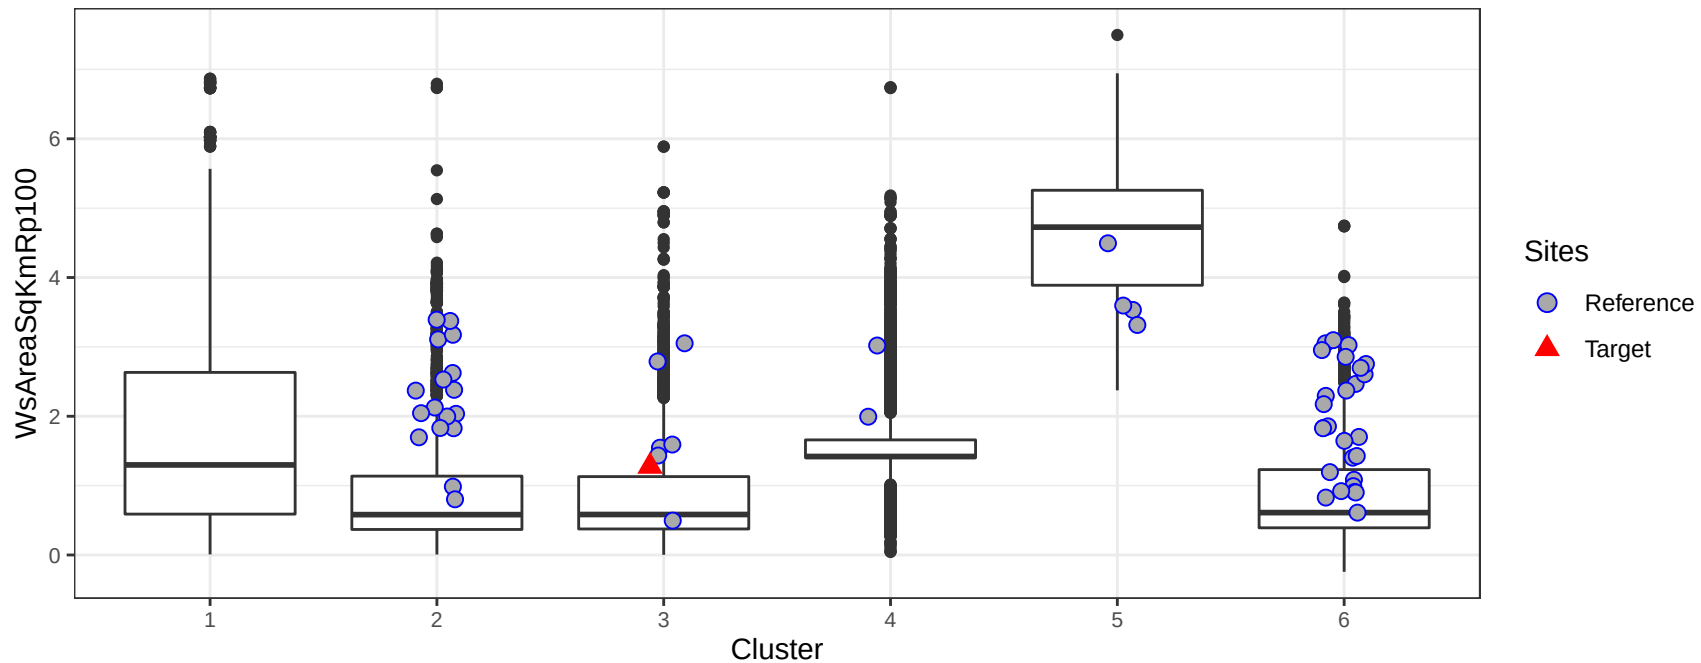

Wetness Index (unitless) in the watershed by cluster

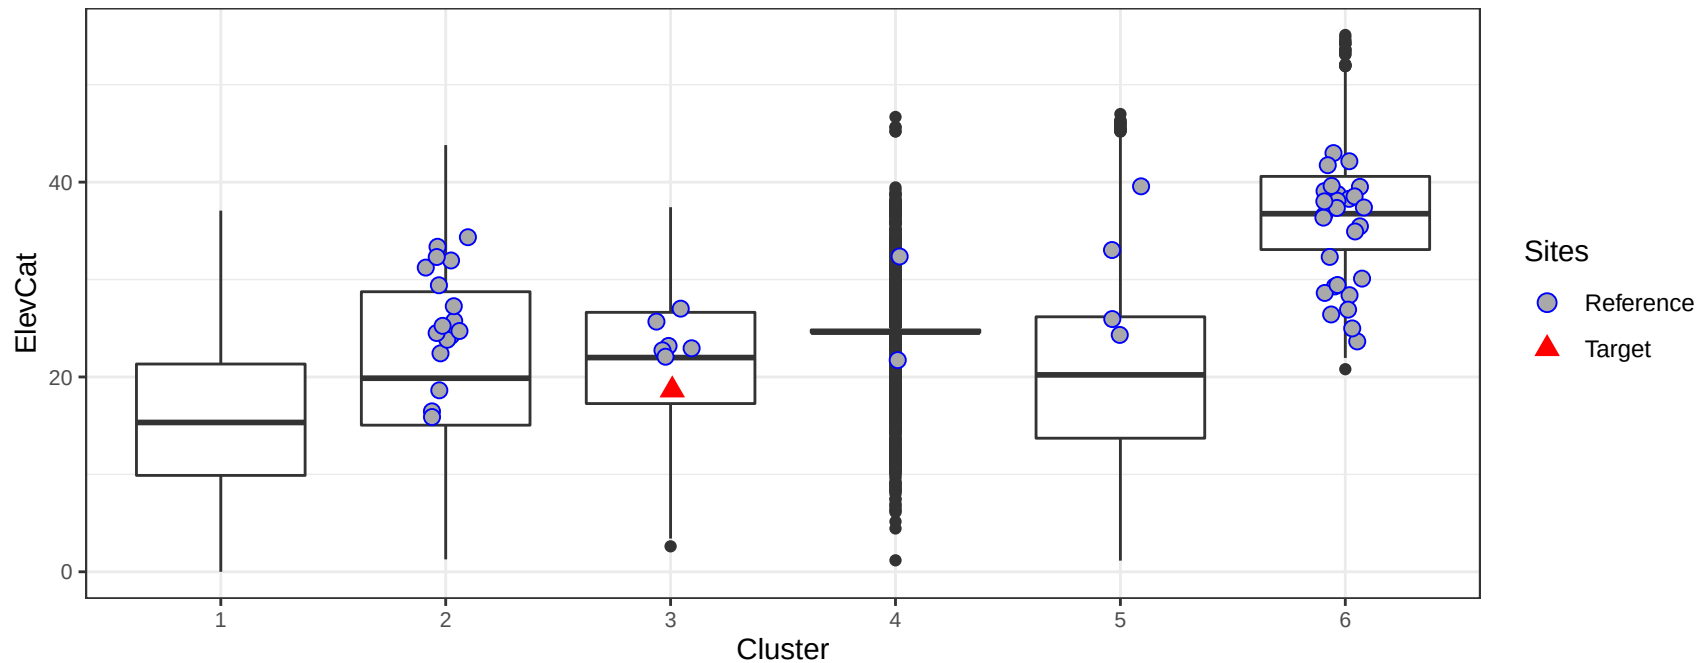

Drainage area (sq. km.) in the watershed by cluster

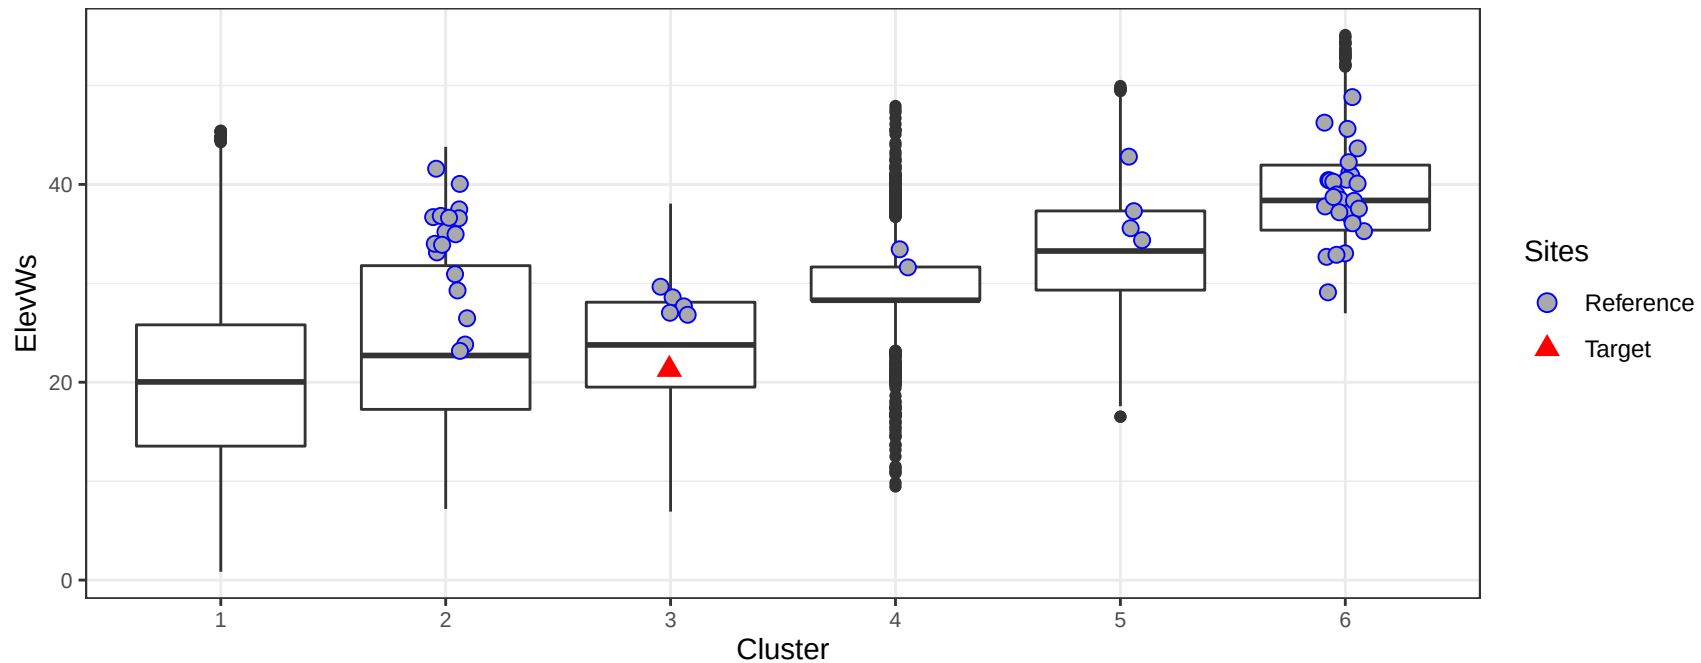

Area within the riparian buffer (sq. km.) in the watershed riparian by cluster

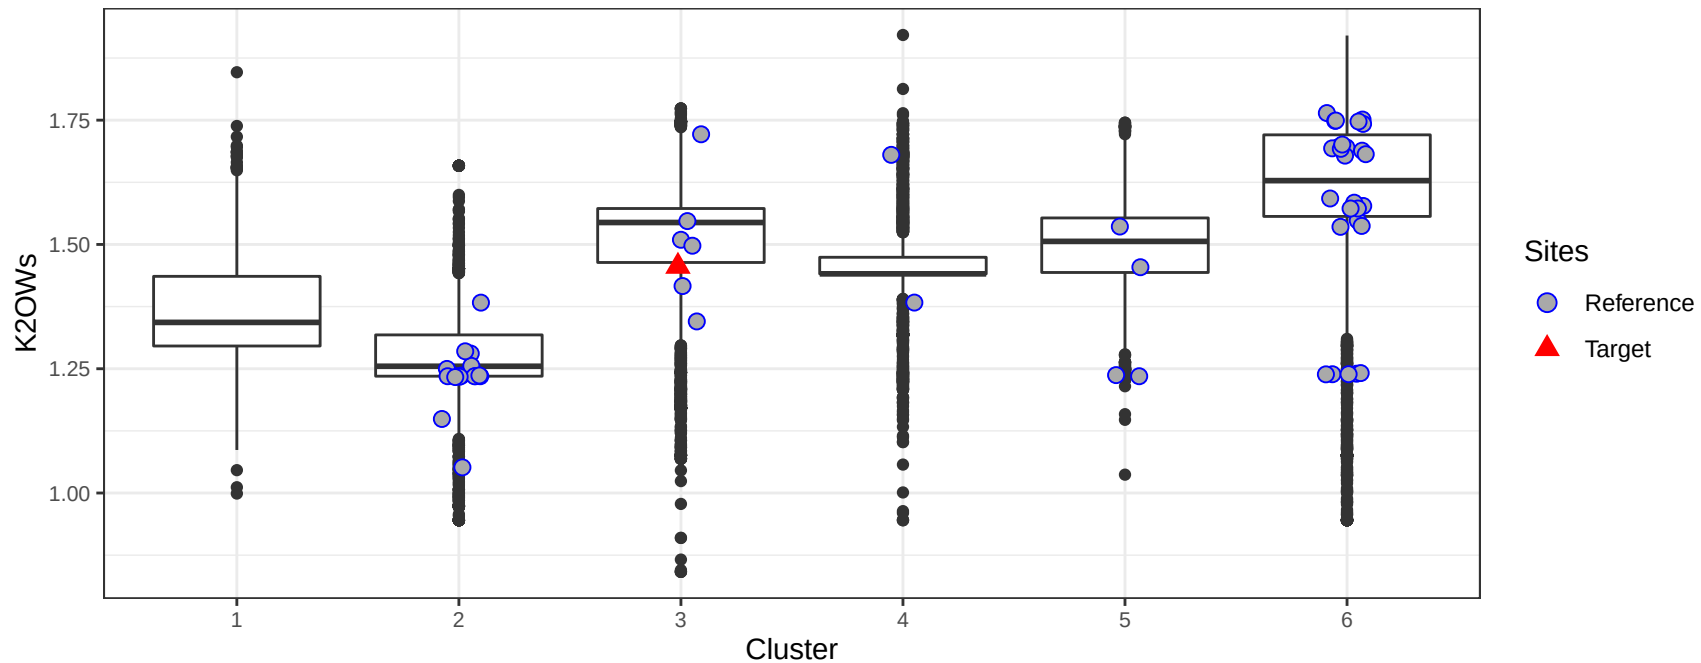

Elevation (m) in the catchment by cluster

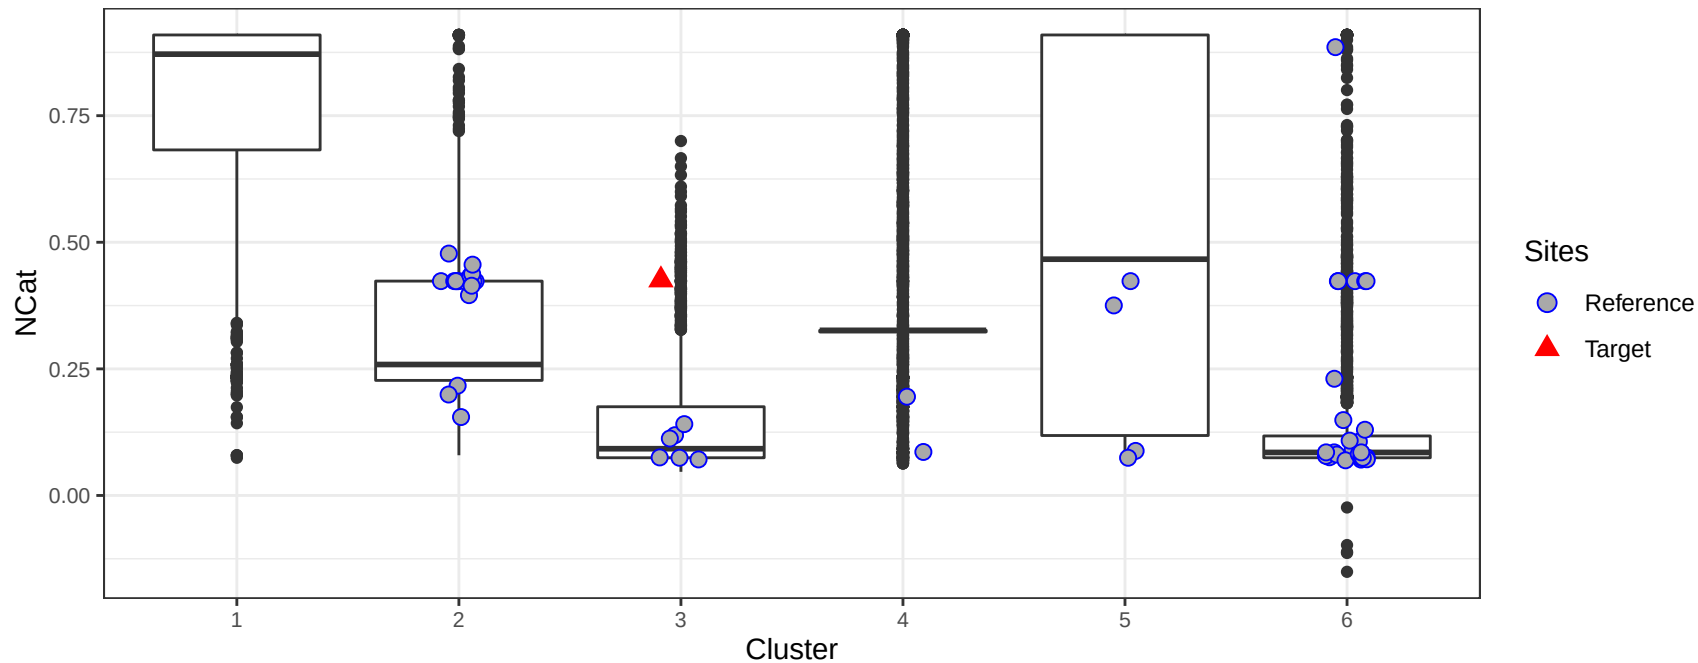

Elevation (m) in the watershed by cluster

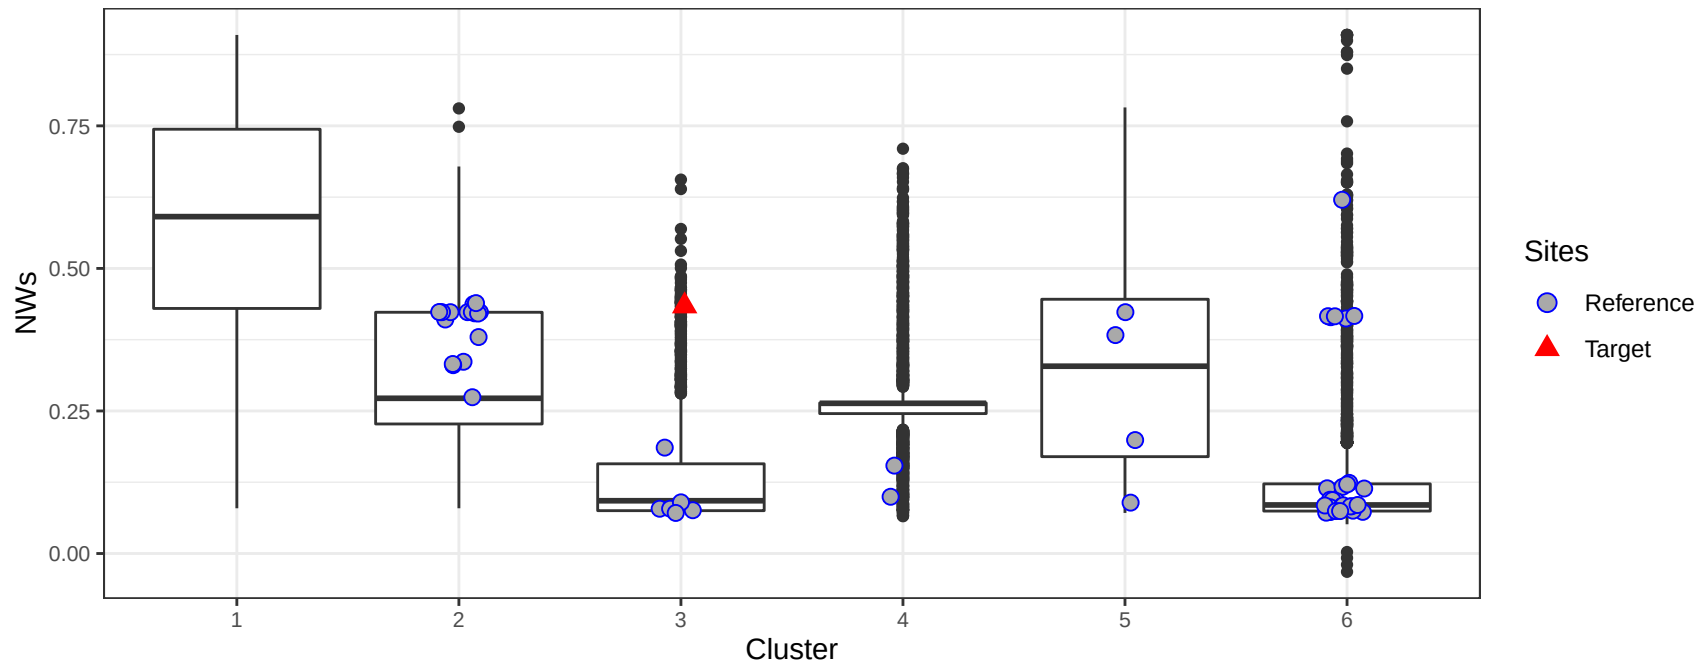

Surface K₂O content (%) in the watershed by cluster

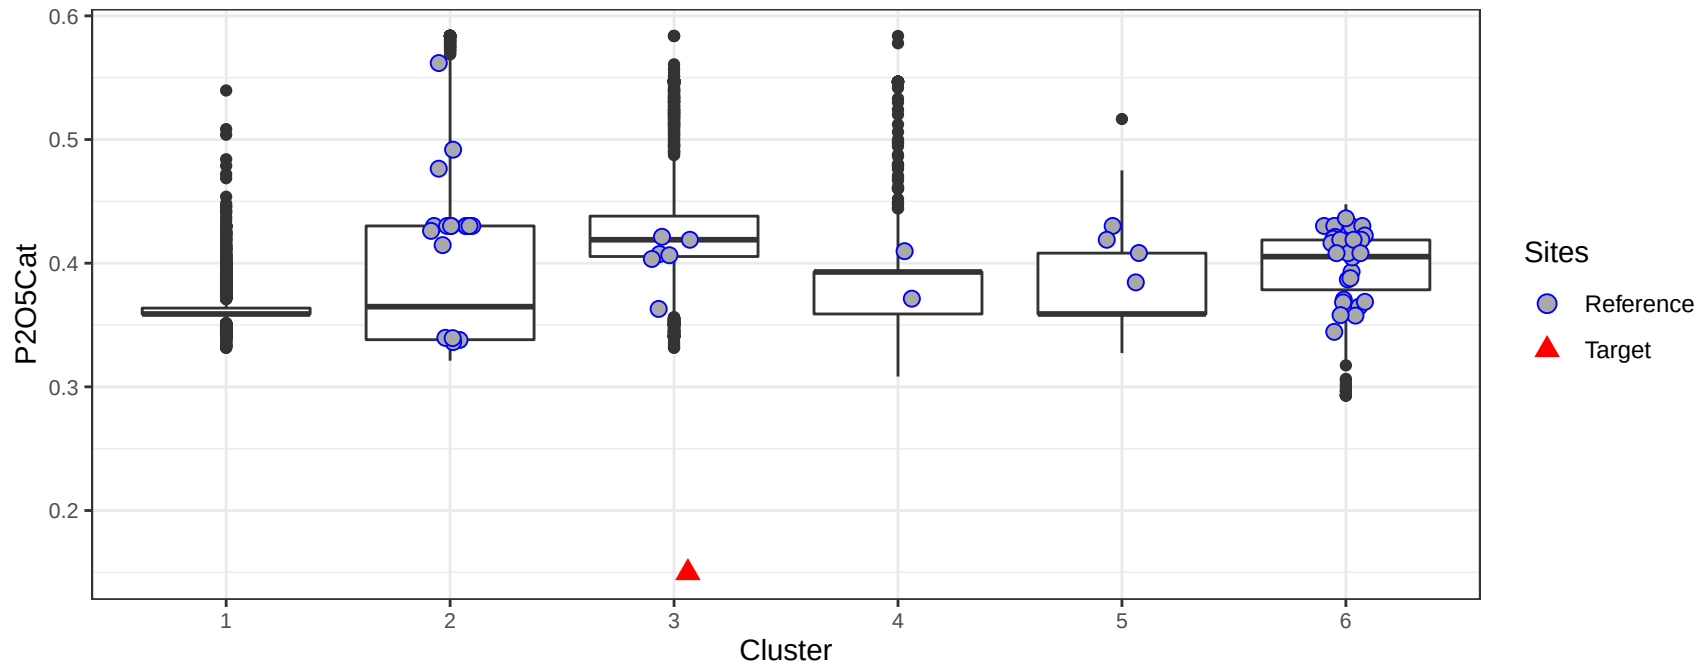

Surface Al₂O₃ content (%) in the watershed by cluster

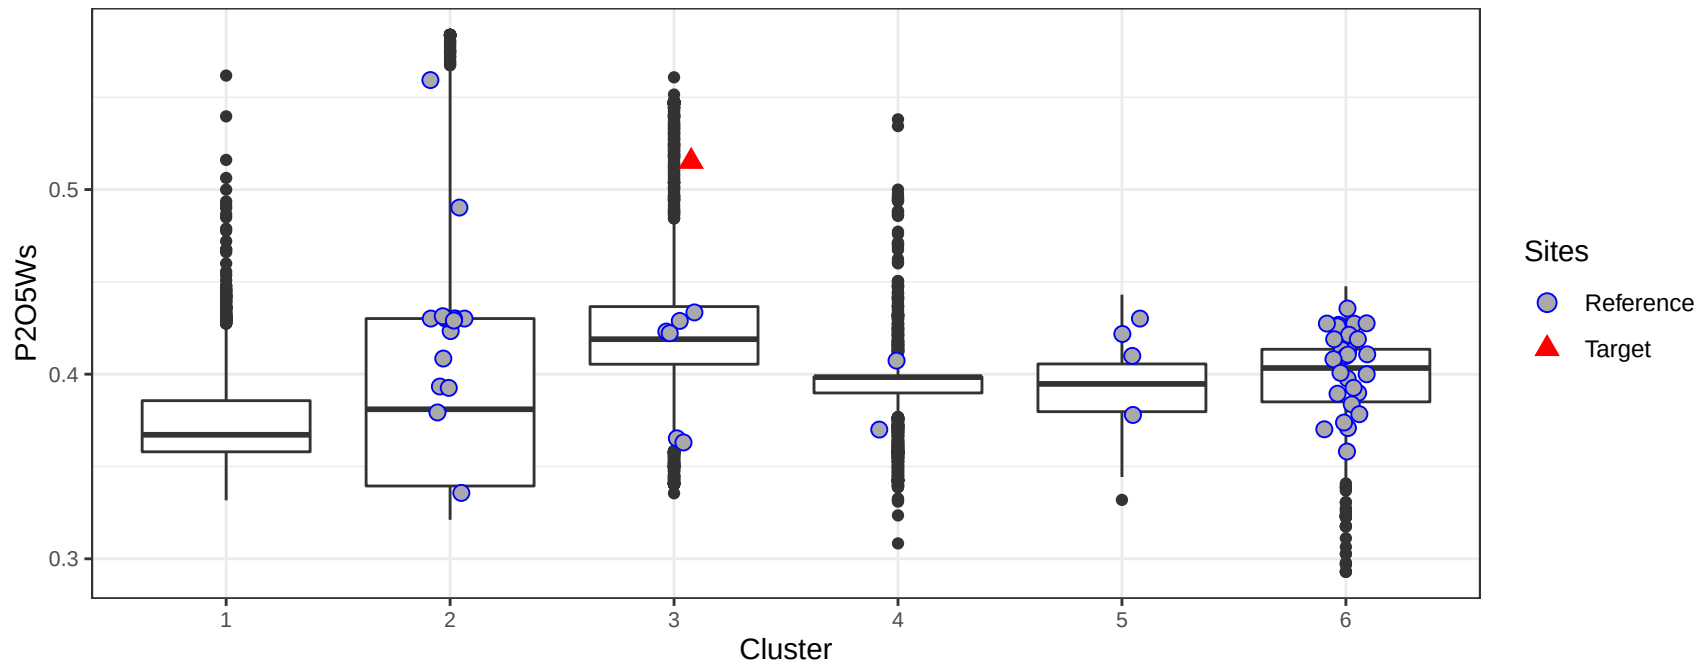

Surface Al₂O₃ content (%) in the watershed by cluster

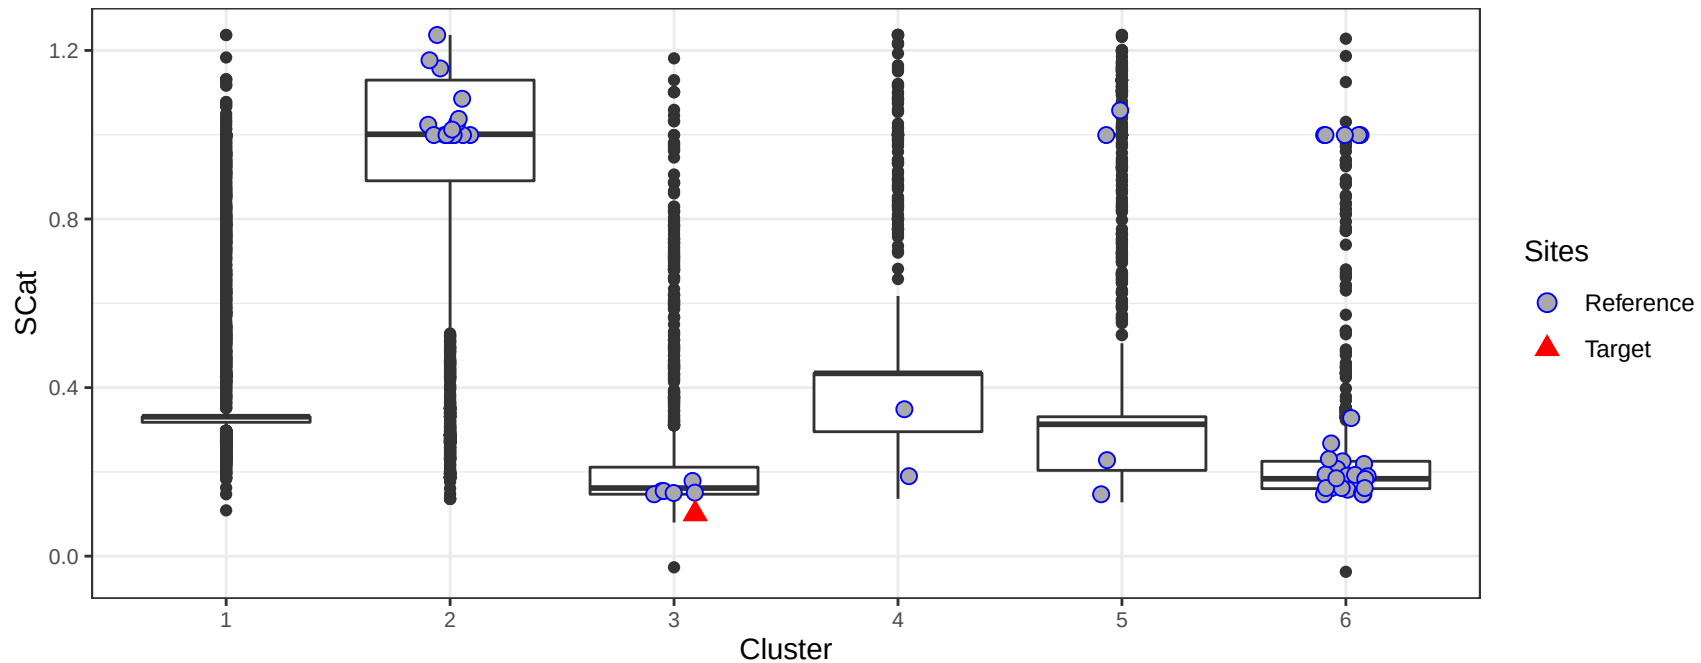

Surface P2O5 content (%) in the catchment by cluster

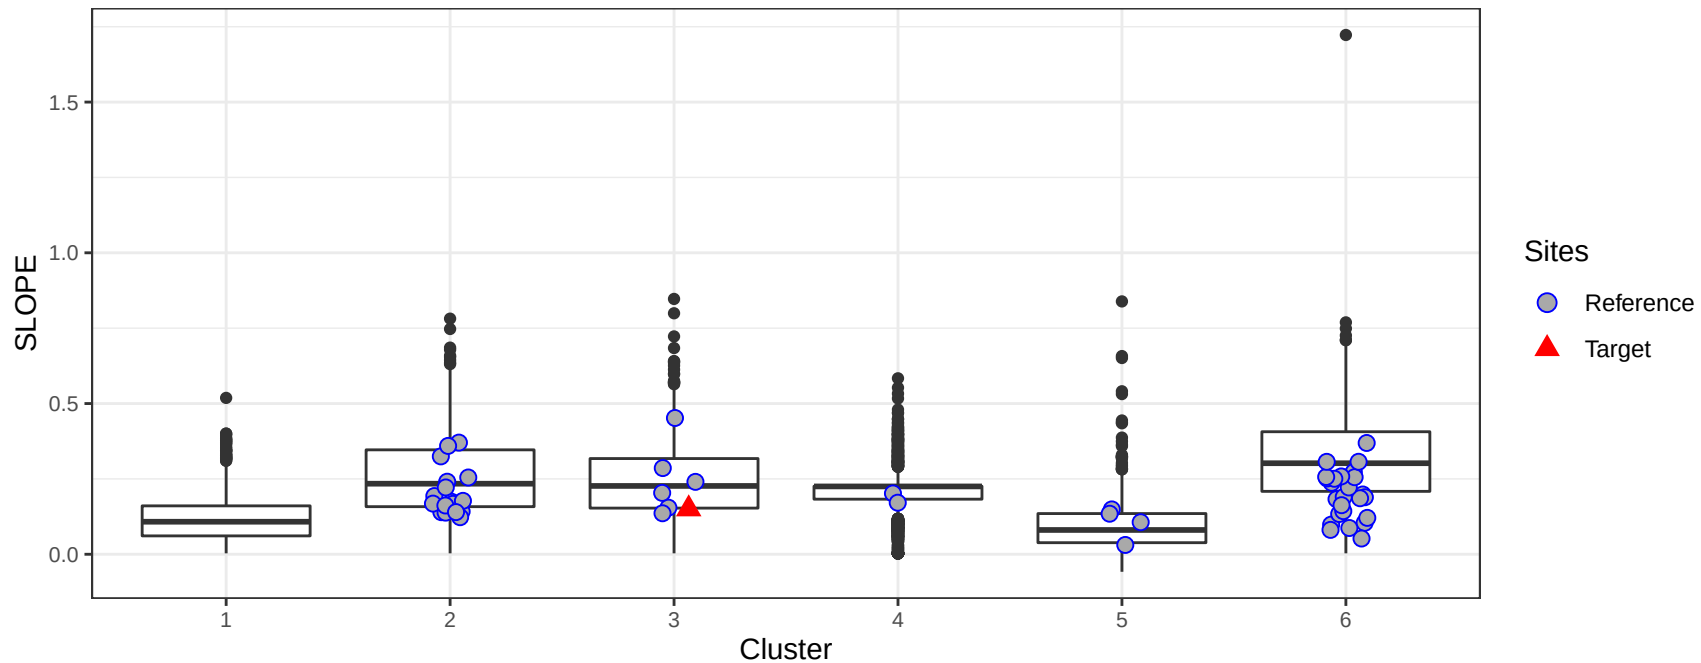

Surface P2O5 content (%) in the watershed by cluster

Surface S content (%) in the catchment by cluster

Slope (m/m) in the catchment by cluster

Surface S content (%) in the watershed by cluster
